

PIZZAGATE

STAP 1: Het heeft geen zin deze website te raadplegen als U niet wilt geloven dat de georganiseerde media systematisch liegt.

STAP 2: Bekijk deze korte [video](#). Over de pizzeria, de vrienden en de emails. En hiermee begint het verhaal pas...

PIZZAGATE: HET GROOTSTE SCHANDAAL OOIT

Dit gaat niet over pizza's, maar over de onthulling van het grootste criminele netwerk ter wereld. Het gaat over spionage, mensensmokkel, wapens, verdovende middelen, grondstoffen en de bijbehorende oorlogen. Het Watergate schandaal valt hierbij zelfs in het niet. De media zwijgt, terwijl de feiten zich opstapelen. Pas als Obama President af is, kan de ~~de~~ FBI het leger tot actie overgaan.

Pizzagate:

- Corruptie en afpersing binnen de VS regering, vrienden en bondgenoten.
- Wereldwijd volken en groeperingen aanzetten tot geweld.
- Kinderen te ontvoeren voor sex (met politici), ambtenaren en invloedrijke personen.
- Kinderen te ontvoeren voor orgaan transplantatie.
- Clinton Foundation. Geldwegsluizen, goud, olie, Uranium en wapens.
- Dyncorp. Mensenhandel voor sex en orgaan transplantatie. Zie NCRV rapportage Kathryn Bolkovac
- Dyncorp. Virussen en vaccins testen voor Bio wapens.
- Spionage, smokkel en geld witwassen. (CIA, NSA, Pakistan/Verenigde Arabische Emiraten)

Hoe begon Pizzagate, de emails

Pizzagate begon niet met Trump en was in het begin ook geen NEP NIEUWS...

- In 2012 zet Wikileaks de gehackte/gekopieerde emails online van de firma Stratfor welke contacten onderhield met de verschillende geheime diensten in Amerika.
- De emails welke Hillary Clinton op haar "prive" server had zijn door de **US State Department** vrijgegeven voor onderzoek. Wikileaks heeft vervolgens deze emails voor het publiek

toegankelijk gemaakt, door deze met een zoek functie op haar wikileaks.org server te plaatsen.

- Nadat John Podesta (campagneleider van Hillary Clinton) zijn **password**, zijnde "password" per ongeluk aan een internet hacker had gegeven (gerucht), zijn de emails bij **Wikileaks** terechtgekomen. Vervolgens heeft Wikileaks deze emails online gezet.
- De **FBI** had ondertussen de computer van Anthony Weiner in beslag genomen. Weiner is de man van Huma Abedin die naast Hillary Clinton staat. Op de computer is pornografisch materiaal aangetroffen en bewijs van kinderhandel, aldus de FBI te New York. Ook stonden er honderduizenden emails van Hillary Clinton op deze computer. Deelde Anthony Weiner deze computer/server/disk met zijn vrouw Huma Abedin? Kreeg Huma Abedin (automatisch) alle emails van Hillary Clinton toegezonden? Zijn het gestolen emails en is er sprake van spionage? [Gerechtigd bevel](#).
- Nadat Seth Rich, de **systeembeheerder** van Hillary Clinton, de emails van haar partij had gekopieerd en aan Wikileaks had doorgegeven werd hij op straat **geliquideerd**. [20.000 beloning](#).

Hoe begon Pizzagate, de onderzoekers

Bij het doorlezen van de emails van Hillary Clintons campagneleider John Podesta werden vreemd lopende zinnen ontdekt met het woord pizza erin. Dat het niet over de eetbare pizza's ging was duidelijk (uurtje pizza, domino spelen op pizza etc.). Het vrije leger van onbetaalde onderzoekers en journalisten ging op zoek. De sociale contacten van John Podesta werden onder de loep genomen in combinatie met het woord "pizza".

Als eerste kwamen de onderzoekers terecht bij **James Alefantis**, de eigenaar van de pizzeria Comet Ping Pong Pizza. Op zijn instagram pagina's kwam het woord "pizza" samen andere vreemde teksten voor bij afbeeldingen van **kleine kinderen**. De website van de pizzeria bleek een afgeschermd deel te hebben, waar je moest inloggen met een gebruikersnaam en een password. Nadat de onderzoekers deze inlog procedure hadden gehackt kwamen ze op een pagina waar je files kon downloaden. Hier had elke file wederom een eigen beveiligingscode. Dit deel was dus nog beter beveiligd. Een vreemde en bedenkelijke internet toepassing voor een pizzeria. De eigenaar van de pizzeria, James Alefantis, bleek dan ook niet zomaar een pizzabakker te zijn. Hij is een zeer invloedrijke persoon en staat in direct contact staat met vele invloedrijke mensen uit Washington DC en hij bezoekt regelmatig het Witte Huis.

Na deze ontdekkingen begonnen de alarmbellen begonnen te rinkelen en steeds meer mensen hielpen mee met het zoeken naar connecties tussen personen die genoemd werden in de emails en in de sociaal media accounts van deze mensen.

Er werd ontdekt werd dat ook in de eerder gelekte emails van Stratfor het woord "pizza" regelmatig voorkwam, en een andere betekenis had dan de pizza die je kan eten.

Op 21 november 2016 worden plotseling meerdere Twitter accounts per omgaande offline gehaald, dit nadat een gehackte lijst namen inlognamen werd verspreid.

Op 23 november 2016 werd het [REDDIT PIZZAGATE](#) platform waar de duizenden onderzoekers gegevens met elkaar deelden, abrupt offline gehaald. Nu begint de internet oorlog echt. Twitter, youtube en facebook gebruikers worden verwijderd, data gemanipuleerd, oude nieuwsberichten verwijderd en zelfs wordt data uit het internet archief verwijderd. De onderzoekers krijgen inlog problemen, betaal problemen en worden zelfs met de dood bedreigd. De onderzoekers doen aangifte bij de politie, komen indien nodig uit de anonimiteit en maken bekend dat ze geen zelfmoord neigingen hebben, ze leven in angst.

De mug is veranderd in een olifant en het wordt nog erger...

Hoofdrol voor de CIA

Het is maart 2017. In de laatste drie maanden, zijn er veel ontdekkingen gedaan. In het kort, komt het hierop neer:

Bush, Obama en de familie Clinton werken samen met de CIA.

Politici, worden chantabel gemaakt en worden vervolgens geholpen hogerop te komen. Dit geldt eveneens voor de rechters, advocaten en voor posten bij andere overheidsdiensten zoals het leger, de diverse geheimdiensten en alle politie organisaties.

Dat dit al altijd zo was (in beperkte mate) weten we door de vele schandalen. Maar sinds de jaren negentig, dus toen Bill Gates president werd, heeft de CIA de politiek compleet in haar macht gekregen.

De **CIA** heeft de Clinton Foundation opgericht. Een Foundation hoeft namelijk geen financiële verantwoording af te leggen en het ondersteunen van goede doelen was het masker voor de buitenwereld. Ondertussen is bekend dat meer dan 90% van de ingezamelde gelden door de Clinton Foundation niet zijn besteed aan goede doelen maar aan andere activiteiten. En dat zo'n 90% van de Clinton Foundation wordt gefinancierd door de Sonieten uit het Midden Oosten. De opdracht van de Clinton Foundation is dan ook onrust

veroorzaken, daar waar de Sonieten nog niet aan de macht zijn.

De **aanwijzingen** hiervoor zijn te vinden op vrijgegeven emails van Hillary Clinton en de gehackte emails van John Podesta, de Stratfor emails en de arrestaties van meerdere betrokkenen en niet te vergeten de klokkeluiders. En het geen toeval zijn dat bijna iedereen die onderzoek deed naar de Clinton Foundation is vermoord of onder verdachte omstandigheden is overleden.

Het ultieme **bewijs** dat de Clintons bij deze buitenlandse operaties betrokken zijn, is te vinden in de emails op de door de FBI in beslag genomen computer van Anthony Weiner.

De CIA heeft ondertussen bijna de complete controle over de media en het internet en dus ook de telefonie. En dat is ook de reden dat PizzaGate niet op tv komt, data van het internet wordt verwijderd en verspeiding van het woord Pizzagate betekend vaak afsluiting van sociale media.

Wat vooraf ging

In de VS is het al langer bekend dat de overheid zelf betrokken is bij pedofilie en kindersmokkel. Lokaal de kerk, de politie en soms de politici. En nationaal tot in de hoogste regerings kringen. De slachtoffers wordt het uitermate moeilijk gemaakt, bepaalde personen voor het gerecht te slepen.

Veroordeling?

- aangifte doen wordt tegengewerkt
- komt er een rechtszaak, duurt het erg lang voordat deze op de agenda komt
- bedreigingen of erger
- de verdachte wordt afgekocht en rechtszaak wordt ingetrokken
- komt het wel tot een veroordeling dan is de straf opvallend laag
- en de media houdt zich op de achtergrond

Incident

Op 3 december 2016 werd richting van de verkeerscamera, die op hoek van de pizzeria van James Alefantis staat verdraaid, zodanig dat de pizzeria niet meer zichtbaar was. De dag erna kwam er een boze man (de acteur Edgar Maddison Welch) met een pistool naar de pizzeria Comet Ping Pong van James Alefantis. Hij had namelijk bij de Georganiseerde Media [gelezen](#) dat er kinderen in kelder van de pizzeria zouden zitten. Hij "schoot" 1 kogel door de vloer richting de

kelder, die gelukkig geen kind trof maar de harde schijf van de computer, waarop de bovengenoemde website, met de vreemde login pagina, van de pizzeria draaide.

Diezelfde Georganiseerde Media kwam nu WERELDWIJD met de melding dat de eigenaar van een pizzeria het slachtoffer was geworden van NEP nieuws. Een pistool werd een automatisch geweer. Een nooit gehoord schot, werd een schietpartij en de tekst werd "Hillary Clinton runt kinderseks netwerk vanuit de pizzeria". Wat de media niet verteld over meneer Alefantis is zijn connectie met John Podesta, zijn Witte Huis bezoeken, zijn Instagram kinder en baby plaatjes etc. En hoe Alefantis, als niet politiker en als niet industrieel en als niet beroemdheid toch tot groep van 50 meest invloedrijke personen van Washington DC behoorde blijft een raadsel.

De Georganiseerde Media verspreid dit nep incident nu wereldwijd en vermeld daarbij dat dit NEP nieuws gevaarlijk is en dat er ingegrepen moest worden. De politiek komt nu met verklaringen dat deze ontwikkeling op het internet gevaarlijk is en dat deze ontwikkeling moet stoppen. Facebook, Twitter, Youtube, Google enzovoort moeten hun verantwoording nemen en ingrijpen. Wets wijzigingen zijn in opmaak. [Duitsland](#) - [EU](#) -

Obama betrokkenheid

Doordat de waarheid (dus Pizzagate) rondom de regering aan het licht is gekomen, heeft Hillary de verkiezingen verloren.

Obama heeft nu een groot probleem. Hij doet schijnbaar ook dingen die het daglicht niet kunnen verdragen. Obama liet voor **65.000 dollar hot-dogs** invliegen vanuit Chicago, voor een feestje. Dat het geen echte hog-dogs waren is logisch, de prijs en dat het eten in het Witte Huis uit deeigen keuken moet komen.

De vraag is dan ook, wat werd er bedoeld met het woord "hot dog"? O ja, wat ook nog redelijk belangrijk is om te vermelden, is dat James Alefantis tegelijkertijd met een bekende homo acteur bij Obama in het Witte Huis heeft overnacht... Het gerucht gaat dat Obama niet uit liefde met zijn Michelle is getrouwd maar alles een toneelspel was en dat een scheiding op de loer ligt.

Overleden of vermist

Het onderzoek naar Pizzagate loopt dan ook al enkele jaren blijkt nu. Het schandaal had alleen nog geen naam. Vele klokkeluiders, journalisten en onderzoekers hebben al lang aan de bel getrokken. Echter de samenhang tussen de incidenten en dode onderzoekers wordt nu pas duidelijk. De lijst met vermoorde/vermiste personen rondom Killary Clinton ligt nu al **boven de 100!** Familie, vrienden en huisdieren niet meegerekend.

Mede onderzoekers gestorven

De "open source" onderzoeken door burgers vindt plaats op het vrije internet. Meerdere, veelal anonieme, personen uit deze groep zijn bedreigd moord en met miljoenen hoge boetes. Als mensen plotseling stoppen met schrijven en zich niet afmelden weet niemand of ze nog leven. Bij velen bestaat het vermoeden dat ze zijn overleden. De onderzoeken hierna lopen.

Onderzoeker Aaron Dover is 42 jaar en komt met deze melding en is nu dood.

Het onderzoek

Het onderzoek naar de mistanden rondom de Clinton Foundation en loopt al jaren. De FBI probeert vaak een onderzoek op te starten, welke dan door hogerhand wordt tegengehouden. Bij oudere zaken tegen de Clintons speelt de CIA een dubieuze rol, evenals de hoogste rechterlijke macht. Met de komst van Donald Trump is er hoop dat deze foute krachten buitenspel wordt gezet en er tot officieel onderzoek kan worden overgegaan. Op dit moment wordt het onderzoek binnen de FBI tegengehouden door **James B. Comey en Andrew McCabe** (CIA?). Het is te verwachten dat Trump, Comey van zijn post zal ontheffen.

Update 10 Mei 2017: zoals ik 5 maanden geleden al voorspelde: Trump heeft James B. Comey ontslagen.
 De georganiseerde media, snapt er zagezegd niks van en noemt dit de meest onverwachte zet van Donald Trump.
 De vraag is dus, ben ik zo slim of ~~zijn zij zo dom?~~ speelt de CNN een spel met de bevolking?

Firing James Comey is Donald Trump unpredictable and dangerous

Analysis by [Chris Cillizza](#), CNN Editor-at-large

Updated 0150 GMT (0950 HKT) May 10, 2017

Het online onderzoek is ondertussen uitgegroeid tot een echte beweging. Terwijl de landelijke media melden wat ze krijgen opgedragen (van?) zijn de echte onderzoekers gezamenlijk bezig, met de gepubliceerde emails in de hand het verhaal waterdicht te krijgen. Iets waar zelfs officiële onderzoekers jaren voor nodig zouden hebben, wordt hier in een **paar maanden** compleet geanalyseerd en gepresenteerd. Dit alles uitgevoerd met input van medewerkers van lagere overheden, journalisten, FBI (anoniem), medewerkers van betrokken organisaties, slachtoffers, online onderzoekers en onderzoek ter plaatse.

Het is nu januari 2017. Het actieve onderzoek naar de Clinton Foundation, dus Pizzagate, is weer in volle gang. Donald Trump heeft zich meteen persoonlijk bij de CIA gemeld en laten zien dat hij achter de CIA staat en dus de rotte appels eruit gaat halen.

Als excuus dat het onderzoek al zo lang loopt en er eigenlijk niks is gebeurd, wordt nu medegedeeld dat de situatie zo erg is dat de **Nationale veiligheid** in gevaar wordt gebracht door dit onderzoek.

Inleiding

De verdachten zijn in meerdere groepen in te delen. Deze indeling is niet vast en exact maar we proberen zo het zoeken te vereenvoudigen. De menu tekstkleuren geven aan of de persoon in kwestie is aangeklaagd of is veroordeeld.

Nivo 1 - Regering

Dit zijn de groep mensen die binnen de regering het betrokken zijn bij het schandaal. Op dit nivo gaat het niet altijd om kindermisbruik.

Opvallend bij deze groep mensen hoe ze zich gedragen nadat Trump president is geworden. Ze zijn uit het openbare leven verdwenen. Geen Twitter berichten meer, geen interviews en al helemaal geen contact met mensen van de vrije media. Er gaan geruchten dat sommige van deze personen probeert het land te verlaten maar dit niet mogen. Opvallend bij deze groep personen is hun betrokkenheid bij hulpbehoevende kinderen. Ze "ondersteunen" de kinderen met prive stichtingen en bedrijven voor babysitting, weggelopen kinderen, weeskinderen enz.

En de horeca bedrijven die we hier tegenkomen zijn meestal politiek actief.

Nivo 2 - Organisatie en Financiering

De organisatie rondom kinderhandel vind plaats met ondersteuning van topmensen uit het bedrijfsleven en de overheid. Deze mensen staan altijd op de sponsor lijst van de Clinton Global Initiative. Ook vinden we hier de stichtingen die kinderen "helpen" en zich bezighouden met orgaantransplantatie, evenals de artsen die hierbij betrokken zijn.

Deze personen maken elkaar door middel van afbeeldingen (schilderijen, sculpturen, emblemen, juwelen etc.) duidelijk dat ze tot deze groep behoren. Enkele families komen we bij de verschillende Pizagate items elke keer weer tegen. De familie Clinton maar ook de familie Freud, de familie Epstein en de familie Rothschild. Bij al deze families vinden we connecties naar Satanisme, de Duivel, kindermisbruik en de bijbehorende kunst. Deze schokkende informatie is meestal gewoon te vinden op Wikipedia.

Nivo 3 - Buitendienst

Om producten te verkopen moet er reclame gemaakt worden. Dat gebeurt vaak vanuit Pizzeria's, nagelstudios en massage salons. Deze personen zijn de schakel tussen de professionele smokkelaars en de eindgebruiker, de pedofielen.

Op nivo 3 vinden we ook de artistieke mensen. De beeldende kunstenaars, performance artiesten en muziek bands. Deze mensen promoten pedofilie onder het mom van kunst.

Inleiding

Hier een overzicht van de onderzoekers die zich bezighouden met Pizzagate. Veel van deze onderzoekers zijn de laatste maanden gestorven. Monica Petersen,

Populaire en slimme onderzoekers die nu online zijn worden regelmatig **bedreigd en geïntimideerd** en zijn allemaal **bang** dat er iets met ze gebeurt of hun familie of vrienden. Om te voorkomen dat deze onderzoekers opeens verdwijnen van de aardbol vertellen ze dat ze geen zelfmoordneigingen hebben, hoe ze heten, waar ze wonen.

En zoals we weten zijn er de laatste maanden al meerdere onderzoekers en insiders vermoord. Zijn meerdere journalisten vanwege Pizzagate ontslagen, bedreigd, verwijderd van hun positie etc. zoals Benn Swann, Milo Yiannopoulos, Cynthia McKinney,

Het Pizzagate onderwerp is een van de meest besproken onderwerpen op het internet. Er zijn al duizenden video's over gemaakt honderden nieuws berichten zijn er geweest, tientallen websites zijn er voor gebouwd en op vele forums lopen discussies en informatie uitwisseling.

Ook in Nederlands vinden we blogs over Pizzagate.

Zit je op Twitter volg dan [#PIZZAGATE](#) en [#PEDOGATE](#). Nu is gebleken dat de leidende websites (youtube, facebook, twitter etc.) data veranderen, blokkeren en verwijderen, verspreiden de onderzoekers hun informatie over verschillende internet platforms.

De onderzoekers

George Webb - Connect the Dots - Follow the Money & Deaths

George Webb onderzoekt en analyseert FULL TIME wat er precies gaande is in de eredivisie van Pizzagate, Pedogate genoemd. Het gaat hierbij niet om het kindermisbruik in Amerika, maar de route er naar toe en andere misstanden rondom dit schandaal.

Wat gebeurt er voordat Amerika een land binnenvalt of regeringen in noodsituaties ondersteund, wat er dan gebeurt met de bevolking (kinderen en gevangenen), hoe Amerika regeringen en politie onder Amerikaanse controle krijgt, waarom er dan bijna altijd een epidemie uitbreekt waardoor er vaccinatie programma's moeten worden uitgevoerd, hoe grondstoffen het land verlaten en wapens het land binnenkomen.

Met behulp van informanten en lezers komt hij elke dag een stapje verder van wie er bij betrokken zijn en hoe het spel wordt gespeeld. Alle informatie die George Webb gebruikt staat online. En pizzagate operaties in Europa zijn al blootgelegd. Connecties met Nederland (MH17, JSF en dus de moord op Pim Fortuyn) komen langzaam boven water. George kan **ondersteuning** in de vorm van informatie gebruiken, dus volg hem elke dag en geef hem de gouden tip! Lees [hier](#) verder.

Inleiding

Als er zoveel slachtoffers zijn, waar zijn ze dan en waarom melden ze zich niet? Een logische vraag.

We kunnen het vergelijken met het kindermisbruik schandaal in de Katholieke kerk. Tienduizenden slachtoffers en maar een paar hadden zich gemeld en die werden natuurlijk niet serieus genomen. Dus waarom zou je je melden hebben de anderen gedacht. Pas toen de beerput opening kwamen de slachtoffers massaal naar voren. Nu weet iedereen het, duizenden heiligen hebben kinderen misbruikt. Vervolgd zijn de daders niet....

En we zien het nu in Engeland rond de BBC en de voetbal clubs. Daar hebben zich opeens duizenden slachtoffers gemeld.

En dan zijn er nog de slachtoffers die niet meer leven. In Afrika zijn al vele donor lichamen gevonden, deze mensen kunnen zich niet meer melden...

Trump onderneemt actie

Sinds Obama president af is, zien we we in de VS opvallend veel arrestaties rondom de mensenhandel. De topdag was 1 februari, meer dan vierhonderd mensen gearresteerd en tientallen kinderen zijn bevrijd.

Kinderhandel

Veel kinderen worden verkocht, ontvoerd, meegenomen en daarna als seksslaaf verkocht of verhuurd. En er zijn mensen die hun eigen kindern verhuren. Deze markt is professioneel georganiseerd, met kinderen kan je meer geld verdienen als met drugs.

Mind Control

Bij deze mensen wordt het handelen en denken beïnvloed door lichamelijke en geestelijke marteling. Door schrikbewind, verkrachting, afranselingen, ritueel misbruik en door elektroshocktherapie.

Een uitgebreide Nederlandse beschrijving is [hier](#) te vinden. En deel 2 [hier](#).

Veel mensen geloven niet dat mensen in staat zijn zoiets anderen aan te doen. Naast de slachtoffers zijn er genoeg officiële onderzoeken,

rapporten en geheime CIA documenten die deze onmenselijke praktijken bewijzen.

Ellen P. Lacter, Ph.D. [End Ritual Abuse](#)

Het is nu alleen nog wachten dat de georganiseerde media in Nederland durft te vertellen wat er aan de hand is en dan kan er begonnen worden met de daders te vervolgen.

Satanisme

Een onderwerp waaraan de Georganiseerde Media geen aandacht aan mag besteden. Dit omdat Satanisme vaak voorkomt binnen de elite. Satanisme is gewoon een kerk, de mensen geloven iets anders dan normale mensen en doen dingen die bij de wet verboden zijn. Het eten van mensen vlees, het drinken van mensen bloed, Het offeren van babys, kinderen en vrouwen. Ze snijden ze in stukken en vermoorden ze. Deze rituelen worden uitgevoerd op vaste dagen die zijn vastgelegd in Satans kalender. Deze mensen presenteren zich gewoon op het internet, ze staan boven de wet.

Velen Amerikaanse politici behoren tot een **Satanische sekte** welke jaarlijks een bijeenkomst hebben in de **Bohemian Grove**. Dat dit gebeurt is geen geheim. Getuigen en video beelden zijn overal te vinden.

Maar ook dit onderwerp mag de georganiseerde media niet behandelen.

Zie wat er in het vrije Amerika gebeurt als deze [student](#) in de universiteit toch eens informeert naar deze sekte.

De verhalen van de slachtoffers van Satanisme, vaak kinderen, zijn gruwelijk. [Hier](#) een officiële documentaire van de Duitse TV met Nederlandse ondertitels.

Verenigde Naties

Wikipedia:

De Verenigde Naties (afkorting: VN) zijn een internationale organisatie, opgericht in 1945 door 51 landen. Het is een intergouvernementele organisatie die samenwerkt op het gebied van het internationale recht, mondiale veiligheid, behoud van mensenrechten, ontwikkeling van de wereldeconomie en het onderzoek naar maatschappelijke en culturele ontwikkelingen.

De VN zal op zich een goede organisatie zijn. Maar enkele(?) medewerkers van de VN zijn schijnbaar niet in staat hun handen af te houden van kinderen. En de leiding van de VN is schijnbaar in staat dit probleem aan te pakken en houdt deze misstanden onder de pet. Zelfs bij het hoofdkantoor in Brussel is pedofilie zeer belangrijk en

een complete [sex studio](#) mag dan ook niet ontbreken. Maar het is toch de kracht van de georganiseerde media schandelen als deze te bagataliseren, niet verder te onderzoeken.

Dyncorp

DynCorp is een particulier oorlogs bedrijf dat in verband gebracht met de tienduizenden vluchtelingskinderen die wereldwijd zijn ontvoerd. Het bedrijf is al meerdere malen veroordeeld voor kindermisbruik.

Hollywood

In de glamour wereld van Hollywood was kindermisbruik bekend. Maar nu blijkt het niet om een paar kinderen te gaan maar om systematisch misbruik van de kleine talenten. Nu komen opeens ook de verhalen los van bekende acteurs. Hier een Engelstalig artikel in de [Los Angeles Times](#) en hier een officiële documentaire [An Open Secret](#) over het kindermisbruik in Hollywood.

Nederland

Ook in **Nederland** verdwijnen er zeer veel kinderen maar hieraan mag door de georganiseerde media geen aandacht aan beteed worden. De organisatie [Defence For Children](#) gaf onlangs een persbericht uit. En wederom heeft de landelijke georganiseerde pers hierover niets mogen publiceren laat staan vragen te stellen of op onderzoek uit te gaan.

De regionale media bestede hierover wel een artikel, gevonden in [De Stentor](#) en natuurlijk vele niet serieus te nemen onafhankelijke media en blogs.

Dit in tegenstelling tot berichten van kinderen in Afrika. Als in Afrika 100 kinderen worden ontvoerd krijgen we dat uitgebreid in de media medegedeeld. Worden [kamervragen](#) gesteld en geopperd of ons leger niet moet ingrijpen.

Hoe kan dat? Schijnbaar heeft Pizzagate uitlopers tot in Europa en Nederland. In de komende tijd zal het misschien allemaal wat duidelijker worden.

Inleiding

Bij getuigen hebben we het hier vooral over de mensenhandel die wereldwijd plaatsvindt. En we laten zien dat deze handel professioneel georganiseerd is. Met als daders dezelfde Amerikaanse firma's en dezelfde personen met dezelfde Pizzagate connecties.

De Amerikaanse regering huurt prive firma's in om oorlog te voeren en om te helpen. De meest bekende firma's zijn Blackwater (tegenwoordig Academi) en DynCorp. In werkelijkheid zijn het geen echte prive firma's maar is het de commerciële tak van de CIA. Door deze constructie kunnen misdaden gepleegd worden waarvoor de Amerikaanse regering niet kan worden aangesproken.

Deze firma's zijn dan ook veroordeeld voor mensenhandel en krijgen daarna weer gewoon nieuwe opdrachten uit het Witte Huis om in andere landen te gaan "helpen".

Het meest schokkende aan dit verhaal dat onze Staats media hier geen aandacht aan mag besteden. Kinderen in anderen landen zijn niet onze kinderen en schijnbaar minderwaardig.

BOSNIE

DynCorp was in Bosnie om te helpen. Het commando ter plaatse had:.... . Personen die we tegenkomen zetten we in een tabel. Label eraan of ze mee of tegen onderzoek waren en in welke landen we deze personen nog meer actief waren en hoe hun carrière verder ging.

David Lamb

David Lamb, politie agent uit Amerika werkte voor de VN mensenrechten in Bosnië. Hij had bewijs dat IPTF leden direct bij mensenhandel betrokken waren. [Washington Post](#).

Kathryn Bolkovac

[Kathryn Bolkovac](#), politie agente uit Amerika werkte voor de Internationale Politie Task Force in Bosnië. Daar zag ze hoe de VN in samenwerking met DynCorp professioneel mensenhandel bedreef. Prostitutie, pedofilie en moord uitgevoerd met goedkeuring onze regering en ons belastinggeld, dus Pizzagate.

1) Kathryn Bolkovac deed haar mond open maar niemand luisterde, ze werd wel ontslagen.

2) Ze schreef een boek maar de media had geen tijd.

3) Ze maakte een documentaire en als entertainment krijg je wel aandacht, niet voor het probleem zelf maar geld verdienen doet de media graag. Ze is te vinden in de filmrubriek van het Parool en het

NRC en in de lokale krant in van Breda, waar ze ondertussen woont.

Hoe is het mogelijke dat wereldschokkend nieuws, dat kinderen worden vermoord in Europa en bovendien de moordenaars worden betaald uit onze belasting pot, niet wordt vermeld in de media? Wel krijgen we uitgebreid te zien we hoe Boko Haram kinderen ontvoerd in Afrika en dat Russische kinderen slecht behandeld worden. Alles van de Georganiseerde Media, die uit diezelfde belasting pot subsidies krijgt. Wie wil weten wat er echt in Europa aan de hand is moet de Afrikaanse en Russische media volgens.

Inleiding

Kunst en entertainment wereld spelen een zeer belangrijk rol in Pizzagate. Ze wordt ingezet in meerdere facetten. Deze media worden gebruikt als reclame middel (muziek en video) en om pedofilie klanten te recrutereren. De beeldende kunst wordt gebruikt om illegale transacties te kunnen financieren door de verkoop van deze kunst met fictieve hoge prijzen, waarvoor eingenlijk diensten zijn geleverd (sex, organen, drugs etc.) Er zijn al mensen die honderden schilderijen hebben gekocht die niet aan de muur hangen.

Reklame

Een foto van een klein naakt kind aan de muur zou iedereen schokkeren. Maar een schilderij met de afbeelding van een vastgebonden kind wordt door buitenstaanders misschien vreemd gevonden, insiders weten precies met wie ze te doen hebben. Tony Podesta heeft zijn huis vol hangen met schilderijen waarop kinderen zich in onmogelijke situaties bevinden. Zijn bezoekers weten dus dat je over het onderwerp "kinder misgebruik" met Tony kan praten.

In het kantoor van John Podesta hangt een schilderij waarop bij iemand zijn hart uit zijn lichaam wordt verwijderd. John houdt zich schijnbaar bezig met orgaan transplantatie. Zijn bezoekers weten dus dat je over het onderwerp "orgaan transplantatie" met John kan praten.

Daarnaast worden er landelijke thema feesten georganiseerd waarbij kanibalisme en het verwijderen van organen in het middelpunt staat. Het grootste deel van de bezoekers vind zoiets grappig en vreemd, terwijl de insiders en zij die speciaal voor dit onderwerp zijn uitgenodigd wel beter weten. Tijdens zulke feesten kan je openlijk over zulke onderwerpen praten met outsiders en op zoek gaan naar nieuwe vrienden.

Factureren

Daarnaast is kunst de perfecte dekmantel om officiële facturen te kunnen sturen om verboden diensten (sex/organen) en verboden producten (wapens/drugs) te factureren. Voor wie geen zwart geld heeft en toch wil deelnemen aan kindersex of een (kinder)orgaan wil kopen, krijgt gewoon een factuur. Op de factuur staat dan vermeld dat het hierbij handelt om een schilderij. James Alefatis verkoopt dan ook niet alleen pizza's maar ook kunst.

Hollywood

In Hollywood is pedofilie een gigantisch probleem. De minderjarigen worden massaal misbruikt en zijn totaal machteloos. Dat zou het einde zijn van hun carrière droom (iets wat hun papa en mama teleur zou stellen), en zoals algemeen bekend levert aangifte doen bij de politie niks op. We zien ook dat zeer veel bekende artiesten maken deel uit van Pizzagate, bewust of onbewust. In de muziek en de video's die deze artiesten maken zijn pizza's, kinderen en sadisme een belangrijk thema en worden de pedofilie symbolen in deze video's verwerkt. Als artiesten wat ouder zijn durven ze soms hierover te praten. Wie hierover praat krijgt zal zijn huidige carrière op het spel zetten en/of in financiële problemen komen of zelfs vermoord worden. Uit deze scene te stappen is moeilijk. Je carrière zal instorten en het lijdt soms tot de dood. Artiesten die nu willen uitstappen hebben gezien wat er met hun collega's is gebeurd.

Popmuziek

Artiesten die betrokken zijn bij pizzagate zijn eenvoudig te ontmaskeren. Het zijn deze artiesten die rondom de verdachte politici opduiken. Deze artiesten gebruiken de pedofiel symbolen als pizza en vlinders veelvuldig. Alle artiesten moesten Hillary Clinton promoten. Zingen, interviews, T-shirts alles voor Hillary. Als Hillary Clinton geen president zou worden, noemen deze artiesten dan ook een nachtmerrie. Waarom dat zo is begint nu, met pizzagate, duidelijk te worden.

Lokaal entertainment

De onbekende artiesten die optreden in de pizzeria Comet Ping Pong en tot de pizzagate pedofilie cultuur horen maken daar ook geen geheim van, in tekst en beeld maken zij dit duidelijk.

Boeken

Boeken over pizzagate-pedofilie zijn er ook, zelfs voor kleine kinderen. In de pizzage boeken staan codes en aanwijzingen voor de insiders. Ook James Alefantis heeft zo'n boek geschreven.

Inleiding

Tijdens het onderzoek worden verdachte lokaties genoemd. Dit kan zijn vanwege de eigenaar, haar bezoekers, incidenten, genoemd in emails, verdachte transacties of dat iemand deze lokatie heeft gemeld voor onderzoek.

Op de locaties kunnen zich verborgen ruimtes bevinden (zoals bij Dutroux), als huisvesting voor kinderen hebben plaatsgevonden, als doorvoer locatie hebben gedient, kunnen zich tandverwijdering en operatie kamers bevinden, als CIA steunpunt hebben gedient (wapens, biowapens, chemicalien) etc.

De kleur codes geven de status van het object aan. Wit = geen status
Rood = verwoest Paars = zeer verdacht Geel = verdacht Groen = was verdacht

Verwoest

Het bouwkundige bewijs materiaal op genoemde locaties is niet makkelijk en onopvallend te verwijderen. Sloopvergunning, explosies en brand zijn de meest effectieve methoden.

Washington DC

De meeste lokaties voor onderzoek liggen in de regeringshoofdstad Washington DC. McLean valt hier ook onder.

Connecticut Avenue

De Pizzeria van James Alefantis ligt aan **Connecticut Avenue** in Washington DC. Meerdere panden in de directe omgeving zijn verdacht. Vanwege eigendom en/of gebruikte logos.

[James Alefantis](#)

En **James Alefantis** heeft meerdere panden in zijn bezit of doet er zaken. En niet alleen in Washington DC maar ook daarbuiten, zelfs in Duitsland.

Buiten Washington DC

Naast Washington speelt Pizzagate zich af in andere steden en op lokaties ver van de bewoonde wereld. De verdachten hebben deze

objecten bezit of komen er op bezoek. Daarnaast zijn de ambassades van die landen waar de Clinton Foundation zaken mee deed verdacht.

Europa

Berlijn

In Berlijn heeft James Alefantis samen met de Amerikaan Oliver Miller nog een restaurant, [NALU Diner](#).

Voormalig Joegoslavie

Na de Kosovo oorlog in het voormalig Joegoslavie is de mensenhandel daar tot leven gekomen.

Inleiding

In de Pizzagate affaire komen veel bedrijven en stichtingen voor. Dat wil niet zeggen dat deze bedrijven en stichtingen slecht werk doen. Vaak gaat het slechts om enkele personen binnen een organisatie die betrokken zijn bij zaken die het daglicht niet kunnen verdragen. De rest van de medewerkers zijn zich dan ook van geen kwaad bewust.

Clinton familie

De Clinton familie is bekend om de Clinton Foundation. In werkelijkheid hebben ze meer dan 100 bedrijven en stichtingen. En tussendoor worden nieuwe opgericht en andere weer gesloten. De boekhouders zijn er zo druk mee dat zo'n 90%(?) van de opgehaalde gelden zijn verdwenen. En goedgekeurde jaarverslagen is iets waaraan de Clinton Foundation niet doet. Op de website is te zien waar het geld vandaan komt en ongeveer hoeveel dat is, uitgaven zijn zo goed als niet te ontdekken.

Nu het onderzoek naar de Clintons loopt worden plotseling stichtingen gesloten om sporen uit te wissen.

IVANKA TRUMP KRIJGT OPDRACHT KINDERHANDEL AAN TE PAKKEN

Goed nieuws voor Pizzagate. Omdat dat FBI, CIA en NSA niet in staat zijn mensen smokkelaars te stoppen heeft Donald Trump zijn dochter Ivanka aangesteld om dit probleem aan te pakken.

De handel in kinderen (en vrouwen) bevat onder anderen:

- kinder prostitutie aanpakken
- blanke kinderen die verkocht worden aan de olie exporterende landen
- orgaanhandel van vermoorde kinderen stopzetten
- kinderen op afstand verwekken als orgaan backup via "Foster Parent Plan" achtige constructies
- kinderadoptie onderzoeken
- amber alert misstanden
-

Tijdens TRUMP als president al meer **2000 arrestaties** rondom kinder sex in twee maanden. Onder de arrestanten bevinden zich politici, burgemeesters, politie agenten, geheime dienst medewerkers etc. [474](#) - [42](#) - [178](#) - etc.

De grens tussen Amerika en Mexico wordt niet goed bewaakt. Terwijl in Europa prikkeldraad grenzen worden gebouwd om vluchtelingen tegen te houden, zal Amerika zijn grens voor smokkelaars gaan sluiten. Per jaar verdwijnen er duizenden kinderen in Mexico...

OBAMA'S LAATSTE WERK DAG - 19 JANUARI 2017

Op zijn laatste werkdag heeft Obama bommenwerpers, naar het inmiddels weer rustige, Libie gestuurd. Daarb zijn in totaal zo'n 80 mensen om het ~~leven gekomen~~ [vermoord](#).

Het is zeer aannemelijk dat onder deze mensen zich personen bevonden welke belastenden informatie hadden over de betrokkenheid van de Obama regering en Hillary Clinton betreffende de wapensmokkel voor de ISIS terroristen en de moord op het ambassade personeel in Benghazi. Het onderzoek hierna is nog niet afgesloten. Belangrijke informatie hier omtrent is te vinden in de emails van Hillary Clinton's die stonden op haar geheime email server, thans in bezit van de FBI in New York, die op haar beurt weigert deze informatie af te staan, laat staan te onderzoeken.

Media zwijgt en verdraait

Het is de meest interessante tijd voor de journalistiek. Persoonlijke schandalen, geldverduistering, omkoping, spionnen betrapt, CIA data op straat, FBI doet stiekum hetzelfde als CIA en luistert af. En wat meld de georganiseerde media? Niks. Dit is hoogst **ongebruikelijk en zeer verdacht**.

De feiten:

Er liggen tienduizenden emails op straat. Teveel onderwerpen om te vermelden. De media zwijgt.

De Postcode loterij gaf miljarden aan de inmiddels failliete Clinton Global Initiative. De media zwijgt.

Clinton Global Initiative gaf minder dan 10% uit aan goede doelen. De media zwijgt.

Op Anthony Weiners computer staat bewijs dat hij is betrokken bij kindersmokkel. De media zwijgt.

John Podesta (Hillary's adviseur) gaat met drie kleine kinderen in bad. De media zwijgt.

Duizenden arrestaties vanwege kindermisbruik in de VS. De media zwijgt.

Computer hardware gestolen van Congress leden over geheime dienst operaties en oorlogshandelingen. De media zwijgt.

Gelogen hebben Hillary Clinton, Comey (FBI) etc. De media zwijgt.

De CIA werkt samen met Apple, alle hardware kan al af fabriek afgeluisterd worden door de CIA. De media zwijgt.

etc. etc.

Kindermisbruik

Al jaren lang worden kinderen misbruikt en verhandeld. Rapporten, rapportages, getuigen en de tientallen organisaties die zich hiermee bezighouden geven aan dat er een probleem is. En, ja ook de Nederlandse georganiseerde media rapporteerde met losse flodders over dit wereldwijde probleem.

Nu de Amerikaanse politiek in verband wordt gebracht met deze praktijken schrijft de georganiseerde media dat het NEP nieuws is. Dit terwijl, op de inbeslag genomen computer van de rechterhand van Hillary Clinton, bewijs is gevonden dat kinderen worden verhandeld voor sex en erger. Dat op deze computer ook een kopie stond van Hillary Clintons emails en waarschijnlijk meer, dus spionage, is de georganiseerde media niet eens opgevallen. De **FEITEN** worden verzwegen en het probleem wordt belachelijk gemaakt. De kinderen waarom het gaat zijn in nood en lijden elke dag. Donald Trump heeft de mensen achter deze activiteiten de oorlog

verklaard. Trump heeft de FBI en Homeland Security de vrije hand gegeven om in te grijpen. Iets wat onder Obama schijnbaar niet het geval was. Er zijn daarom sinds januari 2017 al meer dan duizend arrestaties verricht waaronder politici en politie agenten en er zijn honderden sex slaven bevrijd, waaronder vele kinderen.

Trump

Wie **TV absorbeerd** denkt dat Donald Trump een domme en gehate president is. Wie het **internet bestudeerd**, ontdekt dat Donald Trump bezig is de corruptie binnen het politieke systeem en de corrupte media te ontmaskeren. De grote TV zenders staan achter Hillary Clinton en maken Trump zwart. Demonstraties tegen Hillary Clinton die voor lege zalen spreekt komen niet op tv terwijl demonstraties tegen Trump wel in het nieuws komen. Deze Trump demonstraties worden professioneel georganiseerd en een deel van de demonstranten krijgt er zelfs voor betaald.

Obama Care, lijkt goed, maar is het natuurlijk niet. De enige die er beter van worden zijn de verzekeraars.

Hillary Clinton

De georganiseerde media staat onder controle van de Amerikaanse politiek en de CIA.

In April 2015, ter voorbereiding van de presidents verkiezingen, [nodigde](#) John Podesta journalisten uit van de georganiseerde media voor een bijeenkomst bij hem thuis. Bij zulke bijeenkomsten worden de corrupte journalisten verteld wat ze moeten schrijven en wat niet.

Voor de verkiezingen zijn er LIVE debat uitzendingen waar de politieke rivalen vragen worden gesteld. Het publiek kan dan zien wat de standpunten zijn bij de verschillende onderwerpen. Hier kwam Donald Trump slecht uit de bus, hij had soms geen idee waarover de vraag ging, Hillary was voorbereid op de vragen en leek dus veel slimmer en beter geschikt voor de functie als President. In de

gehackte emails vinden we o.a. deze email, [From time to time I get the questions in advance](#) waar we kunnen we lezen dat Hillary de debat vragen van te voren kreeg toegespeelt.. tja.

Alles dus **doorgestoken kaart!** Wereldnieuws dus! De georganiseerde media in Nederland heeft schijnbaar geen tijd over de corrupte collega's in Amerika te berichten! Schijnbaar gebeurt hetzelfde in Nederland. De journalisten in Nederland, veelal betaald van belastinggeld, worden dus gebruikt om politiek te bedrijven en niet om nieuws te bergen. Dit is iets wat niet thuishoort in een vrije democratische samenleving zoals Nederland.

Nederlandse Media

De Nederlandse publieke georganiseerde media zwijgt over de wereldwijde actie die thans loopt om de kindersmokkel aan te pakken. Sinds Trump president is zijn er alleen al in de VS meer dan 1500 pedofielen gearresteerd en vele kinderen bevrijd. Het lukt de georganiseerde media om haar taak, namelijk het informeren van de burgers, over ingrijpend en belangrijke nieuws, hier dus kinder ontvoeringen en kindermisbruik, gewoon NIET onder de aandacht te brengen en maakt zich zo **mede schuldig** aan dit fenomeen. De burger wordt niet geïnformeerd en wordt zo niet getriggerd dit probleem aan te pakken.

De georganiseerde media voert haar taak, namelijk het informeren van de burgers, niet uit. Kritisch naar Donald Trump kijken is wat de media moet doen, maar systematisch demoniseren en feiten verzwijgen en verdraaien, is niet haar taak. Het vergelijk met Pim Fortuyn is groot.

Vrije meningsuiting

Bij de publieke omroepen in Nederland is het ook niet zo best gesteld met de vrije meningsuiting. Personen die niet passen in de visie van onze overheid worden niet (meer) uitgenodigd om hun mening te geven. En over bepaalde onderwerpen geldt een compleet uitzendverbod. Journalistiek onderzoek is niet toegestaan evenals er in een talkshow een discussie punt van te maken. Natuurlijk 9/11, Demmink, Sandy Hook, Charlie Hebdo etc.

De vraag die de komende tijd beantwoord moet worden: "Zijn er directe verbindingen tussen PizzaGate in Amerika en Nederland en/of België?"

Media dragers

Kranten en **TV** zijn die media waar de burger totaal geen invloed op heeft. Grote geldstromen vanuit de politiek en wereld concerns bepalen wat je daar te zien krijgt. Sinds 9/11 zijn er meerdere

bekende personen geruisloos verdwenen van onze beeldbuis. Bij het **internet** ligt dat anders. Elke journalist (geen beschermd beroep of opleiding nodig) kan zijn eigen nieuws krant samenstellen en publiceren. En bij de betere websites kunnen de lezers ook commentaar geven. Van deze commentaren en interactie leert de journalist en de lezer krijgt vaak ook argumenten onder ogen welke de journalist niet had genoemd. De Nederlandse internet kranten hebben de mogelijkheid artikelen te commenteren meestal al afgeschaft, iets wat in Rusland ondenkbaar is. Ook propaganda sites als NU.NL hebben deze optie verwijderd, te veel lezers waren het niet eens met de propaganda artikelen en konden deze meestal eenvoudig met feiten onderbouwen.

Soorten Media

De media is te verdelen in verschillende groepen. Lees en beslis zelf vanwaar het meest onafhankelijke nieuws komt.

1. **Georganiseerde MafiaMedia** (afhankelijk van geldschietters of geloof of erger)
2. **Wolf in schaapskleren media** (doet zich voor als Vrije Media)
3. **Vrije Media**

Georganiseerde Media:

De grote media bedrijven zijn in bezit van een handvol mensen. Zij hebben controle over radio, TV, kranten & magazines en zijn eenvoudig in staat, alles wat hun niet bevalt buiten de massa te houden.

Een goede inleiding hoe de media wereld werkt en wie erachter het "vrije" nieuws zitten kan je hier lezen:

En dan hebben we in Nederland nog de "**vrije**" **STAATS** omroepen, die hun nieuws kopen van commerciële bedrijven als het ANP.

Personen die bij de vrije STAATS omroep nieuwsberichten naar naar buiten brengt welke de opdrachtgevers, dus de reclame makers en eventueel de politiek liever niet zien, hebben geen kans op een carrière, zal niet meer op feesten worden uitgenodigd en zal tenslotte werkeloos worden.

De meest gevaarlijkste categorie, zijn zij die zich voordoen het systeem te veranderen. Dan zijn er nog vrije media sites die er niet zijn om de burger vrij, kritisch en ander nieuws te brengen, maar tot doel hebben de echte vrije media in discrediet te brengen en te dwarsbomen. Ze zijn opgezet, politiek gedreven, godsdienst gedreven, commercieel gedreven of worden de staat betaald. Daarnaast zijn de aloude grote spelers actief, die laten hun marktaandeel niet zomaar wegsnoepen door de nieuwelingen en presenteren het foute nieuws in een nieuw jasje.

Deze sites zijn eenvoudig te herkennen. Inhoudelijk gaan ze niet op een zaak in. Hoogstens nemen ze één onbelangrijk twijfelachtig soms door één persoon ingebracht punt ter sprake en bewijzen daarmee dat de daarom de hele zaak niet klopt.

Norwegian police arrest 20 men in pedophile network probe

By Associated Press November 20 at 11:21 AM

HELSINKI — Norwegian police say they are investigating a pedophile network suspected to involve at least 51 people, which includes the abuse of infants and at least one case of a suspect acknowledging abusing his own children.

Deputy Police Chief Gunnar Floystad says that in Norway's largest abuse case to date they have arrested 20 men so far, with three convictions, in western Norway. The 31 other suspects are from other regions in Norway.

Daders

De daders zijn zeer jonge IT experts, en tevens broers van elkaar. Namelijk Imran, Abid en Jamal Awan. Tevens werkte de vrouw van Imran, Hina Alvi op de IT afdeling. En zoals de naam doet vermoeden zijn het geen Amerikanen maar Pakistani.

De broers deden Full Time IT werkzaamheden voor 31 leden van het Huis van Afgevaardigden op de Congress computers van de DNC. De broers kregen de **hoogste beveiligings toegang** tot geheime data via Debbie Wasserman Schultz.

[Debbie Wasserman Schultz](#) is de omstreden politika bekend geworden door de gelekte emails waaruit blijkt dat ze Bernie Sanders campagne

saboteerd en hem uitschakeld en zodoende Hillary Clinton tot lijsttrekker maakt. Trouwens, hiervoor is Hillary Clinton aangeklaagd, door Shawn Lucas. Hier de laatste [beelden](#) van Shawn Lucas, de 28 jarige werd kort daarna dood gevonden in zijn badkamer.

Met deze hoogste veiligheidsmachtiging hadden de gebroeders Awan toegang tot de commissies van meerdere geheimdiensten, namelijk: House Permanent Select Committee on Intelligence ([HPSCI](#)), Dept Homeland Security Committee en House Committee on Foreign Affairs. De Awans hadden niet direct toegang op deze computer systemen (of toch wel?), maar hadden toegang tot alle data die de congresleden met deze diensten bespraken.

Dat betekend dat ze o.a. informatie hadden over militaire operaties in het buitenland, wisten van CIA operaties en info hadden over Homeland Security. Nadat de broers waren betrapt op het stelen van hardware uit de computer ruimte gebeurd er niks. Pas dagen later werden ze ontslagen en mochten ongestoord het land verlaten. Een dergelijke gebeurtenis is alleen mogelijk met ondersteuning vanuit de CIA. **Dus hoogverraad binnen CIA.**

Awan Feiten

- gijzelden hun stiefmoeder
- zijn moslims uit Pakistan
- Imran Awan, heeft/had een facebook pagina waarop de jihad (heilige oorlog) wordt aanprezen
- hun vader werkt voor Pakistaande geheimdienst [ISI](#)
- Awan had een crimineel verleden
- hadden continue meerdere vreemde bedrijven op hun naam staan, o.a. was CIA de naam van hun autobedrijf
- werkten voor 31 Congress leden
- kregen 3x zoveel salaris als collega's
- reisden regelmatig tussen Amerika en Pakistan
- zijn bij ontdekking diefstal niet gearresteerd
- mochten het land verlaten en zijn teruggevlogen naar Pakistan

Awan bedrijven

Hoewel de broers een full time baan hadden bij de IT afdeling hielden ze er meerdere bedrijven op na. Met deze bedrijven kunnen onopvallend nevenactiviteiten uitgevoerd worden. Meestal met het doel financiële transacties uit te voeren.

Ze hadden een **auto dealer** bedrijf dat elke anderhalf jaar onder een andere naam weer opdook. ABID ARFAN AWAN, was eigenaar van autobedrijf **CIA**, [CARS INTERNATIONAL A](#). Op het adres waar Abid

Awan woonde, 7110 FALCON ST ANNANDALE stonden meerdere bedrijven ingeschreven. Eerst [ALAIN LLC](#), later [Discover EZ Car Buying Company](#) en als laatste [Regional Car Center Inc.](#) Via hun autohandel, kregen de broers 100.000,- dollar van Doktor Ali al-Attar. Dr. Ali al-Attar, is geen dokter maar een veroordeelde oplichter wegens boekhoudfraude. Dr. al-Attar schoof miljoenen heen en weer, maakten valse rekeningen op en transporteerden geld naar het Midden-Oosten, waarschijnlijk drugs geld. Dr. Ali al-Attar ontvluchte Amerika vlak voor zijn veroordeling (met hulp van de CIA?) en onderhoudt contacten met de terreur beweging Hezbollah. Hier een [artikel](#) in de New York Times hoe drugs geld via autodealers naar de Hezbollah wordt getransporteerd.

Een ander bedrijf van Awan is **Nanoset Technologies**. Deze firma leverde computer hardware (routers) aan de regering. Waarschijnlijk plaatsten zij deze routers zelf in verschillende computer ruimtes van de overheid. Het vermoeden bestaat dat deze geïnstalleerde routers spionage software bevatten.

De Awans waren betrokken bij **New Dawn 2001 Corporation**. (in onderzoek)

Het verdacht

Het verdacht betaamt dat de Awan boers niet allemaal echte boers zijn maar geheim agenten van de Moslimbrotherhood. Ze spioneerden in opdracht van de CIA (Obama en Clinton). Bij ontdekking krijgt dan het land van herkomst de schuld in plaats dat daders in eigen onderzoek worden. Daarnaast is er de mogelijkheid dat deze familie dubbelspion was voor Pakistan en/of Saudi Arabie.

Het lijkt er sterk op dat deze broers spioneerden voor Hillary Clinton. En dat de gestolen data tevens aan Huma Abedin werd gegeven.

Het lijkt er in ieder geval op dat deze broers, vier stuks in totaal, niet in handen van justitie mochten komen vanwege hun opdrachtgevers. Het leven van deze broers nu in gevaar omdat zij de vraag van opdrachtgever kunnen beantwoorden. En waarom zwijgt de media?

Recap: Using NYT Pulitzer Journalism to connect the dots of how "Hillary Commissioned Sid Blumenthal to establish a private army with Muslim Brotherhood and then arm them by taking these stingers in Benghazi and also Sarin gas, and then conquering Gaddafi. Once you got the money from these banks and oil companies, you needed to bring the money back and put it through a funnel, and that's gonna be the IHRC. And Eric Braverman established that...with McKenzie...for Hillary's State Dept in 2010, right after the earthquake in Haiti. Bill Clinton is put in charge of this board...for a year [the 9 complaining board members] are cut out of any involvement]...Hillary is putting a lot of money into Haiti from the State Department for a textile factory"

Working theory: the "gold funnel". Convert assets to gold, diamonds and art aka "negotiables", in order to avoid detection by wire transfer tracking agencies. This is how you get the Libyan gold to Haiti.

"Set up a gold mining operation in Haiti. Whether [it] is successful or not, you are going to have the [existing, stashed <libyan> gold] and you're going to be able to say "hey we produced this much". They only have to pay a 2.5% royalty fee to the Haitian government, which is incredibly low by international standards, it's usually at least 5 to 10 percent...you have this funnel set up for 25 yrs. Every time you topple a country, you want to convince the Dictator to change over into gold and funnel it through here"

Hypothesis: Discussion of the possibility of oiligarchs using an underground nuclear weapon in Haiti at Port Au Prince, trying to generate a 'seam', as a cause of the Haitian earthquake.

"Extortion Wheel", how does that work? a) If you are a politician and you want to break into companies and get them to give you a donation, you b) Get / Bribe the FBI to do a deep dive surveillance on all the board members, looking for child porn, gay love affair, dirty dealings, c) they will find some contractor malfeasance with a foreign government, d) the FBI will say OK we'd really not like to take down a US manufacturer, what we'd like to do put in our guy and clean up your act and add transparency. e) while they are there, they obtain the whole contractor list and spy on what the company is doing, basically stealing their intellectual property, and f) sell that information to investment firms. They all get rich. Thus the extortion wheel is about politicians using the intelligence agency to enrich oligarchs with insider trading, using ill-gotten intellectual property and private plans.

This goes back to Arkansas: Bill was always the "good cop", Hillary was the "bad cop" running the Arkansas mafia and killing people there, now she's gone on a global scale with the Muslim Brotherhood in 32 countries now with Al Baghdadi. The only thing that's changed is the risk to the world. First they are shooting down Russian jets, then they shoot down European jets, then they shooting down American jets. And they can shoot down the president's jet. If you shoot 50 of these things at the president's plane, that plane is going down. "We know who all the players are. It's an easy case." It's not left or right wing, it's of themselves.

Comey went after people in mid 2000s if they didn't give to the Clinton Foundation. (see surveillance-protection racket)

when Hillary is on the Senate Arms Committee, Comey installed in Lockheed in 2005-2010, they paid him 6M in one year. That same year they became Clinton Foundation donor and received 17 government contracts.

While he was there he earned who all the subcontractors were;

Later that info leveraged into Bridgewater NATO/Libya Hedge Fund
George discusses Comey's many criminal racketeering schemes with Hillary over the years <<Comey is guilty of treason, perjury, racketeering, extortion>>

George mentions Pizzagate and his research into the Franklin Scandal, doesn't want to be involved in this particular conspiracy theory, but he stance is that it's real and that people who look into it tend to die.

"If you are an aspiring CIA lawyer living in the Southwest, and this boys town in Omaha had been exposed, and you could no longer have a spot because of the increased attention in Boys town, you might pick another place, maybe a city in Texas and that's all I'll say about that. And you might keep the kids there. And then you might have the Stringers, the people who are finding kids and bringing those kids to that Texas town. And that's why you have a lot of people with

automatic weapons there and that's why you have this kind of harem situation. Now if a couple of people living there, like the beta males not the alpha males the stringers going and getting these kids, but a couple of beta males are saying, "hey this is sex trafficking", then if you have a problem. You need to shut it down. And then you need to move it if you have a lot of kids you need to move it somewhere else-- maybe a neighboring state. And that's all I'm going to say about that. I'm just going to drop those breadcrumbs...i don't want to push any of that."

"There is a genetic connection [of Bill Clinton] to Neil Brown"

Obama is living in the white house but building a huge mansion with a ten car garage.

Author Ed Klein is talking about [Obama] setting up the Shadow Government; we're going to have a type of British system of back-benchers; every time Trump says something you're going to have a team to come out and say, "this is what's wrong with this or that"

I'm predicting that one of those people that's in that room [at the new shadow-government mansion] is Neil Brown and the other one is Eric Braverman, and they will be in that residence. It's going to be basically a shadow-white-house

The danger of the friendly 'social justice face' is that it can be put on a "Army of North Virginia" <<<7th floor group?>>>, which is a potential to overthrow the government, not saying in actual fact, but you can have an insurgency go on for 4 yrs, where you are using the police powers of the FBI to destroy competitors and other political rivals along the way.

Us getting access to emails is real Justice.

[\[Day 67 pt2\]](#)

George asks friend to ask Neil Brown to send a selfie with today's newspaper

Who is Neil Brown? Protege of ex-Senator Richard Lugar, David Petraeus' Ghost Writer, Architect of El Compacto-"Removing State Owned Pemex--Sell Mexico Guld Oil Leases". I wonder if he knew "fast and furious" was that very same operation as El Compacto? This is a morality question.

Surely Braverman and Brown know about Steven Softloff and the journalists being jailed for saying Syrian gov didn't have Sarin, but we don't know if they did.

Bill Clinton versus Hillary leadership style. Bill tried to get people together, so did Obama, Hillary wants to shoot people basically, not George's words obviously but the general idea.

Bechtel, Haliburton and the secret pipeline in Israel

CCC, Al Mabani

CFR is an "oil-subsidized lobby in NYC", they play chess with the pipelines, putting it up on the board and talking about it

Contractors would meet in NY and then they would entertain them.

George said he roomed with a girl who went to these parties

Trump would go to these parties, shake a few hands, get his picture taken with a supermodel, and then leave to another party

Entertainment for the Middle East visitors to these conferences was a big deal

World Bank is where these guys would meet with 50-60 princes of Saudi; this is where you get the comet pizza type things happening.

This kind of showcasing. The "stringers" who go out to foster parents and such... dot dot dot.

As a researcher, if you want a lead, this is where you should look (George points to World Bank, CCC and Al Mabani)

Long Island Serial killer case could have a connection there because of the US law inapplicability nature of diplomatic passports...

Not saying Rahman was involved in LASK but these people are the ones with the incentive to get kids out of Aleppo and out of Palmyra and into Qatar, Saudi, Yemen. The children are very popular there.

White helmets are going to be the ones getting them out.

Petraeus would go to a village and tell them that they could have the kids from another village if they kill them off.

[\[Day 68\]](#)

What I've done in this series is try to establish a chain of evidence, if you want to see that, please look at previous episodes.

The missing piece of evidence is the emails that they refuse to release, with the 1100 'hidden' donors

1990s NATO-Hillary OPTOR collaboration is included as 'establishing a pattern' to be used along with newer activities as probable cause, motive, MO and evidenciary in court

Putin's response to Morell's activities is collect evidence

George encourages people in social media to encourage Putin to continue what he's doing, collect evidence

Putin is a partner in this, Netanyahu is a partner in this also: he doesn't want undocumented future terrorists from child slavery

Social Justice Recruiter Paul Walker threatened Michael Hastings life Skoll, Guistra and the "Social Justice Funnel", he makes social justice movies that are fronts for various activities...it's almost like they are leading us to the next crime.

Guistra is making a big refugee play in Greece and Malta, and that's where the plane went down [that had] all the French investigators of Human Trafficking in Libya.

So the movie the Cove with the Dolphins, George conjectures that there's over the horizon oil drilling, so they come up with this movie to get the fishermen out [of the area]

Yunus and microfinancing -- microfinancing enables sweatshop ladies in prostitution--sure enough, Yunus focuses almost exclusively on microfinancing for women. This is Monica Petersen's research. Yunus has been friends with Hillary for a long time. He got 13M from Hillary in State Dept contracts. He transferred 100M illegally out of this microfinancing contract, was disgraced.

Let's see if Carlos Slim is a connection to Yunus. Sure enough, they made a cellphone microfinancing deal together in 2008.

Carlos Slim was the younger brother of a police chief who was head of DFS (similar to our DHS), and used DFS to intimidate contributors to opposing political party <<<yet another protection racket>>>. They didn't use [DFS] for 'homeland security', they used it to intimidate people, run protection rackets, acquire companies, and they funnelled their takeovers thru Carlos Slim.

The Mexican government sold Carlos Slim in 1990 Telmex (like AT&T) for 1.7B at a valuation of 14.5B, giving him a complete monopoly over the landline biz, got unlimited mobile rights. So the whole self-made billionaire story is nothing but a gangster story.

George has a comprehensive Carlos Slim acquisition timeline on a slide.

George talks about cover murders, where serial killing will mix in prostitute deaths [no one cares about] with the murders of oil conference shady-diplomat-entertainment-witness whistleblowers

[\[Day 68 pt2\]](#)

Social Justice funnel: The free cellphone sounds like a good deal to get the woman out of poverty, but the interest rate is as high as 195% (Hugh Sinclair: Microfinance Whistleblower), the folks that do that make them sign a contract whether they can read or not with a thumbprint. They have to keep re-loaning money to pay off principal and interest, so the effective rate can go higher than 185% and then they have to do stuff like in India where they have to sell kidneys to pay off the debt, have their kids work all day, or go into prostitution. Book recommendation: Hugh Sinclair, "Confessions of a Microfinance Heretic" [\[1\]](#)

[\[Day 69\]](#)

I don't know how much better the evidence could be than an email from Sid Blumenthal saying I want OTPOR to train the Muslim Brotherhood. That is why OTPOR is relevant

Sid Blumenthal is going to needle in the opposition in the Bush Administration (oppose them); he is a journalist, but he's acting as a front for Bill Clinton during the impeachment, he's one of the guys who testified, so he's kind of this opposition information agent.

The neocons thought they were going to run Jeb Bush, so Sid wrote an article in 2007 [Salon article] (<http://www.google.com/search?q=salon+sid+blumenthal+wmds&safe=off>) that Bush knew Saddam didn't have WMDs and put in CIA agents as whistleblowers to add credibility, in order to oppose the Jeb plan

The two CIA agents in the Blumenthal piece were Valerie Plame Wilson and Tyler Drumheller, her boss

Tyler Drumheller -- European station chief of CIA gave Blumenthal the idea to topple Libya

What was she doing in Europe? It was the whole OTPOR thing with George Soros (((DISRUPT))) toppling all these countries, balkanizing Yugoslavia

Valerie Plame Wilson CIA agent tweets "RIP Tyler Drumheller: CIA officer who exposed US reliance on discredited Iraq source

"Curveball" dies at 63."

Every time that happens, the NATO generals profit.

The CIA ran the parties, a brownstone operation, where you get the generals drunk and then introduce them to girls, and keep introducing them to younger girls at subsequent parties. They do this over the course of years. They've done this type of thing since Allen Dulles, 1949...

Until you get to this situation where the kids are 12-13 <<points to Epstein and Clinton>>

That's when you have the camera, when you have maximum blackmail. They are willing to do this over the course of years. What they don't want to do is uncover the operation.

Brownstown operations: Craig Spence (?), Franklin Coverup, Second mile with Sandusky, many in Florida, in Boulder Colorado, Hollywood area with Scientology, DC Madam. Barney Frank had one...

Read the memoirs of the CIA Directors and they'll say straight out, "yes we do this"

1100 hidden investors are going to be these NATO politicians and generals and US generals and politicians

Belgium is where British and French fought the Germans in WW1/2 and it's their spiritual center; and it's where the parties are. George says he's a journalist who has been there and seen this whole system work and has reporting behind this.

This relationship with the Brownstone operations have moved to NY to Paris to Africa to Little St James--Clinton Epstein Connection.

Do you think Hillary is out there getting the Generals out there to go to these parties? No, it's their seconds [in command], Doug Band for Bill, Philippe for Hillary, in Europe it was Valerie Plame

That's why this sex case is more important than Paula Broadwell--it's about the blackmail and pedophilia

NATO C3 meetings and CENTCOM, where the State Dept people meet NATO generals, <<points at Philippe Reines>> I'm not saying it's the current people at the State Dept, that's why I put this [text] over Philippe, I'm pointing the finger; that's why he's lashing out at anything even approaching a sex scandal--it's because he's behind it all.

Tyler Drumheller to Sidney Blumenthal. "Here it is. Don't share it with anybody". Someone called me a "fringe site" but this is in their own hand [email].

I prefer to call them "Microsweatshops" because they work with microfinancing schemes, which forces them into ever-increasing poverty which forces them into prostitution and drug dealing.

Mentions "Mississippi Burning" and when Kennedy sent in 300 agents into Mississippi. That's what the president needs to do. To send 300 FBI people here [Haiti], especially when you have a person who has been convicted of child-running.

The [lawyer] representing [child-runner / 33 kids in Haiti] Laura Silsby is himself a convicted child-runner in 2004 in central america. There are hundreds of emails going back to 2002 from Huma to Laura Silsby, [[the Haiti earthquake / "New Life Childrens' Refugee Case" was 2010]]

On the FBI's obstructionism. Retired Deputy Assistant the of FBI {{Who?}} says "No grand jury, no subpoenas, no court orders, you know, immunity to the co-conspirators, letting the co-conspirators in on the interview. I mean, these are all crazy things the FBI never does"

George speculates: Grange's wife is in charge of the ports, and this could be a gaping hole in security; that guns from Iraq could be funnelled into the port at Norfolk.

Neil Brown was on the Senate Foreign Relations Committee

Decisions are made in the US on the oil/gas level at the CFR (council
on foreign relations)

Braverman at the World Bank, he was a consultant for McKinsey

Neil Brown is the pipeline infrastructure guy

When Clinton was a Senator she was part of the arms committee;

You need to get the armed services in order to back any kind of
expropriation

So that when you become a president, you get half of the takings, and
the other half goes to the others involved in oil/gas, pipelines, and
armed services as a type of group investment program <<<americans
get none of this but we pay for it.>>

NATO generals will win no matter who is president

If you become president, you can't just have your gang spring up out
of nowhere, so you have to be training them, "cultivating your gang"
along the way

Dyncorp mention, Delta force people "Gladio programs" to be training
people 6 months before any war

Did Hillary fund these [ME Project] Gladio programs?

Firstly we know Hillary is the key funding source in 1990 in Kosovo to overthrow the Serbs

She also trained gladio programs in North Africa (egypt/libya) and the US as well as Europe (George mentions citations and evidence in show notes below video)

You need to have a Soros in every country to build up your political base (points to Open Society Foundations)

ICG the spy extension of the CFR

George discusses the competition between Hillary and Bush.

W Bush gets elected, Bush goes after Iraq because that has the most oil

Valerie Plame, she gets sent to Iraq working as Hillary's spy, to slow them down because you want to knock over these banks <<George points to toppled countries>>, to slow down the Bush move to war. If don't have the army yourself--like Bush did--to do a topple, is to get NATO to do it for you (the 1100 hidden donors, US and NATO generals), that's why you are going to have a 240B dollars missing (Gaddafi's billions)

Sibel Edmonds, an FBI counterterrorism translator, blew the whistle on this activity, she called this "Gladio B" that Clinton started, the ME Project we are talking about

George believes there are more gladios he calls C and D for north africa and the US itself

You send Valeria into Iraq, and you send her ambassador husband to Niger to say there is no uranium, and then as a result we found out the WMD story that Colin Powell story is a hoax, and that's why these two were involved [AND SHE WAS OUTED as a SPY by BUSH ADM] <<<Just to explain here, since its complicated. This is infighting within the CIA, fighting over NATO Generals and military forces.

There's Clintons HYDRA versus Bush's CIA. HYDRA is trying to topple othe countries with NATO/US forces, and this is why Iraq had to hire so many "security contractors" (mercenaries). So to "slow down Bush's efforts in Iraq" to contine activities in north africa, Joe Wilson outed WMD's as a rouse, so then as revenge the Bush administration outed Plame as a spy>>>

"Lael Brainard destroyed 3 classified documents, and I believe these were the funding documents from the treasury. You have to get the treasury to pay for these programs

US Gladio Program PDD-62 (Presidential Decision Directive 62 or D&D (Diffuse and Disrupt)), Gladio B, Manpower from Arkansas, [Senator Byrds' old disrupters from] West Virginia
Basically the idea is targetting political opponents initially, as time has gone on they've targetted more and more people with the disruption program
NSA's point of view you can disrupt them, make sure emails don't go through, like purchase orders
D&D "Operatives out in the field"
PDD-62 "US Gladio "Program" D&D is very expensive; requires lots of informants; continual recruiting and training cycle
Whistleblowers are telling us that they are doing these sneak and break in searches without a warrant, the whole constitution is forgotten
Let's bring all these new agents who've forgotten the contitution -- 1/2 of the FBI has changed since 9/11
CFR people are the ones targetted for Brownstone Ops, Jeffrey Epstein was the guy from NY and has moved to Little St. James for the African (NATO) branch
Gladio 4 will be a big weapons grab by Osprey
D&D is break up relationships with people, isolate them, focus the attention of disruption with a lot of other informants moving in and out of their life <<<"Gangstalking">>>

Going back to Mena Airport that Ollie North setup in 1984, this has been a funding mechanism [which has become the Clinton Foundation (1997)] to do this: to create terrorism events around the world or in the US.

I predict there will be terrorism in the US <Gladio D>

It's all to drive funding and to create this larger FBI counterterrorism effort

<<<Terrorism is used as a hegelian dialectic strategy to enrich the security state, just like everyone has said before; *ordo ab chao*>>>

At the center of this is Andrew McCabe the JTTF (joint terrorist task force), the interface between IC and FBI -- it's used for infiltration, breaking into people's houses illegally

D&D is about making false claims against people as white supremacists, and creating crimes, using children as bait and perpetuating fake crime in order to have a reason to go after regular citizens who are politically opposed to them.

Chaffetz questioned the secret service and their response was to revenge-investigate Jason Chaffetz. It was an oblique threat against him. They found out he had applied to secret service and was turned away for not making the cut, and they shamed and ridiculed him.

That's all they found on him.

Get your stripes as a lawyer--you're both lawyers--but she's got a huge

You are going to then become the attorney general <<<of

Then--as attorney general--you can go around and run extortion
rackets on businesses in arkansas for campaign donations, using
blackmail leverage, do that for 2 yrs.
Then you run for governor and make promises to people.
Then you issue bonds--Arkansas Development Finance Authority

you have all this money in your account.[\[Day 77 / 08-01-2017\]](#)

Give a litmus test to discover if there really is a counter-coup
Trump is the first president ever to come into an active coup that is

(Petraeus) in history--he makes war go as long as possible
Sinaloa warriors in sanctuary cities will use normal people as human
shields to create more counterinsurgency DISRUPT / OTPOR, to try to
turn opinion against Trump
Counterinsurgency is to outgun them; then the counterintelligence
approach, which is to covertly infiltrate their weapons depots and
blow up their stingers
Hillary has already infiltrated the FBI and she can have the FBI use
selective obstructionism to inhibit him (COMEY / MCCABE)
All the advantages of JTTF are not available to Trump but are
available to Hillary
Plus you have this covert police force that can do these ops around
the the country
Hacking different targets is "variation for effect"
This whole idea of boxing Trump in and eventually he will be
frustrated and lash out and the media will go after him
Immediately publish the 650k emails. It's not just about justice, it's

coup.
The only way to operate a counterintelligence plan is simply releasing
information, then the hidden network becomes available

Litmus tests: Will [Trump] send 200 agents to Haiti and the Caracol

If James Comey releases all his old Marc Rich legal files without

coup.
Let's look at the information that the Chinese hackers got. Let's
publish what they took. Not the plans but the metadata. If he
publishes, then that's a litmus test.
Trump needs to know about this DISRUPTION plan, PDD-62, otherwise
it will be used against him
Disruption starts small and snowballs, gets on film, then on the media,
etc. Trump needs to know about the Disruption campaign.
Publish the account numbers and the transfer amounts to HSBC.
Another litmus test. If Al Copone has a bootlegging gang and you

donors are hiding al copones.

Oil and mineral partnerships sold at the CFR with information from world bank conferences with infrastructure builders

Brown is a NOC - Non-official Covert Officer, a CIA position, a completely fabricated life, a makeover. A spy, like Valerie Plame. I couldn't say that [NOC, that Neil Brown is a NOC] before today. PM of Croatia is sad because he lost the South Stream pipeline. You'll always going to see the hot blonde next to the PM, that's going to be the Valerie Plame in this instance.

You figure out where the pipelines need to be, you line up the politicians and generals and if they don't play ball then you bomb them.

You need these NOC to get the generals to go to these parties and you either compromise the general through Brownstone operations or you get them to be a partner in the pipeline and various arms deals.

"Sorry Neil, I gave you chances to come forward."

Once you get the common thread it all comes together. It all goes back to oil deals in CFR.

The human trafficking is the other side of the business.

Hillary is not trying to create a coup to take over the US--I hope I didn't give that impression, <<<Yeah, you did>>>

Instead she's trying keep Trump boxed in with the domestic agenda, so that she can continue to do these secret oil deals in China, to get him worried about the sanctuary cities and so forth.

The drones should be patrolling for Trump and the US, not for Henry Kissinger.

If you ever studied Kissinger, it's secret pipeline after secret pipeline. If you see him shaking hands, start looking beneath the water for a secret pipeline<<<LOL>>>

KKR and Venado Oil and Gas Announce Eagle Ford Partnership:

What's going on with this drilling under the gulf. Trump is smart to have Tillerson, because he knows about this. Question is now will Tillerson tell Trump??

If Trump does an arctic deal with Russia then there's no leverage left for the middle east.

Trump needs to get the navy drones looking for the secret Haitian pipeline.

The litmus test to know if FBI is on Trump's side is for the FBI to publish the 650k emails and the 1100 secret donors to the Clinton Foundation. All the old Marc Rich documents, all the Huma, Clinton, Quid Pro Quo (Comey/McCabe/Kadzick/Podesta) emails, Fast and Furious, IRS--- WITHOUT REDACTION

Otherwise you have a secret, shadow government, a shadow STATE department, Beacon Global drawing up secret pipelines and secret oil agreements. Emails show you the connection.

Just do metadata for the classified ones on 650k emails.

The only way to stop the Shadow Government is to stop their oil and take their money.

Trump could do a raid on the Guistra partnership and find the owners and their accounts; problem with that is that the FBI has already put PALANTIR [Enterprise management] software out there to guard those accounts, and the software can give notifications as a kind of 'early warning system', which means they'd scramble to hide their monies.

6.5T Missing from the US Treasury and you know you had 3 secret programs going through the Treasury...then you have the destruction of evidence related to the secret programs, the first thing you do is call an audit: where did this money go. If this money goes then your whole Gladio B goes to pieces, and the whole coup loses its energy.

[\[Day 77 pt3 / 08-01-2017\]](#)

I give people incremental information to maintain credibility, so you have a chance to google things

The CIA spends an incredible amount of money on oil and mineral education on the NOCs, so they know what information is most vital to steal, basically. They are economic spies.

Play ball or it's "Stinger time"

Eric Braverman, you're going to find is a NOC as well, those of you who guessed that, you're correct.

Bechtel is quietly in the corner. They are kind of the master of ceremonies for the Construction contractors and subcontractors. A lot of NOCs are created out of Bechtel. Valerie Plame is probably a Bechtel person.

You are going to find Neil Brown, Eric Braverman, and Kissinger in these oil conferences

In counterintelligence, Hillary always copies what George Bush has done. George Bush has the fine lines, but Hillary has the heavy crayon. It's never done as well, she's a copy of a copy.

When you see people drop off the map, that's how you know they are NOC

FBI is like the grasshoppers and the CIA are like the ants, the ants go marching and the Grasshoppers get their cut like Bugs life

Sibel Edmonds really has all this down [with her Gladio B exposition].

Check her out

Oil and gas plays will come out with the revelations of the hidden 1100 donors.

Adriatic pipeline is going to be a big play (DISRUPTION NEAR GREECE IS COMING)

FBI has asset forfeiture is to take their CIA cut; the torture is to get info

As soon as Trump figures out there are secret pipelines in the S. China sea, he's going to check it out.

Trump has the power now to do the triple checking

Wikileaks press conference coming up

FBI released a lot of information from their vault. Limited hangout to say, nothing to see here. The two 302s are really what needs to be released. The 2 302s [FBI interviews] are Braverman and Brown because they are NOCs, so we figured that out.

<<George mentions history about Israel and Netanyahu that I don't understand>>

We've lost our moral compass

We started out with stingers and now we're into Sarin gas and child trafficking in ME, Haiti, Africa and S/Central America; now we are arranging children for oil conference people

We have the social justice layer of people to help kids, but behind the scenes we are trafficking them and using people as leverage;

"marshalling kids to parts unknown"

So the pipelines are a 'gateway' to pedoleveraging and sex slavery
NOCs start out as spies, but become economic spies, which turns everyone into subcontractors and eventually we enable brownstone operations

At some point we need to shine a light and say "WHAT ARE WE DOING". It's a church commission thing.

Pike commission?? Documents could be revealed by Trump

At the end of the day, the country Topples are simply bank robberies; the cost is kids losing their hands or being sold out as sex slaves; where the NOCs become economic spy units

"This type of corruption doesn't get better by itself. It's a cancer"

All this criminality, 33 yrs ago, Marc Rich was one year into the money laundering. Rudy had him on 65 counts of tax evasion. All this criminality would have been avoided if we had gone after him and not let him slip through our fingers.

The assistant director of the FBI (Andrew McCabe) is openly snubbing the Congress, trying to shut down the investigation of Huma, Hillary. There are no checks and balances anymore.

Look at how these plans have evolved: 52 gas attacks in syria, probably hundreds by now --

These were just plans to get rid of Hillary's enemies. First she used Bill's influence to get rid of enemies in arkansas, then it went national and now it's gone international.

50 Agents attacking the head of the house oversight committee DURING TESTIMONY for him asking a simple question of the Secret Service. George implies that now they are attacking our own government who are charged with doing oversights

2009 the F35 Hack, we didn't stop it, so they kept on doing these 'cyber attacks'

Hillary is going to continue to pursue the "hate archive" unless we get those emails.

"Good people" are affected and have to do these coverups. Obama and his crew have to cover up for Hillary's activities [because they enable her and don't stop her]

650k emails are out there

FBI has a chance here to not go down with the ship, and announce the classified material, publish the metadata, publishing the gmailed accounts that are not classified in plaintext.

"I'm trying to help"

[\[Day 78 pt2 / 09-01-2017\]](#)

A lot of people want to know why I started this series and when I started it.

I started it around Day 8

Go back to day 60 if you want to go in depth

Braverman went to the Russian embassy on Oct 23rd of 2016, and had another meeting scheduled on the 30th which he didn't show for. It looked like he was on the run

I was interested in this story on Nov 2 when True Pundit published that the NYPD chief had 500,000 state dept emails of the 650k emails total

I put together that it must be the trove of 14 gmail accounts

FBI, NYPD and Preet Bahara the DA of NY had subpoenaed cell records of Huma and Weiner and were interested in Bahamas and Virgin Islands and that is where Epstein's Island is

Article stated there were 6 trips by Hillary and 20 by Bill to Epstein's island

If FBI doesn't follow through, then the Chief Detective (As "NYPD Chief" that is mentioned in True Pundit article), Robert Boyce, says he'll give what he has to Wikileaks.

I figured that they were on the case, but then I saw nothing happen, so I decided this series. And every day that goes by, more and more has come out.

The longer you wait and don't publish the 650k emails, the more people get dragged down this drain.

I don't want to go after Preet Bhara

It's not "Me" it's the Open Source investigation movement that's doing this, and everything will come to light eventually.

George tells these people to get out while you still can, by coming forward and confessing your sins or divorcing yourself from this situation by giving up whatever game in which you are involved.

Don't be busting wall st people for changing a message and putting martha stewart away for seven months to get bribes for Hillary's campaign; go after what matters: (ie: the child trafficking, Sarin gassing war crimes stuff). "Cut the cord now"

Everyone here thinks that somehow people that are going after this are big Trump supporters. I voted for Obama twice, and you think I'm some guy out in Arkansas. I'm not, I'm a Zionist. Well a modern zionist.

I think you have the wrong impression that we think that Hillary needs to go to jail because she's a Democrat, or because she's associated with Obama. It has nothing to do with that

It has to do with child trafficking, perjury, extortion, money laundering, pay to play and obstruction of justice, it has to do with this: This goes all the way back to mena, arkansas and the drugs in 1984.

This is more a message for Preet

This will include John Kerry--he was using the private server as well
Prediction: It's going to have the iran hostage and nuclear negotiation as well.

Cellphones will place Huma and Weiner in Haiti. If Weiner is there in Haiti a day before Monica Petersen's murder, then he's a person-of-interest

There should be 200 agents in Haiti with Weiner's and Huma's pictures to show to others to get information.

There's videos found in the Huma emails. There's a triple X video; are these the brownstone tapes???

George says basically show all this information and open it up; that's the way to stop this and prevent more people from getting involved

[\[Day 78 pt3 / 09-01-2017\]](#)

With only 10k and a child trafficking / Brownstone plan, you can blackmail your way into total control of a country.

First you lure a high ranking police chief into having sex with an minor, you do this by incrementally getting them young hot girls <honeytrap> and blackmail them with low light camera evidence

Then you say to him "if you don't get all your officers to gang rape this girl next week, I'll expose you"

So his officers will all be blackmailable; this is happening all over the world

In this way you get control of the entire police force

Dyncorp doing training

JTTF - joint terrorism task force is really about extortion/control in the US

I stood up against JTTF for a 17 yr old muslim kid in 2010, and that is why they are attacking George

Jessica Dillow Crisp "Sex trafficking survivor says police were among hundreds of abusers" She said a friend of hers was killed before her eyes. There is only one way to get police to rape this girl: if your boss and other police say to do it <<"DON'T CROSS THE BLUE LINE, PUSSY, DO IT...ORK ORK ORK">>

This is a system of using human bait. We are better than this.

Yoga could be a codeword.

Marriage Planning could be child trafficking

Something really bad is going on in Haiti, kids are being shopped

They are test-driving the ones on little St. James Island to find out which ones they like

The NOAA records are going to have Jeff Epstein's flights going back and forth to N. Africa, Haiti, etc. NASA has these records too

By chasing his tail number you're going to know where all those kids went

George issues prophetic warning: Everyone in this does not need to go down the drain with Hillary

Kamel Rahman, Hillary, Petrofac, etc. These guys are the ones involved and they are the ones that need to go down.

Jason Chaffetz wants more of these CF people come in to talk

This is going to become like Watergate or even bigger

There are 102 "Jane Does" associated with Jeffrey Epstein

We have smoking gun emails that we can connect Epstein to Dyncorp

George talks hypotheticals of what we will be able to tie together if they expose the emails and donors

2003 Cynthia McKinney first exposed DynCorp was caught sex trafficking, why are they still getting government contracts

There is a repeating pattern: They are coming up with man-made disasters so that Dyncorp will get the contracts to take care of it.

When Dyncorp gets the contract to spray the coca fields; they are going to spray the competitor coca fields and use the same planes to take the cocaine back. LOL

Rumsfeld's missing 2.3T is now 6.7T 15 yrs later. Not looking into the problem doesn't make it any better

Chaffetz is going to call the Beacon Group back to the house committee, they are going to give immunity to Bash, and to Shapiro because he has good sense, but it's all going to fall on Phillippe Reines Broadwell will be part of the big media event to make this whole thing sexier

Morell will do 5th amendment

All the Dyncorp employees posing as University professors that are pushing this JTTF and are involved in the asset forfeiture scheme, are going to be subpoenaed

Operation Underground Railroad .. everyone is fair game. No more interviewing everyone in the same room.

I don't mind if everyone gets immunity, so long as the Truth comes out and the child trafficking stops

I don't care if it's "national security", it has to stop

Publish the whereabouts of Huma and Weiner if they are in Haiti and taking money

Gmail accounts are not a state secret

<<<Unless Google is willing to come forward and disclose that they are CIA>>>

[\[Day 80\]](#)

It's important to see the linkages between the real news, CNN just keeps you off-balance

I'm concerned that stingers are going to be used on sanctuary cities, on kids in Chicago

Trump needs to know what's out there just to know what his risks are

If we see the Petraeus "Sex Case" emails and see Beacon Group's Reines sending people out to Little St. James Islands, then we have proof

Police officers don't normally gang rape a teenage girl, so it's obvious they are being leveraged in a Brownstone situation

They leverage the police into asset forfeiture programs

[\[Day 80 pt2\]](#)

My Thesis is CIA type brownstone activity has been injected into the FBI via the JTTF / Counterterrorism techniques

Pug Winokur -- lead investors in Dyncorp, friend of Frank Guistra, friends of the hidden 1100 donors.

He's in charge of asset forfeiture for 30 different agencies.

Entrapment schemes for 30 different agencies, to get them to forfeit their assets through convictions.

It also serves a dual purpose when you use an underage child, because you can use it to destroy an enemy, to blackmail very important people like judges, police officers and politicians. Since Pug Winokur also runs the bureau of prisons, I was also told....police departments hire already convicted felons. These prowler teams of six that do these dirty tricks, many times they aren't police officers at all, they are just people that are hired. I posted an article in texas where they wanted to lift the ban in hiring felons in the State. This is where the CIA can infiltrate with this JTTF program into police departments in that general sense.

<<<I think he's saying the CIA puts rapists in as fake police, to infiltrate and corrupt the police with brownstones>>>

George predicts: Ambassador Chris Hill Kosovo/Holbrook is going to be involved as well

<<<George is adding more people daily, to twist the vice ever tighter>>>

Look for abductions just before Olympic games and then look for deaths right after

Young girls are used up and then killed by Foreign Dignitaries, to get sexdeath leverage on them

I don't think Braverman knew these things, but he found out and that's why he leaked

Braverman is a Mckinsey consultant for World bank but he doesn't know any of the microloansharking, bidrigging and trafficking Carlos Slim, I'm going to tie him directly to human trafficking in central and south america.

There was a huge intimidation of 6 police officers in NY investigation into suppression

Jeffrey Epstein's two cases, Florida and NY are still pending

Chaffetz has every right to call an investigation on Dyncorp and Osprey Global for sex trafficking and gov contracting and doesn't have to even go after Clinton Foundation just yet; this would more quickly put an end to the sex trafficking

We know Drumheller is involved. Go all the way back to Bosnia in 1993

There will be some kind of code between Reines and Epstein "how is the helicopter"

We know from FBI search warrant that half of the emails between Clinton and Abedin are classified

Ft. Lauderdale police dept showed that Jeffrey Epstein had fifty or sixty photos laid out and the people coming in would look at the photos and pick out which girl they wanted

I think you're going to find in the Ft. Lauderdale shooting the last name released, the fifth victim will be related to this case

CFR, LASK, right before a world bank meeting, look at abductions before and look at killings after in the long island serial killer case.

[\[Day 80 pt4\]](#)

How to run an open source investigation

It helps to have all the emails between Petraeus, Hillary and Blumenthal, which establishes the first chain

George's role is the summarizer, the storyboarder

Start adding to the chain by entities that are linked, and follow the money

Using visuals and repeating the visuals will help you put a name to a face

Go back in history, go to wikipedia, understand the faces, the places and events from a historical perspective

DynCorp Disgrace article

In these police shootings, it's always going to be the last person they announce that's the intended target; it's always the "talkers"--whistleblowers from DynCorp getting killed

Denver spy school does the training for asset forfeiture..They are on the enemies list.

Dyncorp police working around olympics; there are the girls that are part of the hospitality crew at the hotels and they disappear, or if they see anything they get abducted

George talks about transition "if the flag bearer goes down"

Haiti seems to be the warehouse, the transition. Jeff Epstein has the showroom. Another warehouse in puerto rico. Contractors are doing the hosting and catering, that's where you're inviting the girls; lockheed in colorado and LA near scientology.

Today to talk about Surveillance technologies

The moral compass of these people have not caught up with their advanced surveillance technology (ie: they will use them against us) Saw Snowden last night. I got in trouble with the FBI when I made a big thing about Snowden, after the JTTF stuff, put in the black suburban and all that

Other whistleblowers being attacked for being patriots, anyone critical of the FBI

In the movie they talk about Petrofac, [Snowden's] first assignment as a CIA guy is getting Asfan drunk and taking him to a sex parlor; and they keep calling [Snowden] snow white because he doesn't agree with that morality

You only threaten to kill your employees for leaks when they risk the entire business. You're going to be in the business of doing something horrible--gun running, arms dealing, human trafficking and drug trafficking
It's now the Senate Oil Arms and Kids/Rape club.
Lindsay Graham (well I do declare), Marco Rubio, and John McCain along with Petraeus are your key players

With the Fla shooting George predicted the last victim would be a dyncorp employee, sure enough he was: Sr Master Sgt Christopher B. Prather of the air force

Being part of the Government, per the RICO Act (racketeering conspiracy), all parties are involved: so Bill Clinton is involved, the Government of the US is involved, any interaction, any doctor who was there talking you into going into the island is complicit in the RICO event. You have a claim and you can go to the court and tell them you made a settlement under false pretenses and are legally entitled to reopen the case.

I'm trying to do a controlled demolition here, I'm not trying to hurt the US Government, I want to make sure the white helmets are taken out. If George Clooney knows that the White Helmets are part of child sex trafficking, and his wife is a willing partner in this, then their property and their assets are available [for asset forfeiture under RICO] as well.

The easiest case to prove is the movement of money without paying taxes. All you need is the routing number--the money went from here to here without some part going to the IRS

For every girl's or boy's family where they lost someone, I want to make sure there's an endowment of 1M with a matching endowment for the journalism source of their choice.

CCC and Almagani and Bechtel (and any other contractors) will be named in the RICO case, and in the case of victims of LASK, these people will have a claim as well

I'm not going to try to prove the case against DynCorp, but the police in various places can do this

For investigators, where you want to go is Police training contracts with DynCorp, and associate that contract with a State Dept or CIA transfer of money

Time is of the essence because Feinberg is coming in under the radar at the advisor level, and he gets in then it will all get covered up again. I had to time this in between Trump taking office in this lame duck period.

[\[Day 82 pt4\]](#)

This offends people's sensibilities, that's why I've slowly built the case with evidence

This is going to be a CIA plan on how to control law enforcement overseas and how to control protest groups--one hand washing the other

You are going to see the method of using the police in these sex rings ensures control of the police force; gang rapes by police--small groups of police all over the world

It's not me saying this, it's police in other countries saying this; reporters reporting on it

As you can see from Wikileaks emails, Hillary and Cheryl Mills are very concerned about DynCorp reportage, because they know what's going on. They are using police training contracts to run the sex trafficking

They are going to say "we did this for National Security", because we had to control these police forces around the world

All I'm saying is I want the program to stop. It's morally corrupt and it needs to stop. I am not looking to destroy anyone. I want compensation for the victims

Feinberg is putting the systems in all over the world

Feinberg has the Egyptian mansion because that's going to be the headquarters of the Muslim Brotherhood, all the meetings will happen there; this will be the N Africa, ME pivot point

It's all about getting those [N African / ME] countries to buy drones, surveillance, satellites, brought to you by DYNCORP

The reason I'm doing this right now, is to see who Trump is going to put in. To see if he was really going to drain the swamp. But they were infiltrated by DynCorp.

That is why this is the time for the Truth campaign to ditch Dyncorp; if he's put in, then there is no hope for this

FBI's redacted email is protecting the name Laura Silsby, redaction means it is protecting the guilty

Cauntae Davies -- five day trip with Epstein and was on the plane with Clinton.

This is the CFR "road show", if you go to the FAA, NOAA or NASA logs you'll be able to trace Epstein all over the world. There is an "orgy of evidence"

Valerie Plame didn't know this side of it. She was an Economic spy to get the US government better oil and arms deals

It's going to be Joe Wilson that knows this side of the business. And I bet he never told her about this. I'm not trying to break up their marriage. You're going to find that Valerie Plame can help unwind this. "The boomboom room"

I published the new york address of Jeffrey Epstein's address, they call it "The Stone Fortress", so you can do citizen journalism about it.

The reason why I've had Kamel Rahman, you will find hospitality suites wherever he is. Follow him to find the hospitaity suites. The kids are going to a holding pens in different cities. Some in Khazakstan, Uzbekistan, wherever there are pipelines. Follow the oil, arms, money to the kids. And Dyncorp contracts in every one of those cities.

Bringing home this Pug Winokur's police training using kids...the University of Denver Korbell School Internatinoal is the importer, and the program is called JTTF, joint terrorism task force, and they do it near MP bases. Huge bases in Nebraska, Seattle. Look for the Dyncorp police training contract

"Operation Underground Railroad" is the latest operation being run in Colombia

) Police, DynCorp, NGO

Sid Blumental is the check writer, the bagman.
Still no Marc Turi, just like the Braverman/Brown email; all we have is email, no physical appearance or social media witness of seeing them in person.
Whenever there's an explosion at an embassy, an ambassador getting fired, then USAID is going to be dirty
You need to have NGOs and you have to control the police, otherwise there will be reports of missing children
You mean to tell me Muslim Brotherhood meets at Feinberg's Egyptian Mansion? A: No. I think Steve Feinberg is in the police phase, he is meeting with people who know the Muslim-Brotherhood phase / Disruption phase. You need to disrupt and then bring in the police. The planning with the military is happening here.
This [strategy] is all outlined by George Soros in the Albanian email.
Don't know why I didn't include that here
Step 4 (using the example of Haiti) Get the kids, get the girls, ship the men as mercenaries all over the place, market the girls overseas, and you have the women doing slave labor and prostitution. What you don't see is the pipelines but I guarantee you they are already drilling. Secret drilling happening since 2010
"I hate to paint such a negative picture but it's true"
Use DFS, create construction and telco monopolies along the coastline, and then attack the people and takeover. This is happening

now in the US, with DHS: The opioid epidemic, the VA not giving healthcare, the IRS stings, the kiddie porn entrapments, same thing as Mexico.

It's 103 not 102 Jane Does

The attractive girls are managed by "Gypsy type organizations" put in by Tyler Drumheller, they travel in groups of 600 and pick up kids along the way

These guys who go crazy--Myron May assistant district attorney New Mexico ended up going crazy and supposedly shot someone in the law library

George believes McCabe was originally CIA in 1993 and has infiltrated the FBI. That he was the original one who threatened the NYC police officers to establish JTTF. They were going to break NY and then go to DC. With the help of US Secret Service. Same thing happened with CFR and the World Bank.

Just a reminder you have NY Chief of Detectives saying that the emails contain child sex trafficking, perjury, Obstruction of justice, money laundering and pay to play

I just wanted to say it's the frequent use of enforcers and enforcer gangsm, when they are managing a bunch of girls in a sex ring, they will use all kinds of intimidation tactics. So they show women being sliced up and murdered. Fear is commonly used tactic.

Step 3: This is privatizing war

Bush had a fine hand, he knew how to take the oil without the sex trafficking. He was happy with arms and oil (((and drugs)))

But with Petraeus, it adds Bush plus kids and sex trafficking

George recommends Laura Dickenson, "Outsourcing War & Peace", it's all about DynCorp

This is not a secret (((, this is an open conspiracy)))

JTTF is DynCorp in the US

DynCorp subsidiaries are G4S, Serco; Wackenhut

Feinberg should not be the lead economic advisor for Trump; now he's going to be doing security for the Mexican border; this is the last company in the world I would want doing security

Cynthia McKinney, why is DynCorp still getting contracts? 6.7 trillion missing, it's going to be these DynCorp contracts that they want to hide

Hospital here, could be involved in organ harvesting. I started thinking about how remote it was. Check out incineration happening late at night in Haiti for evidence of that.
We've got to get there, take photographs of people in the parking lot.

I liken it to being on Jeffrey Epstein's Dyncorp Helicopter, as I get closer in, I get a good view of how close the mansion is to the CFR building. I'll show you (((George shows the viewers the google maps, 2 min walk, if that)))
I'm going to say there's a brownstone in that mansion
(((RE: DynCorp and CFR, involvement in LASK))) I'm not saying it's Feinberg, I'm saying DynCorp is linked thru CFR to the LASK. This is Kissinger's neighborhood. Not saying he's involved.
{{I can't follow the stinger missiles comment he makes here}}}
If you have a family member that is missing, ask them if they've ever been to the Feinberg mansion
Why do I keep harping on DynCorp?
People keep getting gangraped by police forces, people keep dying of weird circumstances, police/politicians keep getting blackmailed by the counterterrorism division
Why build a hospital out in the middle of nowhere when it's needed at Port Au Prince?
Publish 650k emails and get me off your list, I'm going to drop the whole thing with DynCorp; there is enough exposure that they are done with this program anyway
Myron Mays was on a path to being the next Barack Obama. All of a sudden his life went to nothing. Because of McCabe--the disruption campaign.

Ambassador Stevens was sent to Libya to get the Sarin gas from the

out of Libya to Malta and to Greece

THat's why the french investigators were killed in the plane crash
over Malta

Film coming out, Kara's film, Trafficked, sex trafficking from the oil
wells

In the hand of the conspirators (Hillary and Cheryl Mills) talking
about Flint Chambers' Dyncorp Lap Dances

There are 3rd party articles corroborating

Who is the Federal Prosecutor in the 1999 case from Bosnia that slow
footing case against Dyncorp-- it's Claude d'Estree.

Not only over here at the Boston bombing. Text: "Lauren Johnson
"Carbon Monoxide" Cse 23 Year old Vancouver, WA Death; Korbel

McCabe still hasn't recused himself from the Huma, Hillary case or
the 1999 case

Who was teaching these police to gangrape these police forces?

Dyncorp. Not all police, just a group of six or seven.

They are coming in from Federal Bureau of Prisons on parole. They
aren't really police. They say they are police but [they are criminal
police imposters on parole]

Monica Petersen was sent many times to Haiti by Claude D'Estree,
and she was doing a Master's thesis on trying to disprove this guys'
film. She kept saying, 'wait, that IS true...women are being put into
debt bondage' these women are having to go into prostitution. She
also connected the microloansharking to Carlos Slim. She connected
it to Carlos Slim. She validated that Kara is right. That's why she was
killed.

Where is Monica Petersen's Master Thesis, we'd like to read it.

Even morally-challenged people like Gov Rod Blagojevich, even he
challenged Rumsfeld in the Chicago Tribune over the Dyncorp sex
trafficking, and they slammed him just like they slammed McKinney.

George want Braverman to do a press conference

They are shutting down the CGI -- Clinton Global Initiative: the part
that couldn't be publicized, the 1100 hidden donors, the politicians in
the EU, NATO generals. It's the money funnel. Reason is, to destroy
the evidence.

It says 24 people are going to be layed off

This article wouldn't have come out if they haven't already destroyed
all the evidence (((Because it was published by Carlos Slim))). They
never would have risked having the NY police dept going in with a
warrant and getting evidence.

The only thing left is getting people involved out of the country. These
will be the high flyers with diplomatic passports.

Diplomatic passports allow people to come in and out of the country without being questioned by police in order to do these kinds of deals. In any kind of trafficking, you need a passport issuing authority. So you need to take over some government to issue your passports; you always run the risk of being caught by INTERPOL or local police. All signs point to MALTA for issuance of these passports. It's a small country and easy to control.

{{Look at Belize also, according to John McAfee}}

Get a cellphone from a Haitian factory worker and look at the microloansharking interest rates

Take screenshots on the phone and look at activity around payments to a Telcel Telmex cell

If I were investigating I'd look at all the players' cellphone purchases and transaction records

Contact Conchita Sarnoff and get a timeline for Epstein and his movements, and then correlate cellphone records--Epstein is going to be the funnel point for all the cellphone records.

Whenever we find the 24 Knights of Malta--or whatever they call themselves--that are bidding on these girls, we'll be able to correlate when he got pictures of the girls, what they bid and when

Watch the Hustle 2 trailer to see how the bidding thing works.

Again, McCabe, Litmus test: release at least the metadata on the cellphone calls

If you stop at the first story and don't go beyond, you end up 180 degrees from the truth. Basically CNN

Looking at who the script-writers are

Morell was the one who came up with the fake WMD narrative and at 9/11; he's been running psyops

I think I'm too late for the kids

This is my form of disruption. Running a counterintelligence is better than doing this

As soon as I say, I think the kids are at the hospital, then they move them

This makes a lot of dust clouds and you can take pictures of license plates you can take pictures of

I have to continually disrupt in order to create these evidence trails

Someone sent me Charles Ortel's audit of USAID

The answers are going to be in USAID and World Health Organization Money Laundering through Hillraywood

If you didn't know that Hillary was behind Fast and Furious and you didn't know that there was consolidation of cartels into sinaloa to sell

the oil leases off the coast of Mexico, then the Hollywood money laundering story makes no sense.

His agent friends put releases through kids and social media, through the library, (((Because subverts at the top have ruined the FBI and they can't do their job normally)))

Because CGI has shut down and they destroyed the evidence, you have to throw them off so as to create more evidence to pick back up on

Going back to "The Whistleblower". The film demonstrates the trafficking intimidation tactics: If you leave this place, then everyone in this place will be murdered. If you ever run away we're going to kill everyone here

D'Estree--a front man--was brought into the US Attorney's Office in 1999-2001 to slow-foot the whistleblower Kathryn Bolkovac. That's why the US didn't bring a lawsuit to DynCorp

Merrick Garland and the OKC bombing or Comey are other examples of slow-footing

You can't say have the CIA investigate these things because DynCorp IS the CIA; so instead you have cutouts--fake people, front men, to run investigation, but at the end of the day, they are CIA covering their asses

With OKC they killed a lot of people; but the Korbell School psyop technique seems to be to kill a few people and hire crisis actors to maximize the emotional / psychological impact as killing bunch of people.

Conspiracy theorists fall into the trap of thinking the whole thing is faked, but people really died; and there are also crisis actors.

Madeline Albright

Serbian 'waving the bloody flag' was the disruption to get NATO bombing

The above hypothesis is 80% fact 20% working theory

Why do I think this? We know that sarin gas, gang rape, sex trafficking, and microloansharking slavery isn't off the table...if they are willing to do these things nothing will stop them from organ harvesting.

This is where the spirit cooking comes in

Yes, they teach the satanic stuff, but the reason I keep saying it's a

know it's wrong to take someone's heart out. But they try to create a
revenge motive. They convince the people that are doing that that
they are taking revenge against you for something.

It's called 'bad jacketing', the FBI is famous for this. I take this guy's

there's a million ways I can bad jacket someone.

Then the person over here who doesn't know any better says, "oh he's

Robert Rubin is at the center of this. When you want to fund operations like Dyncorp, you get all your friends in pharma or tech industries to funnel research projects through them. And some of that money is funnelled covertly as a cover for Dyncorp or Osprey Global. That is why Hillary destroyed the 2TB of files. It was records of these covers and covert ops.

George thinks the deaths are related to these clinical trials. That the kids in body bags are shipped back to Duke Medical to see how the vaccine did.

Braverman has not accepted his offer to go to Haiti yet { {He won't} }
George talks more about using Trello, and how he wants it organized
El Chapo got brought to NY today for a 2pm arraignment[[[
Because you have Kerry on the hook now for Iran-hostage and Nuclear negotiations on gmail as well
"Always the big move to cover the small move"
I'm wondering if this is the cover to get the reporters away from the White House.
Look back at the conflict points in history, and that's where it will be again, because the military planners look into this and replay; patterns repeat themselves
Military divides countries and then takes the half that has the resources, and keeps the other half disrupted
Kagame in Rwanda took armies to slice the Congo in half and then they took the part with the mines
The other way to say it is to take the Joseph Conrad heart of darkness approach and (((video cuts out)))

[\[Day 89 pt2\]](#)

Until Braverman responds we're just going to do storyboards
Late breaking news, I believe the District Attorney in the southern district of NY Preet Bhahara, working with the State Attorney General has submitted papers to give blanket amnesty to everyone in the Clinton Foundation to the president's desk and it has been signed.
Lucas Lundin--a mining guy worth 20B--pledges 100M to Clinton Foundation gets Kagame to cut Congo in half to take the forced uranium labor mines

Heart of Darkness is based on this following story

It's about realizing things are really this evil, as you go further down the river

Sub-saharan Africa is Joe Wilson's economic spying domain, he located the mines for Congo

Madame Curie discovered radium here and that launches the nuclear age

65% pitchblende is what is found in this mine, more rich uranium than anywhere else in the world, most mines in the US is 1%

This is why these people are tracking this. It's raw resource in WMDs. Joe Wilson brought in Lucas Lundin and Kagame and genocided ~6M people in order to get our nuclear weapon resources; he's now responsible for the 1994 genocide, but the first and second congo war under Clinton

Lucas Lundin is friends with Carl Bildt, who was the guy George Soros recommended to take over Albania; Soros is going to call on Bildt--friends with Bryzinski--to do the DynCorp thing

George recaps the Cemex 'cement laundering' strategy and slush fund "Mirebalais [, Haiti] is where it's all going to happen" {{wut}}

I just wanted to show visually. In 3 minutes I put together this slide in India with Iran, Pakistan, India: this gives you of the politics of India in 5 seconds than you would get in 20 years of watching CNN.

((George shows at 10:00 the two alternative pipelines from Iran to India: one that goes through Pakistan, the other circumvents Pakistan by going through the Gulf of Oman, with an Indian pipeline into the heartland along the Indian border of Pakistan)))

George is going to be talking with Cynthia McKinney about Bangladesh!

Trafficking is kind of like reverse-slavery; they show the pictures of the kids, test drive them at little St. James and the ones that are picked are sent to Africa.

Follow Jeffrey's plane

That's all: let's watch Trump's inauguration

[\[Day 90 pt1\]](#)

All of this is Henry Kissinger all this time

Hillary Clinton was working for Kissinger back in 1974 while on the Watergate committee as a spy, making photocopies for Kissinger's lawyers

Mena Airport was the Iran Contra funnel, you're going to find it's Henry Kissinger again.

All these people are chess pieces on Henry Kissinger's chessboard
Bryzinski is one of Kissinger's economic spies in the Carter administration

With the Clintons and Bushes this goes all the way back to 1974
It goes back to Nixon having a falling out with Kissinger, that's why he got rid of him with Watergate

These topple operations simply repeat

"I've been incremental to prepare you for this" -- "I've been very Israeli in my attitude" {{Wut..?}}

Let's talk about the evidence

School Joseph Korbell -- survivors from the holocaust so is Marc Rich; ashkenazi jews ended up populating Israel so all these means and motives came from that.

CIA HQ in denver, the Denver school Corbell International School
You don't teach people seminars on torture unless the students are going into CIA training environment

This is a CIA police force, it's like farming. They look at the target population like cattle, to be herded.

When you want to put in a pipeline, you rusle the cattle you take the kids and harvest the adults. This has been inculcated into this

"Dyncorp thinking"

The "pizzagate" art is about organ harvesting (see cake shaped like a person)

Orphanages where people are killed

Podesta Office Art depicts heart dissection "spirit cooking" emails show art heart removal Podest, "Pam" email talks about collecting for heart and kidney transplant from Pam. That's David Fleischaker, Sec of Energy in OK. He knew Kissinger back in DC. Fleischaker's official company slogan is "Rape Pillage Plunder". Go through the emails and it will be a who's-who of Kissinger's friends.

Podesta brothers are the debt collectors -- they are doing the harvest
Haiti is the kidnapping capital of the world, even before the earthquake (in 2010); UN was doing the kidnapping

You are going to see that there are a lot of illegitimate hospitals in Haiti doing the kidney removals to pay for their sewing machines and to pay their microloansharking cell loans

USAID money, put in microloansharking programs. Port au prince area will have the kidney removals

It's going to be Dyncorp running a forced labor mining in the gold mining (George will provide evidence later)

Minustah, means UN in haitain creole, most disbursements are to DynCorp activities only .6% going to Haitian organizations
Bill Swing uses migration as an army and create all these movements of resources. He did this in the Congo, 6M people died.

Another Giustra partner and Clinton donor Lukas Lundin pledges 100M

They are gonna cut Haiti in half and recognize both government, like they did Congo and Libya; Kagame was the guy

They did this get at the open strip mine of uranium

Gold is what its going to be in Haiti

Sex trafficking are going to be going the other way, to Africa

It's all financed by DynCorp; they ran the same operation in Europe

Males are used for their organs, females for breeding {{I don't understand why though}}

Some are disappointed because Trump recognized Hillary at the inauguration--"the fix is in"

There is the world court if Gowdy and Chaffetz can't move forward

There is also the court of public opinion

Wall off 'concerns', make it about drugs first and make arrests. Trying to get your arms around this is too much.

How to proceed: We need the 650k emails, send 200 agents to Haiti right away

[\[Day 91 pt1\]](#)

A lot of the swamp creatures are still there and so the story continues
Google "drain the swamp" and "george webb" and you'll get this video
How do we get at the 650k emails to drain the swamp, because if you get them, it drains the swamp.

People in Haiti upset that they only got 2% of donations

George does a big recap using the new Trello board

He has it sorted by:

Braverman slides

DynCorp Haiti

DynCorp Syria

DynCorp Important Persons

DynCorp CFR CCC Petrofac

Books About Private Contractors -- Human Trafficking

DynCorp - US - FBI -- JTTF

George proposes that Syrian child trafficking is taking them into

Turkish [Northern] Cyprus, Nicosea and Island of Malta

The coordinated efforts are planned within one room, the CFR

If you know about the oil, where it's mined, where the pipelines are going to be, you can predict where the sex trafficking going to be, where the organ harvesting is going to be, that DynCorp is going to do it, and even predict financial events (the example of Genie Energy in Golan Heights).

Heavily sourced "Holistic analysis", connecting it to the pizzagate and the content of Podesta emails

It seems like they are shopping organs and trying to sell them for campaign contributions

Brownstone operations--CIA agents are given a starter kit with ten thousand and instructions on how to blackmail your way into the government to take it over.

Divide the country, create a buffer zone with the UN and that bufferzone is the sex trafficked area.

[\[Day 91 pt2\]](#)

"It's all one thing" -- cookie cutter

Not just a Hillary thing, it's a drain the swamp thing

"It's about control"

Although Irving, Tx is where DynCorp is based, it's really about this spy school in Denver (University of Denver Korbell School

International) -- training people to take control of the police force by pedo blackmail, UN foreign peacekeeper for example, normalize prostitution and ease the corrupted police towards committing statutory rape and child sex trafficking (conflate prostitution with child sex trafficking)

This child trafficking corruption is used to blackmail and extort other high-level police, local politicians, and then the high level government officials

"They don't wake up one day and say "oh I want to be a child sex trafficker"" -- get the UN peacekeepers used to getting a new girlfriend every week, rape them for a while, selling the girl
You will get the local population infuriated, they will protest, be put in jail and they will become the organ donors

I don't think it's organ harvesting yet in the US, but this JTTF is really a task force against state and local agencies, that if you don't get onboard with this, the JTTF will intimidate you

They extort the chief of police, then the mayor and then they have control over the police force and it expands out

We need to get the 650,000 Huma emails and drain the swamp because we're going in a bad direction

I showed yesterday how it looks like they are shopping organs

"It looks like a cabal of people who are interested in living forever...do you need a kidney, a heart..."

Similar thing happened with this "Happy Hearts" in Thailand after the 2004 Tsunami. The same group of folks Sean Penn and Petra

Nemcova[\[Day 91 pt3\]](#)

George incorrectly refers to this as Day 98 part 3. Published Jan 22, 2017

Focus on CIA tactics that came into the FBI via JTTF, it's D&D -- diffuse and disrupt. I've been focused on the disrupt (psyops) methods. I want to talk about the subtle methods.

Diffusion really is separate the person's boss from the employee and get them (((employee))) to start reporting back to you. The decisions are made by the handler or the headquarters. Insert someone into the org and get them to feed information.

Open Society Foundations -- must be 100 of them or more. Doctors without Borders for example. Just to be clear, it's a lot of great doctors giving their whole life and could be making a lot more money. But what they do is take a few doctors or even an orderly working the late shift, you get them to start giving information back to you. This is a long slow process. They don't want to be detected so they move slowly. Hospital lists of employees and patients. The goal is to find out who can be targetted.

Famous example is the dumptruck that hits a car and everyone is near death. A couple ambulances come and one goes one way, the other goes the other, 30 mi away. Saying it doesn't have enough beds or something. And the misdirected one has the patient that has the donor heart.

George discusses operatives planted into different industries as subverts / provocateurs

The potential pedo blackmail leverage concerns only a few key votes from the Senate Arms committee needed for passing the NDAA (national defense authorization act), or defense contract or some other civilian-rights-destroying bill that enriches the security state. Torture is mainly used for networks, like a pyramid scheme, with 2 operatives and a handler. Cells of 3. That way in case someone gets a conscience, the 3 superior positions can shut them down, suppress, silence them; crush them. If you talk to the press you're going to end up in an accident. If you talk you immediately die.

They got Al Capone on tax evasion; { { {they will do the same for Hillary} } }

There are conspiracy theories about torture that it superoxygenates the blood and then they take a transfusion...I don't see any scientific support or evidence for this

There is some evidence that women who were being tortured and men were in the room getting off on it; so there is some macabre justification. There's always a "We / They" narrative to justify the torture. It's called the "revenge motive" -- they implant this in their head and then they are able to do all these things.

If you say for example her father wanted to punch out your son at wal mart, then you can justify drugging her and raping her or bugging her dad.

This is right out of the CIA manual

The head of the CIA Allen Dulles was fascinated by this. He had a macabre fascination with torture. He would watch flies under a microphone glass and pull the wings off to watch the dialation of the eyes. Getting dark movies sponsored

Sleeping Beauty was supposedly a CIA-sponsored film. The idea of drugging a women that she would somehow find you as prince charming when you had sex with her when she was sleeping and it would bring her alive and bring her awake. That whole meme they tried. It ruined full screen animation for 30 yrs. A little CIA folklore. {{to psychopathologize you}}

George explains misdirection, the big move to cover the little move

[\[Day 91 pt4\]](#)

When you first try to take over the country, you compartmentalize concerns and people in charge of these concerns

All I need is one person on a cruise ship to bring people in for sex-cations (sex vacations)

Talks about a guy with a tophat, who becomes the guy to talk to for sexcations

You go to an orderly and ask them about anyone on the edge of death, we'll give you 100 dollars to bring them to me; they put a pill over their mouth and they expire on the way to the hospital. Dead patient arrives, they harvest the organ, put on ice and helicopter to remote Mirabalais

If you compartmentalize this right, you don't need many people and you don't need to pay them a lot.

This has been done for thousands of years: put the men in the mines, sell the women and children into slavery; keep the most attractive as sex slaves {{rome}}

People say "this vast conspiracy" can't happen, but I just showed it was a four low-level employees

Say you have a fund for Haiti after an earthquake and call it the clintonbush fund {{lol}}, you run that money through a company like Shorebank, you move it in at the beginning of the day and move it out to several other banks, zeroing it out. Fill it up with something believable, then wipe it out by the end of every day. So when you see a summary log it looks like nothing is happening, 100M today 102M the next day 103M the next day, etc, but every day each of those is being moved out. By the time the board members look at the fund, all the money has been processed. No one looks at the daily transactions. You could have a thousand good police officers, you only need one. You can find plenty of people in the police force in Haiti that are willing to take bribes. They don't know what's going on and don't care if you pay them enough

If I wanted to run a radio station to run the revolution in Tunisia, I send a million dollars through the World Bank for a communications

grant. The World Bank is basically a funnel to launder money, no one is asking where this is coming from. "It's clean" No one is going to question the legitimacy of it, because of the notoriety of the bank.

[\[Day 92 -- Braverman Haiti and Me pt1\]](#)

Any time a general is the head of a drug company looking for vaccines, you have to wonder...

You're going to see the Duke Medical School being involved here
When "the loan is on the phone" that's a place to look for kidney / organ harvesting

Organ cruises. People going down to get new kidneys and hearts
And flying organs back to Duke

I have proof, there are bodies in Syria and Libya of bodies with the hearts cut out; and it turns out to be true in Haiti. I will prove that 650,000 emails, there are 19 email accounts including Hillary's. QPQ, evidence destruction, etc.

811 Referral, from the 1995 Intelligence Act--to improve communications between intelligence agencies--is the 911 for the IC; specifically when classified information is being sent to a foreign power.

McCullough is the ICIG intelligence community inspector general. He sends the FBI in July of 2015, an 811 referral, which says in the 300 documents that FBI released last week, that 3 governments have hacked this classified information. I think it's going to be all the 650k emails on Anthony Weiner's server. 1 friendly Israel and 2 hostile China and Russia

Here is Judge Napolitano saying the same thing on Lou Dobbs' show a week ago.

I believe--through other documents I've received--the whole sex thing is fake, like Petraues--it's a diversion. People say that's not true, couldn't be true. The connection is Ehud Barak.

Ehud Barak is the foreign minister of Israel (George says he's Mossad). Information is going to Barak

Barak is cutting out parts they want to hide from Saudi, reselling that massaged info to the Saudis and they cut out what they don't want to pass on, and reselling their massaged dataset to Qatar

Preet Bhahara you can choose to investigate it or not investigate it. It's going to be proven here whether you like it or not. <<laughs>>

Boyce quote recap

We can also place Barak at Epstein's island

Bob Maxwell is a superspy for Mossad. He did all the NATO

Brownstones. His daughter, Ghislaine, worked for Epstein to get the young girls to Epstein's island. She went to Hillary's wedding and so forth.

Bow Maxwell, Marc Rich, Ken Lay, Joe Paterno, all these guys who ran Brownstones are supposedly dead, but I think they're all in Tel Aviv, that's my opinion. I'm not going to try to prove that.

All the kids that settled can reopen their cases because the government did not disclose that they were involved in these cases. They are also a defendant if they were involved.

When you put Barak at Little St. James island, now Pareet BHAHARA HAS TO GET ALL the cellphone records of EVERYBODY that was in Jeff Epstein's little black book (((it's a matter of national security)))

This is our national secrets going to Israel, Russia and China

The 19 email accounts is the 811 Referral. We have to release at least the metadata publicly, right now. If Trump doesn't at least know who the people were, the topics were and the dates, then he is flying blind. He could be sending agents to their deaths.

Not releasing at least the metadata. And showing them in secret and not publicly is worse yet because now we think Trump is making side-deals and back deals for his own benefit. This just gets worse if you don't publish the metadata right now.

We know the people with immunity ((on the 19 list)) won't be honest with us

For instance if Jack Lew is doing secret treasury slush to fund black ops in Haiti and different countries, we need to know that because we need to stop it.

I'm ready now to name the NGO that I feel--after looking at the other NGOs--is running the paramilitary organ harvesting under the guise of triage operations: it is Team Rubicon, and I'll name the doctor tomorrow

I don't want to impune the whole team. It's a subset of the team. They come in at night and do the cleanup.

If you get the heart on ice, you have about 6 hours, an hour otherwise 'the golden hour'; people can check my timing. Kidneys you may have up 24 days.

I'm not making these comments because I dreamt it up. I'm seeing a video of DynCorp and White Helmets and can view their activity, correlate it with news articles, people, places, all known.

Peter Kadzik is involved on the PAM email thread with Fleischaker I believe it is Team Rubicon. You can sue me if you like but you're making a big mistake {{it will only call attention to this}}

I believe most of the cholera deaths are actually toxicity deaths from drug trials; the heart doesn't filter so it's ok even with that death; that UNICEF is going to be doing the patient populations

Bill Swing is going to be moving folks across the Dominican Republic this land and partition Haiti just like it was done in Congo and Sudan. This is what is being done with gold mining in Haiti, and that Lukas Lundin is running the operation with Frank Guistra.

Claude D'Estree changed the name of his trafficking center from Cord to Chore {{common chore?--no child left behind? Got to get them all}}

CIA has these funny "WINK" play on word names like DynCorp is Dying Corp {{{occult mockery}}}

Pug Winokur and his involvement with Enron and that why I think Ken Lay is still alive {{wut}}

[\[Day 92 -- Braverman Haiti and Me pt2 -- Who Killed Monica Petersen?\]](#)

Military versus Civilian objectives

Soviet union used PNEs 715 times

You can look at the 2004 tsunami in Thailand, 2010 earthquake in Haiti; India, Pakistan (gov's admit to) draw your own conclusions

You can ram a barge into levees and create a flood in say New Orleans--there are many ways to create a natural disaster

Going to explore Team Rubicon--a play on words--Kissinger's Red Team - is a marine sniper team on the ground in Haiti 3 days after the earthquake

Peter Thiel -- from Palantir

David Petraeus

Jake Wood

William McNulty

George believes that in those emails between Petraeus and Hillary it's going to contain Team Rubicon activity; and that it starts in 2010

This is Petraeus's movie squad, using attractive, square-jawed marines to make movies for the Senate Arms Committee

McNulty worked for DIA and was more of an intelligence guy

They would be helping Haitians during the day but then would run covert ops at night

Petraeus specialized in extractions using incapacitating gas, to go in and 'get the sleeping beauty'

Porton Down tested how much Sarin gas could be used before it would kill someone.

Semi-classified they sprayed a coastal English town with Sarin over a period of time, can't remember the name of it.

Eliminate political opposition

Petraeus changed counterinsurgency where no one is killed -- by building a FOAF network, metadata, by bodysnatching someone, torturing them for info on who they know, wash rinse repeat

{{George has misspelled/pronounced "Palantir" as "Planatir". I doubled checked with google}}

You don't send a crack sniper team 3 days after the earthquake ad hoc Palantir is used to find the opposition leaders to Haiti to kill or kidnap the friendly soldiers, special forces people who question things

Palantir has software for building social networks, they do what I try to do with this series. They bring in facebook, twitter, etc...it's part of the TIA total information awareness program, deploy mini satellites that sit close to the ground and scan the deployed quantum dots (chemtrails) and they attach to cars and to people. If someone had both the red and the green show up, then they were at different places.

Lots of Volunteers for Team Rubicon in Haiti but the core is a crack team. Dyncorp is going to be more the police force. The Rubicon is going to get everybody in the first couple of months. Rubicon is going to be more like the marines; Dyncorp the army. Says his dad was in Georgia with the army, and the marines were off to the side, so they got "the experience that marines get when they land" (ie: shot up to hell)

Israeli adversarial overkill strategy: you don't just kill them, you take their organs, sell/rape their kids and wives. That mentality is no longer needed. You are safe. {{You have nuclear weapons you aren't supposed to have.}} It ends in blowback. Go to the Geneva convention, that's why they wrote it.

Caesar crossed the Rubicon, that's what the moniker is about.

George discusses military helicopter heart dispersal in the US This is why these military people commit suicide years later. They remember the faces of kids and women. You end up getting PTSD because you have to follow this pattern by your commander, and you're compartmentalized so you don't know what you're doing, but then you find out what you unwittingly participated within years later--organ harvesting and child sex trafficking for oiligarchs. People have flashbacks with hollywood movies when they see similar faces. All three of these nations can selectively release certain emails as Donald Trump starts saying certain things, they can release an email, 'pardon me hillary here is a tidbit about the yemeni child trafficking we did for you / you did'; {{{and it totally undermines his control and credibility of the US Government, making him look like a silly cuck to all people}}}

Where Netanyahu is coming from on this, is that Obama and Hillary--mainly Hillary--gave 8B of USAID to buy a homeland for the muslim brotherhood right next to Israel in the Sinai pensula, and he pushes back "this is not security for Israel". That goes back to the 30 yr friendship that Hillary has with the Egyptians.

George discusses the psychohistorical aspects of Israeli-Arab organ eating

George discusses the Prism system that comes from Palantir system; the quantum dot tracking Palantir system is the nextgen PRISM from Snowden revelations.

Who becomes the enemies? Terrorists, families, friends, journalists, then you can track all your criminal assets are...it gives them this sense of power, the eye of sauron/god, but there is no moral compass. This system needs sunshine first--like the church committee hearings--then it needs a moral compass.

[\[Day 92 pt3\]](#)

Oil and Arms go together because they serve a dual purpose; how international groups decide who can explode PNEs for oil exploration (western powers) and who can't (India / Pakistan)

DynCorp is really oil/gas and mining police

NSA Synapse model, a mindmap of who they know and what they are doing {{see Mr. Robot}}, foaf and foafoaf

Topple with Osprey, then Team Rubicon, then Dyncorp

Based on the quantum dots, they can build a disposition matrix, same as for the drone program--you can see the drone footage as input to Palantir

Going to send dad to the mine, the woman to the sex shop, the kid to Colombia; if he starts acting up at the mine we take his heart to Duke medical

You just kill the journalists, because they tell the truth and they don't have a network

The quantum dots are being deployed closer to home

Denver / Norad is where they will be tracking everybody via quantum dots

I shouldn't have said Team Rubicon is doing the organ harvesting; I think I conflated the two when I started talking about Dyncorp and Syria, so I apologize for that. Rubicon is the mop up squad

The marketing side of the heart business is John Podesta and he's a big salesman and he's going to say, "hey have you ever thought about eternal life" (((points to body heart cake)))

There is a [medical] doctor in NY that shares the name Eric

Braverman with Eric Braverman, and he's a very good friend of David Petraeus, he will also be a salesman of organs

Prince Andrew was also on Epstein's island; and the Dutchess of York was a stringer for Jeffrey's kids, and you're going to find her with Eric-Braverman-the-doctor talking about new organ living

He found a link between Anthony Weiner and Ehud Barak, and if [George] knows that, I don't know why the Southern District Attorney of NY doesn't know that. <<<helicopter passes overhead>>>

How can Trump move forward, if Israel, China and Russia have these emails and Trump doesn't? Or Trumps' been informed in private, but these emails belong to the people of the United State? You need to at least release the metadata if you have state secrets to fence.

[\[Day 92 pt4\]](#)

Team Rubicon can take out political dissidents under the cloak of natural disaster, and they go back to Katrina
George connects theology excuse for militarism, as a guise for creating a revenge motive in rural areas
Grange is going to be doing the Gladio programs in the US, if there were an uprising
When there is a natural disaster you have a 2 month window in which you can get rid of your political enemies
It's terrible to make a serviceman shoot another serviceman who is-- for example--investigating sex trafficking
Same thing is going to happen in Chile, and in Katrina
DynCorp is heavily invested in medical technologies--looking at people like cattle
Not a fan of Alex Jones and Infowars, but if you start acting up at the mines, you go to the glue factory
How long before all this comes to pass in the US?
There is a whisper market for stem cells, blood transfusions, organs
Better to rip off the scab
If we don't publish those emails now, they are going to have so much more impact as time goes on.

Braverman starts teaching on Friday
I'm still planning on going to Haiti--not going to tip off when, because I don't want to be kidnapped first day there
Recap of 'eternal life' marketing of bioproducts by defense contractors
You train a group where there is a pinch-point to invade, using gangs of 8-10
If you're in a gang you're in for life
The 10k country takeover kit operative: first thing they do is go to the poor people and train them to be a kidnapping gang, send them to a rich target; you only need 1 provocateur
You can outfit the group with cellphones, and then you can track your entire insurgency force
Haiti is the kidnapping capital of the world before the 2010 earthquake
[Kidnappings are about] draining the opposition of their middle class and their support [extorting ransoms]
Bill Swing brings in insurgents under the auspices of reckless deportation---no that's the insurgents
3 months before the election you want to take out the opposition, lots of kidnappings before the election
I'll show you how cellphones can be used to create alternate realities
You can't have too many kidnappings...they have to be random.
Otherwise, the opposition will unite and figure out it's the government.

People don't naturally form kidnapping gangs..it's always government [gangster] run

Snipers create an automatic perimeter...the cheapest way to create a perimeter...if you shoot the first person who gets in your business, believe me there won't be any more

Team Rubicon was for area denial and medical people to figure out who the 'bad guys' are for organ harvest.

Triage people are going to make decisions of who gets helicoptered to Mirabalais, a protected hospital

BMP and Minustah in Haiti will be the Dyncorp White Hat homologues

Compartmentalization inhibits marines from knowing what they are participating within...they see pictures years later and figure it out, and get ptsd and commit suicide.

Haiti has had 3 coups and still has insurgents

Everything I've been saying about Haiti has been confirmed by famous ivy league trained Haitian lawyer Danto

Why is there a cover for the gold mine operations? Let's take off the cover.

CNN was created by the CIA to export their ideology abroad [like operation mockingbird]

Digicel is going to be the CNN / CIA of Haiti--they get their news from digicel

Moïse's plantation has an airstrip. It's Mena all over again.

Regardless of the voting numbers, Digicel will put out a story saying Moïse won, and it's impossible to retract that. (((Just like CNN in the US has done and tried to do last year)))

CNN is a replacement for AP Wire; you get 10 others to validate it, then the {{ad populum}} gives it credibility

Moïse is a drug dealer, a money-launderer and Boot {{sp, Who?}} is in it with him; they use this Digicel to perform the microloansharking Pug Winokur manages over 30 federal agencies--he's injecting insurgents through JTTF into the police force from the bureau of prisons--they are prisoners. You think they are police, but they are actually criminals posing as police.

If the organ harvesting weren't happening, then how is an 83 yr old getting a heart? (((there are long heart donor lists, and they usually give them to the people who are most likely (younger, healthier) to not reject the heart--use your critical thinking skills)))

Just publish the metadata for starters. These 19 gmail accounts belong to the american people, otherwise the government is in violation of the Federal Records Act.

[\[Day 93 pt2\]](#)

George review Ted Gunderson and Fort Bragg (drugs in the dead soldier corpses) -- George thinks they are still doing this

CIA does the same thing over and over again, making only minor changes

Bodybags from Haiti, through Duke Medical Center, some marked for drugs--I still think they are coming back to Ft. Bragg

I don't want to talk about counterinsurgency in the US too much, because it gets too complicated. Mentions entry points El Paso, Las Cruces, San Icedro?; Texas to Chicago line is what they are trying to protect, using people as human shields like they did in Aleppo in Chicago, San Francisco, Los Angeles, Portland, Seattle, etc. But what ends up happening is I get in a lot of regional arguments across all 50 states. So instead I focus on Haiti as an example--a neutral model--you can understand, so that you can apply it to your specific state, doing your own research. On vaccinations, microloans; and you can look at cadaver graveyards around the major cities.

The point I'm trying to make is it's not Hillary, it's not Bill Clinton, it's not George Bush. It's more Kissinger and CIA and it's happened over a long time.

Ted Gunderson says, "Yes Bill Clinton's four bodyguards got kill shots at Waco." It wasn't because Bill Clinton is evil, it was because they were about to expose the Mena Airport thing and according to National Security, Mena [[Cocaine Trafficking]] had to happen. That's why Iran-Contra had to happen (((they say))).

George talks about OKC, how Timothy McVeigh was ex special forces, and a patsy, how the bomb couldn't have possibly been ammonium nitrate. All those things are true. But it was critical for the CIA to blow up OKC to create this need for counterterrorism. They had the thing at the WTC with the car bomb--they didn't get the changes they wanted with US law. Once they had OKC, they got the national security laws they wanted in.

Hillary was just a vehicle for the CIA counterterrorism initiatives to infiltrate the FBI

Where Gunderson goes off-track was that he bought into the whole Illuminati stuff, but he was otherwise a great researcher

Kissinger is telling Zbigniew Bryzinski that he's polish royalty to get his buy-in to the Carter administration. No one really believes that Zbigniew Bryzinski is ex polish royalty. It's just Kissinger manipulating people by appealing to their sense of self-worth

Was Gunderson right about the abductions? Do they have these Satanic rituals that they teach them? Yes. Does anybody at the CIA really believe that stuff? No {{You're can't verify that George}} They just give them that stuff to perpetuate.

Everyone wants to make them out to be Satanic priests, but they're not. They are pragmatists just trying to make the most for their investors. {{Normal people don't do these things George. Satan is actually money at the cost of ethics}}

As an example: A sanctuary city could be port au prince (((again, replace 'immigrants' with Bill-swing's 'insurgents', similar to ISIS))), and if Trump tries to come and get us [[Chicago]], we put the women and children in front of us as human shields.

Any time I see bodybags I think of Jeffrey McDonald, putting the drugs back in the body cavities of those people, then you could send them back to Duke Medical and say you're studying cholera in order to build a better vaccine. That's why I tie the body bags to vaccines. If you look at the new parliament they are trying to put into Haiti--they are all drug dealers and money launderers. [[As CIA]] you compartmentalize by having the [[corrupt]] government of Haiti as a middle man;

You don't endanger the entire supply chain.

They call them compartments. Special Compartmentalized information facility a SCIF that's where they are allowed to talk about these things.

There are special access programs within the communications of a SCIF: it's completely walled-off

Colombia giving aid to Haiti will be a social justice face as a cover for moving drugs

Once you are part of the mining, you are part of the "the roach hotel"; it's a one-way trip to the prisons and then to the organ harvest hospital; then the glue factory

People say you need a whole slide on Palantir. A company like this doesn't come out of the woodwork with all the intelligence hooked up. Of course, this was NSA and CIA and taxpayers paid for it and that it was a precursor to PRISM, which Snowden talked about. What the CIA does is they commercialize everything.

This may burst some bubbles here, but you're gonna find--well everybody knows Larry Summers stole Facebook from the Winklevosses, and the whole Sorkin thing with Facebook--with putting Zuckerberg in there. Maybe there's a small group of people who think Zuckerberg created Facebook, Cheryl Sandberg, and the whole gang. It was all Larry Summers' operation there.

Things like Google, google especially: from the very beginnning was an operation to control the Internet. Sergey Brin and Larry Page might not have known that's [where] they were getting their funding. When it gets traction, they are going to bring in Eric Schmidt as your economic spy to control where it's going. They drop off the search engines that don't get traction. Google was the fair-haired child because it got funding.

The reason Google has all the different services is because it feeds [Palantir / Prism / disposition matrix] system

Kissinger may be one of the smartest people who ever lived--also the most ruthless--and James Clapper is a close second. Clapper became a

geospacial expert [satellites]. Kind of like admiring the mercedes benz, knowing that they were partly responsible for the holocaust. This system started out as terrorism, but it's expanded to family and friends....then it's expanded to enemies lists: journalists, etc. This started around 2010

When I came out against Andrew McCabe and the JTTF, that's when this started impact my life

Pushing [CIA crimes] under the rug is not the right move for world opinion

Question for Eric Braverman on Friday: ask him if what George Webb is saying is true <<<I would only ask this question if I were auditing the class under a false name!!! Lol>>>

You are going to start seeing people going missing before the Superbowl and the bodies washing up after

We need to track the kids in Thailand and track the hearts better This is the stuff that really gets me. You have Sean Penn and Nemcova (Happy Hearts) toasting Martelly the defacto dictator in Haiti, when only 2-5% of the money came through. This is a front, a social justice front to this organ, heart harvesting operation

You don't endanger the entire supply chain

[\[Day 93 pt3\]](#)

Taking Eric Braverman on a jungle cruise, the 'heart of darkness' CIA has a lot of winks in the names of their front companies

It's very important for the CIA/FBI to send a signal that they are winning, every day

Chord was a company talking about human trafficking was a double entendre on stem cells, on 'cord blood'

I didn't come up with these names, such as "operation underground railroad"

I'm supposed to be taking pictures of these people being trafficked from Haiti to Colombia, and I'm a special forces person....

It's the hardest thing for me to watch this happen but I had to catalog it

At the end you round up all the people silly enough to fall for this entrapment

If you follow McCabe, and this goes back to 2010 with me: it's entrapment after entrapment after entrapment

You will find all the big cases in the FBI were all glorified entrapment, informants were used all along the way to lead this rube into running an operation like this, and getting arrested at the end.

Not only will you see body bags going to Ft Bragg but also to the CDC in Atlanta

Peter Thiel and you will find the whole paypal thing was a way to get more information about everyone, not just social network but geospatially

Friends of Haiti

LifeCradle HR heart transfer equipment

Marron Inconnu Morne Boulage Sad Face--not going into his background just yet, but later

He had this doctor, let's call him Gee for now

George mentions Thomazeau and Grand Boulage as places where people could disappear

{{This part is very cryptic and abstruse to me--George makes no sense to me}}}

Noyau (core/heart), Morne Boulage (sad face), Montalais (mountain alias) as three mountains

If you try to go to these places and what you find is Mirabalais, that Noyau is an alias for Mirabalais

There is a famous statue on Rue Montalais that is the slave without a name (marron inconnu)...that represents the celebration of freedom of Haiti, a symbol similar to Che Guevara on t-shirts

Say you are telling your prisoner on your way to Mirebalais at Grand Boulage that you are going to kill his whole family too, then you end up with Morne Boulage (sad face). The CIA loves to do this: right before they kill you they love to tell you that your whole family is going to die also. Then the heart comes out at Mirabalais. The helicopter will then fly to the new airport, then the heart flies away.

You also have the live transfer [organ harvest] at Mirabalais

I know about this because I know Friends of Haiti and I know Dr. Gee, and I know this goes back to Arkansas. <<<revelation of insider knowledge; ignore at your peril, elites>>>

This is the slippery slope: when you start seeing your enemy as a resource,

It goes back to Haiti and the CIA in 1982, same time Ollie North and GHWB come up with the Iran-Contra-Mena-Arkansas drug dealing thing. The original idea was to train Dr. Gee in Arkansas and fly him down to Haiti to do this. The problem with the Arkansas prison was there weren't enough people dying to provide enough hearts

We have a lot of talkers at the CDC, just letting you know

At some point, people have this braver-man moment where commit suicide or are suicided or they come forward

Humans don't operate well under this, but eventually good humans come forward

Ask Braverman if he can measure how effective the tourism industry has been for Haiti

I want to put this in terms of Monica Petersen as a representative of a person who discovers their moral compass and says this is not right, and is willing to give their life for saying and speaking out that this is not right.

I'm going to keep on Andrew McCabe because this is entrapment.

George talks about Gangstalking, a thousand cuts strategy--a cointelpro strategy, to fool the target into a revenge motive type thinking, to get them to think it's a local menacing; you won't know it's McCabe doing this and by extension, it's Comey
You can see in Comey's eyes that he's got doubts, but McCabe is totally immoral (paraphrase)

[\[Day 94 pt1\]](#)

Amy Rao mention

Recap of topple process and the activity of DynCorp, the corporate police

Go to wikileaks and put in organ harvesting and you'll see a litany of locations mostly Kosovo

You'll see that nominally racially african nations are more of a target--don't know if there is a racist thing happening { {interesting that the congressional black caucus are strongest defenders of Clinton foundation} }

Catherine Austin Fitts figures Out Entire DynCorp Black Budget By Pulling on the BCCI "Golden Thread" at HUD. Pug Winokur's 30 Agencies under PROMIS Software Account for Missing \$3T in 2002, now \$6.5T

She wrote for this paper "From the Wilderness", contributing editor Peter Dale Scott.

She started by looking at bad loans through BCCI to find money laundering

It was the same Arkansas Development financing thing, the fill up the account and wipe it out daily so you don't see money going anywhere on a summary

DynCorp manages all the electronic clearing and fund transfers through PROMIS for every one of these agencies (in the Intelligence Community and DOJ, HUD)

DynCorp manages the black ledger { {Foxes guarding the henhouse} }

There are rumors that it's 9T now because they printed 2 extra Trillion in Obama's administration

I want to talk about how to get rid of people who report stuff like that.

This is Michael Rupert. He reported crack cocaine is coming into LA
Michael Rupert and Gary Webb both exposed CIA Drug Dealing. Both Died from CIA/FBI CTD "D&D"

George explains Crack

Webb talked about how Iran-Contra and how it was financed by Crack.

I'm George Webb Swaggert, btw, I'm not using Webb is an homage to Gary Webb, but he is my favorite journalist by far.

You can't just kill them off, that attracts too much attention, so you have to run this disrupt. You create this revenge motive. CIA has created these revenge groups. This goes back to Allen Dulles.

"Branch Davidians" on his board, but not mentioned
This is Laura Silsby's group, they've been planted a revenge motive.
They believe they are doing God's work by saving these kids. Palantir
lies to them and says 'these kids are under duress', and you get them
to kidnap kids. If you ask anyone Laura Silsby would be one of the
best people you ever met because she's done all these rescues {{{but
you she is CIA and they are organ harvesting}}}
CIA == Dulles creating Catholics In Action
CIA == Christians in Action
Religious groups trying to do what they think is right, no matter what
the law is, including murder
There have been hundreds of these groups.
You try to break up a target's marriage, then get them to lose their
job, get them staying with their friends, introduce a health problem,
eventually they are living in a trailer by their friends. After daily
harassment, they end up committing suicide
I'm in the same program. Hate to say that but it's true
Path foundation is a doctor named Eric Braverman believe it or not.
He's an anti-aging specialist
How do we know him? After Sara Ferguson Dutchess of York, she got
involved in a foundation with Dr. Braverman. Going with a celebrity
brings in dollars and brings in aging clients. There is a customer list
here that's going to be the list of recipients of his hearts.
I don't know anyone who spends 4.5M on a divorce case (blackmail
extortion)
I think you're going to find an interesting person is [Dr. Eric
Braverman's] Daughter. Gotta leave something for future episodes. *
<<<This is a veiled threat to Braverman: give them up, or else you
and your daughter are culpable in the forthcoming revelations:
divorce yourself from this now or you'll be sorry>>>
The teen victims of CIA gang rape don't know it's the CIA doing it. So
instead they are going to fake-rescue and then use the revenge motive
to get back at all the guys who did it to them, by turning them into
assassins.
There's a bunch of movies coming out where the women are going
around and killing the rapists. {{lizzie borden comes to mind}}
Knock out gassing a room full of people, sarin or something, then a
small girl comes in and uses a slipnot just to finish them off. Any
coroner will say they died in their sleep.
Once they get a girl to do a killing "slipnot girls", they will then kill
the girl
There's a group in NJ and a group in Chicago and in Denver that does
these killings.

[\[Day 94 pt2\]](#)

People say, 'this is just so vast you'll never solve this'

You can't solve the problem until you get to the heart of the problem, and Pug Winokur is the heart of the problem <<helicopter passes>> JTTF is the way the CIA has infiltrated the FBI, and it crushes good Agents. It uses people as sex slaves to create entrap schemes, and some of them become female assassins and then they are killed. I know it seems a little far-fetched

The way this is unwound is to go to all the DynCorp contracts Pug Winokur has--Now these are public contracts, they have to be let out to be public. And then matching up sex crimes with every contract. Everywhere this is a DynCorp contract for policing, there will be sex crimes. Once the public understands that this has not changed ever since Cynthia McKinney revealed it [in Rumsfeld's DOD inquest ten-fifteen yrs ago where Rum was verbally raped, so delightfully], that they have to investigate it.

The black budget that Dyncorp was managing is where the missing trillions has gone. If Trump wants to find the 6.5 missing trillion, he has to go into the black budget and publish at least the metadata.

This is the same way Elliot Ness got Al Capone: on tax evasion.

Pressure needs to be on Trump to publish the black budget

It's fortunately easy to do, go into PROMIS software and follow the ledger. This will be in Palantir, is the PRISM update. It's an easy case to break. Get to the bank account and everything falls out. They know where all the accounts are btw.

George mentions Det. Boyce has seen the 650k emails, btw this is going to solve a lot of cases, not just one or two

Bhahara is still looking at his Time magazine and his blue contacts {{lol, narce!}}

I want to explain the way Enron was broken

Pug Winokur was at Enron, and Ken Lay was the CEO. So he was handling the same role at Enron, as he was at 30 US Government agencies. Winokur was the financial overseer of Enron. The same kind of web of companies he created...a company creates 10 then they created another 10, then collapse them all, kind moving the money up, of like folding up chairs after a choir performance. That's Pug Winokur's modus operandi.

Ken Lay, you're going to find, was supposedly cremated in Aspen Colorado; you're going to find....<<<loses thought>>>

Mentions Gen McCrystal

The Treasury knows this stuff, you can subpoena this information PDD-62, the slow kill program, that killed Michael Rupert, Gary Webb, the Brownstones, it's all Dyncorp franchisees

The double entendre of all these self-congratulatory, life extension programs will use the rationale that they are keeping "important" people alive like Stephen Hawking or "a great mind" like David Rockefeller {{I just threw up a bit in my mouth}}, those people

don't know that the organs are coming from third world countries-- because of the CIA compartmentalization
If you tell the story too fast, then you do end up dead. That's why I tell the story slowly.
Trump needs to publish the metadata because it will at least put everyone that is giving him crap in the media by putting them on notice
People say, "why just the metadata?" We end the crime syndicate and we stop the anti-trump information overthrow they are trying to do, and yet Trump doesn't have the stuff about him come out.

[\[Day 94 pt3 -- "Day 94 - DynCorp, Haiti, and Me, Part 1"\]](#)

I gave Eric Braverman a break. He started tweeting
Pug Winokur moves in his place, along with DynCorp as the focus of the series
This takes us back to 1984 and the PROMIS software -- this is the thing that has its tentacles in everything
We are going to follow USAID and the DynCorp vaccine contracts and policing contracts -- researchers send any links you find
Metadata is who sent what to whom and when and the subject; without the content per se. That is called 'pointing the gun': it only takes a hair trigger for everything to fall apart on them. It's a threat, as a deterrent to this evil behavior; to get them to stop.
Metadata is draining the swamp without setting off a nuclear bomb in the swamp.
Everyone is going to continue to attack Trump because they know all-of-this is a nuclear bomb
But Trump has an ace-in-the-hole: because Russia, China and Israel have hacked the Huma server--due to the carelessness of Philippe Reines--he can leak this type of information { {because it's effectively public, it's taxpayer paid secrets that it makes no sense not to be public, given foreign intelligences have it now too} }
I'm going to give you the rational of why DynCorp does all this. They are kind of like the farmers of war. Then the [DynCorp] police come in and say, 'wait a minute we're actually making money in this control operation. We're making money off the girls, we're making money off the kids, organ harvesting, microloansharking, all these businesses DynCorp is in.' That money isn't going into Hillary or into GWB's bank account, it's going into the black budget.
Pug Winokur is saying, "hey I made this money. Don't ask me how I made this money. I had to use a lot of women as bait, and then I had to blackmail a lot of generals and politicians to gain control of the country." Same with secret drilling. This is the company's money. That's why they call the CIA 'the company'. The money is kept in thousands of accounts around the world
The PROMIS Software is the glue. Promis unlocks the whole deal

You're going to lose trust in the government if you don't publish the metadata

Dyncorp doesn't get destroyed, and they are still going to make a lot of money on their regular operations. You can still say the money just went missing. That way you can keep all the money

But if the open investigation keeps going, we're going to find the money. We'll get to the PROMIS software and Palantir coordination {{and then its curtains for everyone involved--100% life destruction}}

George speculates on night activities at Thomazeau Haiti and body dumping; in lots of 20, mostly prisoners, you're going to find bodies in the bay near Thomazeau; Gov will make an excuse to keep people from investigating

Dr. Gee Phillippe {{Guy Phillippe?}} from Pinyo was the guy running this operation, now it's a new person

Everyone's made the comment Paul Farmer--oh I get it human farmer, whoever made that comment: you are correct

{{I can't follow this part--what are they trying to say about Paul Farmer--another entendre?}}

The Paul Farmers of the world are going to go around the world and train the Guy Philipppes of every country and run this operation

This is an enemy combatant <<points to a 6 yr old Syrian girl>>.

They call them "Bite size terrorists". Once we identify the Syrian people as the enemy, then anything is fair game

The DEA was created in the 70s to compartmentalize the drug business from the CIA. You're going to see sex parties all the time; the rationale being that they have to in order to fight the criminals. These are all Brownstone operations

The PROMIS software is tracking every agency that's doing asset forfeiture and running brownstones. IF they are running these programs, they will have information in the PROMIS software.

You're going to find that the Dallas shooting where the police officer that was an ex-Dyncorp employee was killed, he was killed by this Rubicon sniper team. Any time a DynCorp employee shows their face, you'll find this sniper team.

I never meant to say DynCorp had 6.5T dollars. I'm saying is that they are the ones that do the disbursement of the hidden budget. They are the dark [shadow] US treasury run through the PROMIS software and Palantir. Palantir is the asset management and tracking software. It tracks enemy combatant and considers them future harvestables, human resources for using them for organs, slavery, sex...

Michael Ruperts' "Crossing the Rubicon"--was the closest to unraveling this..He was at the heart of the PROMIS software. He got a sniper team named after him [Team Rubicon]. George says, "I hope I get a sniper team named after me. I have to write a book first"

George reiterates that victims and parents can still sue because they were not told they were part of a government operation.

[\[Day 95 pt1 / 26-01-2017\]](#)

Looking back at Enron...Frank Wisner is a long-time CIA guy (at Enron) whose father was involved in all the overthrows in Central America and Iran. The CIA thread through Enron is pretty strong. I did Jeff Rense's show and his listeners wanted more evidence of organ harvesting and I will provide that

One of the themes of this series is that these techniques are used over and over, a pattern has emerged

DynCorp is the largest black budget contractor in the USA

They are taking children to Colombia in Operation Underground Railroad

Slowly drain your enemy by asset forfeiture

{{Mentions fiber cable but I can't follow}}

CIA folklore--when you're done with the enemy, when you're done harvesting all the parts, the rest goes to dogfood factory {{Purina}}

George recaps his evidence of organ harvesting on wikileaks

People ask: How did you come up with this theory that they are dumping the bodies in the lake in Haiti?

Just look at Rwanda, Congo, Sudan and we found lots of 20 of bodies in the lake, organs removed

George recaps slow kill

Jorge Puella he was the lawyer for Laura Silsby-- He is wanted in El Salvador for child trafficking INTERPOL can't find him

Whatever you see in Haiti, you're going to see in Chicago soon after

Some people believe the Homan square secret prison in Chicago is exactly that operation.

Cassrola?

"Bill Weld" and others stole the software and gave it every dept of Justice around the world, except that they built a backdoor into the product [[to allow Weld et al access to other countries JTTF programs]]

1947 Dyncorp started, same year as CIA--Dyncorp is just the covert side

They went to a group like the muslim brotherhood in the United States called 'the brotherhood'

The leader is Doug Coe, they want Trump to go to the "National Prayer Breakfast", have been doing this since Eisenhower

This is the Jesus-plus-nothing group (militant Christians)

{{ie:Jesuits}}

"Doug Coe's calls out two leaders who demanded absolute loyalty --

Mao and Hitler - Enforces all Informant Groups"

Watch the video below "The Fellowship aka "the Family" Secretive DC prayer Group" on youtube, channel is Raw Story

Think about this as Al Capone, walking around the Dons with a baseball bat, smashes them in the head, "don't screw up"

This group goes around killing informants that talk about these things.

They even call themselves the Christian mafia

The slow-kill type stuff ("gangstalking") is done by church groups and religious groups thinking they are doing something right

DynCorp people think they are living the pirates' life, and they brag about it--they get to have sex with the girls, get the gold, use it to find more gold and run slaves. They use a lot of pirate symbolism. They always go back to "Queen Elizabeth had privateers". Even talk that Allen Dulles convinced Disney to put in the pirate rides. I throw in folklore to keep it interesting otherwise it gets depressing.

An easy way to think about it is this: if there's something really bad, they'll just make a movie about it {{{Normalization}}}. You remember that old big billboards that motorcycle cops would hide behind to catch speeders? The Lionsgate, Frank Guistra film, "Hotel Rwanda" at that big billboard to hide the forced mining, the killing and organ harvesting, the uranium being taken out. They don't feel the need to do that in the Congo.

Everywhere they make a film, it's just a billboard

If you need to dump bodies, you need to have a "wacky group" as a cover story, like the Branch Davidians

There's going to be another billboard movie about Haiti

Google "fusion centers" and see what they call the people on the database that are in their terrorism watchlist: the enemy

George mentions and endorses zero hedge.com

Sihk / Nepalese Indian UN guards will be at Mirabalais...they were the same in the congo and were trading Ivory

The only thing you really need to know that PROMIS is accounts being managed in one place

Bill Weld at DOJ can tap into any country's intelligence programs and beat them to the punches...coopt everyone else's resources using backdoors

500 new emails were released but they were all redacted and therefore worthless, it's only so they can say they've released something. But it's obviously a coverup

Think of Brownstones like speakeasies. During prohibition you didn't call them that, and you didn't believe they were all over the country, because that was a conspiracy theory back then. Now it's all known

they were everywhere. Speakeasies are the same thing as the Brownstones

Organized crime did this before: DynCorp is the organized crime side of the CIA, it's the mafia side. Dulles bros added this.

There's the data collection and analysis side of the CIA--doing this kind of thing: connecting the dots

Asset forfeiture from blackmail leverage has become the primary activity of over 30 agencies

[\[Day 95 pt3 / 26-01-2017\]](#)

"USSS Prowler Teams" - United States Secret Service Prowler Teams -- they have access to all the technology of the US Government

This little group called the "pope's mafia" Joe Clancy doing favors for Podesta--it's the same group hobnobbing with cartels running prostitutes in Colombia. It's the same group going to Jeffrey Epstein's island

I worked with Carol Leone of Washington Post--pullitzer prize winner on that story--I didn't have quite all the pieces in place yet and she said she had to pass on this. George hopes at some point to get back with her on this.

Doug Coe isn't just in the US, they are international. He gets involved in a lot of elections in Africa. He marks the people for assassinations. George explains the DynCorp graveyard orderly and then a bunch of people die.

Another way of using the people in the NGOs as human shields, is if I criticize the hard-working nurses [[because many people dying on their watch]], they'll just say 'that's crazy'. The CIA is good at using people as human shields {{creating plausible deniability}}

The Secret Service allowing someone to jump the fence and get their hand on the lincoln bedroom is a veiled threat to the president, it says "hey the NDAA is coming up and we don't want any problems"

Joe Clancy works with FBI's McCabe to attack any enemies with deep dive attacks

Chaffetz questioned Joe Clancy (mafia of SS) about why it took so long to respond, and the SS then put a bunch of agents (a deep dive exploration) to aggressively background-check Chaffetz. They found he didn't do well on SS test and they shamed him. George points out it could have been altered, anyway.

NSA has all the 19 communications, the only thing the 19 can do now is resign; and do more disruptions with stingers.

Until Tillerson gets in, it's a very dangerous time now.

The longer people don't recuse themselves with respect to the 650k emails, the worse it will go for you.

It's the FBI's own interests to release these emails, at least to give the impression that your'e trying to follow the case. It has to be a healthy schedule, it can't be this 5 yrs thing

I believe all 19 got immunity and that Hillary got immunity in a secret deal. You heard it here first.

Steve Jobs in the corner 2009 Liver transplant

Kadzik has gotta go at DOJ

Trump has friends; it's better to take the immunity deal and get out

"Petraeus Sending a Marine Sniper Team to Haiti for One Reason: Eliminate Political Opposition. Kissingers Red Teams -- Onsite OHS"

Hashim Thaci -- President of Kosovo during Hillary's time; Yugoslavia broke up, they partitioned Serbia

"Carla Del Ponte -- UN Special Prosecutor Kosovo, Rwanda, Croatia, Albania"

When Kosovo came back in power and they got the NATO bombing campaign back in, they were into a huge amount of Serbian prisoner organ harvesting. There were terrible things on both sides, according to George. All I'm saying is DynCorp is creating these situations, then they move in and encourage these police officers and ex military guys and convince them to child traffick, and that is the story of Kosovo in the film, "The Whistleblower"

In every one of these stories there are heroes and one is Carla Del Ponte, she was the prosecutor for these crimes in Kosovo

"Madame Prosecutor" -- Confrontations with Humanity's Worst Criminals and the Culture of Impunity -- Carla Del Ponte

Hillary's own people are admitting to knowing about the organ harvesting, [[but we know the relationship of CGI to DynCorp]]

When Hillary was shadow-secretary of state, Hillary had a "love affair" with Thaci {{not a real affair}}

Del Ponte is also the one when the Turks try to say Assad used Sarin, she said, no sorry the signatures go back to Gaddafi.

If you look at ISIS, they have a history of killing all the men, taking the organs, raping the women and little girls, selling off the women and little girls. All these muslim brotherhood organizations cause all these things to happen, [[but they fit the MO of DynCorp]]

You can see Dr. Braverman with Hillary and with David Petraeus. It's the anti-aging thing.

George is divided about prosecution versus immunity. If you give them immunity it would at the least stop this. The most important thing is to stop the suffering. Justice comes second

Kind of like the KKK night raiders, terrorizing people and so forth, you end up with a rule by Tyranny rather than Democracy.

If you have thechutzpah to do a 50 agent attack on a person who is supposed to be doing oversight, what's that mean for an average Joe

or Joshua like me? What would they be willing to do? I know already, it's rhetorical question.

[\[Day 96 pt1 / Published on Jan 27, 2017\]](#)

Where does this thinking come from? I think of it as coming from Victorian England: how she looked at the people of India Doug Coe. The go between of politicians and covert enforcers. A team for getting rid of political enemies. His group is a system that ensures that the elected politicians become members of 'the court' (there's the king and there's the court).

Doug Coe convinces leaders that "they are the chosen ones" -- my group are like the spy agency that Queen Elizabeth had, absolute loyalty.

Then there's the CIA level Dyncorp. They think of themselves as the Knights or Pirates. Not as high as the king but the next level {{Gentry class}}

It's the kings' property, that's the Pug Winokur (prison/police) level thinking

This ideology is being propagated out more and more -- it's class warfare

It's the Elizabethan thinking--the Catholics on one side, the Protestants on the other; you have to have a way to drain the enemy, so that's done through Asset forfeiture.

Kagame Redux -- Doug Coe is the go between with Kagame and the Senators. He's a kind of broker for the Senate Arms Committee or the Senate Armed Services Committee

Right now you slow-kill the 'town squires' (ex:Gary Webb) who are saying that the King is doing bad things; but as the Constitutional protections are erased, you just fast-kill them with Kissinger's Red Teams

They cut off the head of the least marketable kid to scare the other kids in the group

It could be that they are bombing the old locations because they are trying to destroy the records: they don't want the face of this child like this, that could be matched up with a kid with the Sheik in Qatar or UAE or AUE

Again, if you are in an email where you accepted a human heart ahead of the line, and you negotiate a price, and there's a quid pro quo for negotiating a price, that's a felony!

Haiti was the right choice to focus in on.]

In going through DynCorp's spending, the biggest ones are Booz-Allen-Hamilton and Carlyle

A lot of the spending is not just mass surveillance but harassing people with disruption campaigns
George talks about a sect of Mormons, a mormon mafia that think it's ok to harass / terrorize people
George talks about a sesna from Colombia to Haiti that crashes with 4 tons of drugs
Moise targets the enemies of the people we want to install in the country
The cycle goes targetting the person, kidnapping the father, extortion on the father, kill the father, the mother is separated from the child and the child is trafficked
Haiti is not only a transoceanic shipping point for south america but for africa and europe as well
The cruise ships will be coming to the port, "parents" will me making trades of kids, port canavaral in Florida

They are going to USAID as many businesses as they can in Caracol--that's going to be the collapsing chairs--the inventory will be sold to retail like Target. The women will be forced into prostitution and microsharking; which will ultimately lead to organ harvesting.
I have identified people in the State Department that have been involved with USAID that have been involved in Niger, Nigeria, S. Korea; as I mentioned before, these minerals are going to be smelted in S. Korea

The idea behind PPP like United States going to a private international corporation like DynCorp you get all the expertise of the private sector with economies of the public sector so you're not recreating the wheel. In fact DynCorp does the opposite: They run all research and development through the government and then they get the rights and get all the profit. They do this for warfare, for IT, for policing, for vaccine and virus development, and for any and all forms of organ harvesting. The sex trafficking is just to get control and corrupt the police forces so that you can use them to corrupt other police forces.

[\[Day 100 part 1 / 31-01-2017\]](#) -- "The DynCorp Harvest"

Changing the name of the series to "The DynCorp Harvest".

This series started out investigating Hillary Clinton and the Clinton Foundation and how that led to Dyncorp.

Dyncorp is not only doing police contracts and contracts for maintaining aircraft but it's turned into something much different
I showed yesterday how the Bush administration leads to Dyncorp and how the Trump administration leads to Dyncorp

It started out looking at the use of [Dyncorps'] contracts regarding vaccines, they have a 500M virus and vaccine development program.
But then it turned out there are all these countries where Dyncorp was training police officers to attack and gang rape girls and boys
The last part of this investigation involved organ harvesting. We thought it was just Stingers and Sarin gas. As we get deeper into this, it gets more macabre.

I didn't mean to say Paul Farmer was harvesting organs from people. It's that Farmer is simply 'making use' of dead people in disaster and conflict areas: he's not the one making decisions on who would be dying. ("these are the enemies and prisoners" justification / revenge motive)

Compartmentalization recap

Farmer is going to relate directly to the Cleveland clinic and the [Cleveland Clinic] doctors that were vacationing in Iran that were Detained by Trump's new policy in NY.

CC is probably one of the top transplant clinics in the world; George puts up prices of the organs-- 262k for a kidney, lungs 200k, etc; bone marrow is most valuable at 23k per gram--I used many sources for these prices, even if they are off by 50k it's close enough

He puts up an Operation cartoon man infographic of harvestable organs entitled, "What is your body worth?"...They don't see people as people but as a bottom line for harvestables.

Hillary donation/revenge motive justification/pay-for-play. This [speaks to] Hillary's [/US intelligence's] need for so much health information--to find out everything about a person so they know how much people are ["organworth"] -- this 'monomaniacal quest for health information' The Paul Farmer relationship to Hillary goes back 25 yrs, back to sending rice to Haiti in 1982

The Top Economic Advisor for Trump is Steve Feinberg, the owner of Dyncorp through Service Capital

Cleveland Clinic has a south Florida location, about an hour from Trump, and next month they are going to their celebration at Mar-a-lago club [in Palm Beach, near Jupiter and Trump Golf Club also.] Trump, Bush and Hillary are all intertwined.

Hotel Rwanda film was billboarded (putting a good face on) Kagame There are reports in 50 countries that bodies have been found with their hearts removed, and everywhere Paul Farmer goes, there seems to be dealmaking in organ market; Paul Farmer is very closely connected to John Podesta; and Podesta has vulgar art projects where people eat the heart out of a human shaped cake in public rituals; Nemcova toasting the leader of Haiti runs an ngo org called 'happy hearts', which George thinks is "comfort furniture for the mind"...the name 'happy hearts' is a occult wink and double entendre...the 'heart is in a happy place now' being taken from a prisoner or enemy "Heart Recipient" PAM podesta email Pam Fleischaker--which means 'flesh taker', "rape pillage and plunder" is the motto of Fleishaker corporation

Revenge Motive / Gary Webb, Michael Rupert recap

4 gangs and lots of deaths but no bodies. LA could be an area of organ harvesting in addition to Chicago--"I know Chicago is"

Religious groups feel righteous about harassing people

If 100,000 organs annually are being produced and only 5-8000 donors, I don't get it.

WillowCrisp-Winokur recap,

A third-party, non-governmental organization is doing sex-sting operations with no oversight from law enforcement {{THIS SHOULD ALARM YOU}}

"JTTF is DYNCORP"

"I believe the money to run operation underground railroad is coming from BoozAllenHamilton (futher:BAH) passed through DHS with a DHS block grant of some type." {{This is worded strangely. For clarity, I think he's saying DHS is paying BAH to (pay another contractor or subcontractors?) run op underground railroad}}

US Naval Hospital Ship "Comfort" that goes to Haiti every year--"Operation Continuing Promise" -- they come on shore, make mobile tents, and they bring people out for operations.

I believe they are doing [epidemiological] followup on viruses they are spreading, because DynCorp has contracts for spraying for anti-
<<uhhhh>> "DRUG" eradication, only it never eradicates any "DRUGS", only people get sick [instead]. There's lawsuits all over Latin America for this. They call it the long term followup, longitudinal studies. DynCorp has contracts for developing biological weapons as well as the vaccines ((ie: George is speaking in code here. Viruses. Viruses are the 'DRUGS' that are developed and the 'drugs' they are purport to eliminate--just like the actual 'drug war' -- they bring in the drugs they are trying to eliminate).

{{Well done BTW, George. you've successfully detoured pathogens with drugs. This is how you flip-the-scrip, folks, take good notes}}

USAID was formed in North Haiti as "a [visiting] doctor's paradise". You have two cruiselines, hospitals, brothel, airport, prison [and then luxury hotels just across the way in Dominican Republic]

MacDonald body bag drugs in cadavers recap

"Limonade, which I think is a code word for using a black heart in a white body"

Any where you see Bill Swing, he is the guy who 'tests vectors'. They take a biological weapon, insert it into a population, and then they move the infected population and see how the biological agent [viruses] spreads out. And this produces bodybags. He killed 6M people in the Congo.

Here's Fred Eshelman, PPD, a good friend of George Bush with vaccines, 17-18 vaccine studies going on right now in Haiti.

This is kind of like a slaughterhouse, farming children through young adulthood to harvest. Follow the Dyncorp bodybags. They are now tracking [their assets] with the [free, microsharking] cellphones

I mentioned that Rwanda was the base for the CIA (you did?, when?) a small country where you can watch operations in all directions. That same thing for the Middle East is going to be this King Abdullah in Jordan. We've shown where Sarin was staged here. There's going to

be a transplant center in Catsock? {{wut}} These transplants are the growth industry in Saudi.

I ask the question, how do you get 800 homicides in Chicago [per year] {{800/day due to traffic accidents}}, when in LA it's a bigger city but it's 1/4 of that.

Sanctuary Cities might also be Harvest Cities. The profit motive is just too great. It's almost half a million dollars a body.

Whenever you see this profit motive, you'll see Onsite OHS, which Dyncorp owns. Team Rubicon protects these medical teams.

Monica Petersen microsharking debt slavery to sell a kidney--I can prove it. Just publish the 650k emails, even just the metadata. Let me search for Limonade

"I know CNN wants you to think about other things"

We started with Clinton Foundation and we ended up with Dr. Paul Farmer

We started looking at who he is teaching and what is coming out it.

It's a transplant specialty is what is taught

The Transplant doctors are going back and forth between the Cleveland Clinic and war-torn areas

The question I posed is: Are they doing this within the US? Is the CIA/Dyncorp doing this to their political opponents?

Trump hosts their annual convention in Florida for the last seven years. So is HE a customer? I dunno!

Film, 21 Grams, same 2 actors Sean Penn and Naomi Watts as in other Lionsgate film, Fair Game, about a drug dealer who sells Sean Penn a heart.

It's kind of a 'hidden in plain sight' with the Clintons and Dyncorp. Maybe Bush did it too.

It seems to be Hillary's touch to add the film about it, just to show that, "nobody's ever going to figure it out"

Dr. Eric Braverman organ salespitch redux, long relationship with Petraeus and Clinton

George discusses the shift of clientele from soldiers to the senescence market of the aging elite

Fergie was in on a charity called the Path with Braverman

You have a bank of hearts in one country but you only have an hour or so to get it to the US, so you need to create more "targets" in the US

If you want to challenge the facts on this I have [evidence for] Bosnia, Kosovo, Afganistan

JTTF in US: CIA has inserted itself into FBI via brownstown ops by planting a revenge motive to do something illegal and terrible like gangraping Jessa Dillow-Crisp.

[Christopher Reeve] -- lets say he did a protest movie about war, and the pentagon didn't like it. They could shoot your horse with a pellet gun as you're going over a jump--to give you a warning. I don't think they thought it would turn out the way it did. If you keep on speaking out against war, all of a sudden your wife [Dana Reeve] does young. I don't think she had "old heart"

James Elephantitis -- has a pig farm. Which I thought was interesting for one of the most powerful men in washington. {{"le chomp" restaurant leftovers disposal pig farm}}

Doug Coe: It's all intimidation along the way.

O.U.R. Operation uUnderground Railroad. Using the revenge motive to get christian groups to attack guys like us.

OUR, everyone is saying it's a sham charity, a front organization for navy seal team that has no rules...to operate with impunity around the world. No oversight, no paperwork, no followup.

Caracol park, I said this industrial park was going to get like a 1000 businesses, and they were all going to get loans from the World Bank and then they were going to fold over time after all the money was loaned out. This is like the Arkansas Development Fund I think this is done through the export/import bank run through the World Bank that has Congress oversight. EXIM Bank. They collapsed it last year in 2015. They collapsed 10 yr insured loans, which Congress co-signed...Congress had to pay that out. I think that's where Hillary got the extra 5B dollars.

George shows a spending ledger of USAID assistance money. He points to Petits Freres et Soeurs, and says this was for moving kids around. They all had different illnesses. That's because--he believes--dyncorp was spraying the area with different things.

Cellphones help you track migration versus vectors and who died; micro versus macro longitudinal studies

Hospital ship comfort goes ashore in tents to do statistical studies and then do followup operations and biopsies on the ship.

You create traffic back and forth from shore to ship and then move in the bodies at night into the ship to do the organ extractions

People in the health field are going to start remembering interactions with the CIA and these details, now that the 'working theory' is out there.

If I'm CIA and I want to do a study, I put it through Dyncorp or through a foundation

CGI [Clinton Global Initiative] hasn't gone anywhere, they say it's shut down. It's going to be funded by Rockefeller on the other coast through the Google Foundation

Bill Swing is Mr. Virus and Fred Eshelman is Mr. Vaccine. And there's the body bags. I believe they are going to Atlanta to the CDC.

All these US foreign service officers, they're all from Johns Hopkins. Is it like Cleveland Clinic...a big organ transplant center? Yes it is! For overseas people? Yes it is. Who else graduated from there? Andrew Young. Where else was he the mayor of? Atlanta: The Center for Disease Control. I just connect the dots I'm not making any accusations.

I remember Wayne Williams [Atlanta Murders of 1979-81][111] and these 33 kids dying [23 actually, according to wikipedia], and this guy had this Dr. Spock grip. He didn't kill the kids initially, he just seemed to incapacitate them.

[\[Day 101 part 1\]](#)

CIA is like the fourth branch of government.

If the 3 branches are kids playing in the sandbox, CIA is kind like inviting Harambe [gorilla] into the sandbox. You hope it will be nice but you start seeing Harambe dragging kids in circles. You wonder if it's safe

That's where we are at with Dyncorp in the United States. It's been that way since 9/11. But it's getting worse and I'll show that.

There is nothing to say they can't do the same things they did the Libya, Syria topples in any country around the world {{ including the US }}

In order to combat this clandestine period since 1974 is an open operation, an open media research investigation.

I take in news stories, connect things and summarize it.

George calls himself a glorified stenographer in an open media investigation. {{ Nope, that's me. You're the Captain of video, steering this thing }}

Pfullendorf Germany "Vile Revelations of 'Sadistic Naked Sex Rituals' at Elite German Military Base" -- in a bigger picture view, it's part of a larger brownstone operation in the organ harvest chain -- compartmentalize and then compromise

Team Rubicon recap

Dana Braverman: It's almost like they took NY Jewish kids to Israel, retrained them and named the 'bravermans'

Update to Cleveland Clinic. The gal who got sent home to Saudi is going to sue. They are trying to make a big deal of this extreme vetting thing. It's actually a cover. The Cleveland Clinic has been hammered a couple of times. They are called an 'organ-friendly hospital'. I think I've figured out the link here:

Paul Farmer is teaching in Rwanda, in Haiti and these genocide countries. He's teaching these interns--the same ones being turned away up here--to do organ extractions, and now then they are coming back to the US to do organ transplants. You need semi-skilled people doing extractions, and then they go to Cleveland clinic to learn under an expert to do the transplants. When you look at the money [behind organ / blood harvesting] it's just too [compelling of a profit motive drive] to ignore

Cord blood can be substituted for bone marrow, used to treat leukemia, and it's a lot easier to match -- university of denver and UCD medical is going to be a big cord blood bank.

Secret film by Project Veritas and Planned Parenthood and the cord blood. Nucatola -- Senior Diretor of Clinical Services, aborted fetus heart harvesting/transplants

Emergent Biosciences Zsolt playing both sides viruses + vaccines
Hospital ship in Honduras right now called the Spearhead; I'm convinced it's a teaching hospital for doing transplants

There are 9 more ships being commissioned. They are trying to speed up the ships / get faster ships to transport organs quicker.

Drug money is being laundered through Lionsgate films to create films of every operation they do {{"confessing"}} -- you find this in high tech also

There's also a film called The Island about CIA agents impregnating women so they'll have organs as they get older

Dr. Braverman's patient list is going to be the buyers. Sold by Podesta, by Paul Farmer, by office art, and by ritualistic practice with cake; Fleischaker email is the evidence and testimonial of an elite organ market.

New citation about a Turkish doctor that has done 23,000 kidney transplants in Bosnia, Kosovo and now doing transplants in Aleppo. Glen Beck travels to Haiti with Operation Underground Railroad--his role is to add legitimacy

Tim Ballard, ex-DHS Ceo -- Operation Underground Railroad
Public-Private-Partnership? No it's vigilante kidnap and extorting unit created for asset seizure; it's the farthest extention of a public-private-partnership you can get. In fact, there's no public piece to this. They do stings with DHS. They are extorting money.

Kids are being used, being kidnapped, and at least being bloodfarmed for cryogenics and for cord blood.

And their wives don't even know it, that's the sad part: they are all ex-special forces--guys trained to go in and kill everybody.

University of Denver will be a big transplanation center and blood banks

North of Boulder near RMNP, you're going to have your big underground complex. With their current disposition matrix, they are deciding who is going to get to go into the tunnel into the complex if

nuclear war happens. Just like Kissinger's paper at Harvard. And the movie "Dr Strangelove"

With Palantir I can follow all my assets with the cellphones

Dick Gregory (activist) agrees with George about Wayne Williams

Atlanta killings theory mentioned previously

The only way the open operations have a chance about the covert operations is by putting out the 650k emails, at least the metadata.

The public has no chance, there's no other way. People say, "oh Pompeo is coming in". No Intelligence directorate which intercepts everything going to the director and redirects it. So that's not a solution. The only solution is sunshine.

The difference between Vietnam's Phoenix operation and this operation is organ harvesting

Petraeus added more use of gassing and psychological operations -- turning villages against each other. "gang-countergang" {{Jesuit trick}}

Bone marrow cells can stay alive 17 days after death, so that kind of negates all the other stuff [given the price per gram], don't know if that many people have leukemia

Trying to find if Dan Braverman from Team Rubicon is related to Dr. Eric Braverman. It could just be Mossad, kids go back [Israel] and come back as a "braverman"

George wonders if Fleishaker's PAM email list is a "social justice" list, like oh we got a new heart for this person and it came from this bad guy over here; and [for example] Peter Kadzik made it happen through the DOJ through a domestic harassment campaign [targetted individuals of government gangstalking] DHS has this terrorist watchlist that--like the Phoenix program--targetted [baddies] originally terrorists but then ultimately ends up targetting completely innocent people [political adversaries doing nothing more than exercising constitutionally-guaranteed right to free speech, expression and collaboration]

Prayer breakfast tomorrow

I saw a guy named Doug Valentine who wrote a thick book about the Phoenix program, and he talked about the white helmets being a fake organization

What he said about the Phoenix program was interesting--south Vietnam had 44 provinces and they put a terror-torture center in each province. Then in the districts (counties) they put a JTTF type officer

in each district. Exactly like our fusion centers. One in each state and then expand out to each police force you put a JTTF officer.

Exactly what I was saying: 10,000 dollars and you take over a whole country [by taking over the police force]

Regarding Glenn Beck. I didn't mean to say all Mormons were behind all this. There's a group of Mormons called FLBS that believe in the bigamy, and they also believe in these tunnels because the feds were always after them. What I'm saying is that the CIA, when they go to a group like this--they are anthropologists almost--they look and see to the habits and patterns that they will respond positively to, and they [steer the cults using their own culture--"it's your culture"--alephantis]

CIA is going to have a hand in every type of religion and cult and steer it

Vietnamese were afraid they wouldn't go to heaven if their liver was eaten, so [the CIA] would cut out the liver and make sure villagers see it.

The same reason Israelis have women soldiers, because Muslims believe they won't go to heaven if they are killed by a woman.

News update: going to meet with an Oliver Stone person to make this into a motion picture

Jorge Puello from Haiti is trying to contact George

When the CIA/Dyncorp were created they had a kind of GOD complex [Guns/Gold Oil/Opium/Orgies/Organs Drugs]

Dyncorp is the cutting up of the kill and using all the parts

Wild Bill Donovan was the cowboy that gave that spirit to these 'happy crew of pirates'

As you get closer to the reality, you see that it's ugly. It gets into infecting populations with viruses and selling the vaccines, sex and drug trafficking ends up with a lot of ruined lives and prostitution killing themselves with drug overdoses "that's just not a fun thing" {Lol}

The profits are so big with organ biz that you end up throwing in guys-like-me in with the bad guys; we may as well throw in a few journalists in too. They stand between us and overthrowing the country. So we got to get rid of them. That's a very orwellian view of the world; but that's why Dyncorp was created.

George describes the slippery slope of using JTTF fixers to go after political enemies turning into going after business enemies
CIA and State Dept are kind of the same thing; it's just the State Dept is the political side of the Dept of Defense {{versus the Pentagon which is the military side of DoD}}

Is Monica Petersen alive and part of the witness protection? I don't think so. Too many upset family and friends

"Political Military Officers Set Up Underground Railroads" -- text
A lot of these kids are survivors of wars [wards of the cia] and become foreign officers, groomed, and selected by the Madam Allbrights of the world. They are selected and groomed. George mentions they could have been sired by the people in the CIA, again for potential organ harvesting; [and that would explain why Obama is related to George Bush and Dick Cheney within an otherwise statistically unlikely number of generations]

"The CIA does not care about the people of Haiti" They want to control 3 things: the military, the checkbook/budget and the President
"I want to create a political bond with the elite in a country. In order to keep a country you need the leaders and you need the elite--you don't need to worry about the people. The elite need health services, so they are going to want to buy organs--hearts. You are going in there [with the military] and farm it that way. The reason why this hospital ship is going all around to these 11 different places isn't to provide healthcare to the poor: it's to provide healthcare to the elite."
CNN will have a cover story--always--about some poor person getting it so that the impression is given in your mind, but the healthcare is for the elites.

All of this activity is for elites to have eternal life

Knights of Malta. When Clinton Foundation shut down the CGI, which is really going to be reformed by Rockefeller and Google foundation, I proposed the question: did they go to Malta?

Malta can issue diplomatic passports so you can bypass the security lines. Here are all the countries they have diplomatic relationships with. And Canada is one

If you are jewish you know this. The maltese falcon is a bird you could put in the window of an art shop, hospital or church and that person would accept MONEY to get out of Germany into Jewish-friendly countries. It's to let everyone know you can get letters of transit if you could pay that extortion money to escape.

Reason I mention it is the Knights of the Grand Master of Malta resigned today. The Pope is saying he's going to take control of the Order of Knights of Malta. It's not actually part of the Catholic Church, but it's always been the military wing of the Catholic Church. These guys were assassins. They called them knights of Justice; popes were killing each other and so forth. It's been a spy ring for a long time {{Jesuits}} and in recent times, since war of 1812 it's been a way to spirit away rich people who are in trouble with the law. It's been a ratline for trafficking for a long time. SO when the CIA goes to find a network, the CIA doesn't go to the Church to pray--they go because they want letters of introduction, letters of transit

FBI dominates in the US, so CIA inserts itself into Canada. All the MKULTRA experiments are done in Quebec. And CSIS [Canadian Secret Intelligence Service] is a very strong partner of the CIA[[]] Email releases and George found **3 missing 302s" Jack Lew. He went through 178 pages

They use the kids for sex stings and then have revenge groups to 'harvest them'. But there aren't enough sicko/pedos that they have to go after innocent people, by gaslighting the revenge groups into having a revenge motive for harvesting innocent people {{maybe those people are then outed as murderers for other revenge gangs, continuing the cycle?}}

The Army Intelligence is the precursor to OSS which is the precursor to the CIA. It's basically Wall St. versus the FBI. FBI has always had this anti-communist [drive]. CIA has always been Wall St's pet.

Africa is going to be the source for the ME for organs. Kosovo for Europe and NATO. Haiti is going to be a human experimentation place for vaccines and virus testing. Bodybags going both ways. Both a source of organs and a source of research.

Cathy O'Brian is a CIA whistleblower who has admitted the drug running and virus testing in Haiti as historical precedent

George is following USAID spending, tied to Alephantis via Sislby Homan Square, Chicago 'secret blackops prison', where they are doing torture and finding out whole families to put on a target list, just like they did Vietnam, then they are doing organ harvesting.

Doug Valentine, "The Phoenix Program"

Nelson Brickham "Yale Anthropologist" Author of the CIA Phoenix Program in Vietnam

The phoenix program was a civilian psychological harassment program of political adversaries that ruined people's lives and

inhibited people from getting government assistance until they were homeless and died.

FBI's latest document disclosure contains evidence of misuse of classified documents by putting them on an email system: a Jan 26, 2016 "Walk-in Clinton Documents" -- a "long-time government employee" of the State Dept brought a thumbdrive to FBI with classified documents and offered to be interviewed in a SCIF (Secure communications information facility) to reveal contents of classified documents (on drive)

The first person George thought of was Patrick Kennedy, because he was being pressured to reclassify all these emails.

Also in the document: Julian Assange was receiving information in an encrypted manner which is against his rules for staying at the Ecuadorian embassy in London. So the first action of the new Ecuadorian president is to be to terminate his asylum, so Assange may have been getting 650k emails...?

General Grange--the same general that worked with Clinton's private army the Muslim Brotherhood, which toppled Libya and Syria--was in Vietnam 50 years ago, but instead of Muslim brotherhood, it was then the Hmong: the poppy growers in Laos. That whole area was involved in a secret war, defending their poppy fields during the whole

Vietnam war, sending their heroin back to the US and abroad, getting as many GI's hooked on heroin by rotating them out every year. [and smuggling the drugs into the US by putting them inside the body cavities of dead soldiers in body bags]

The Hmong are still being used today by Dyncorp trained forces as sheriffs who received green beret type police/Dyn security training at places such as Fort Bragg and Fort Benning. They are the militarized police. This is the infiltration of the police depts by Dyncorp. They may start as police, get training and then be sent overseas to RatDyn UN Peacekeeper countries.

This is done through a county, away from the cities, so they never see it. The "Hill people" can be in the remote corners of the county, where you can bring in the Hmong or growers from Mexico.

Gen Grange's son is in charge of the plan to put down any rebellion or occupation of public buildings in the US [antiterrorism tf]

[The Ratlines are] all managed by PROMIS and PALANTIR -- Robert Maxwell superspy of Israel selling this software to governments around the world in order to basically spy / manage them.

The CIA, instead of arresting all the bad guys, it was co-opting the bad guys to run these ratlines--to show the CIA where to go to get the manpower. To set up the French Connection and similar sex/drug/arms trafficking lines and networks.

The FBI walk-in document has been sat-on for a year

Julian Assange has until the Feb 19th before he's booted from the Ecuadorian Embassy. He's going to be arrested [by] Sweden first. He won't be extradited to US initially.

Today Judicial Watch is in court asking "who are these 19 people?"

George thinks the comfort ships are being taken to Jacksonville, Fla and then taken alive to Chicago to be harvested. Possibly not Americans but those involved in Human Trafficking.

George talks about vectoring, bring immunated population into another to cause the people there to die; so they can build hotels along the coastline

George speculates that Balfour Declaration was a Hegelian ploy to depopulate the area that would be created as Israel, by sending British Jews there as a Spanish Flu infection vector population to the middle east; Israeli folklore -- no proof {{Geesis}}

Step one is to get the migration data to map with google map pins using an add-on software (sheets to maps?)

As soon as we see the 19 accounts (or figure it out via metadata 'hints' that fall out of JW's activities), then they have to release the 650k emails.

Vault 7 could be the gold for oil, drug money laundered thru lionsgate films and the that Gaddafi's gold is arabian oil; not quite figured that piece out yet

No one at the press conference today asked about Steve Feinberg Feinber is the Chairman of Cerberus Capital Management--cerebus is the 3 headed dog that guards the gates of hades [Haiti], that's exactly the role that CFR plays: they look at all the blackops and decide which ones to do, when, why; coordinated through the PROMIS software, and Palantir is the improvement on that. It's going to keep track of my cattle better.

Every time they do one of these operations (op underground railroad), they screw it up. If you're going to do it at a hotel, don't re-use the hotel for sting operations, otherwise you're connecting the dots for me Tim Ballard is going to be teaching the police forces how to do the sex stings

D'Estree is going to be doing torture classes, here he is at the Boston Bombing--he's going to be teaching how to make pot bombs

Dyncorp bad activities are franchised out like McDonalds, where sex stings are not unlike mcrib training

The blew up a police car in Sweden today--that's a 'keep your mouth shut'. They use explosions to threaten and extort police if they start to talk. They are doing electronic surveillance on all this so they know if people are talking.

Just follow the ratlines I'm going to be on Jeff Rense {{conspiracy talk show host}} tonight {{Rense is formerly of same broadcasting network as Alex Jones}} Bill Weld stole the PROMIS software from the inventors of the software and found out all the bad guys in intelligence systems all over the world and then hired them to run ratlines for organs [and all other criminal gangsterism], then they hired the police to put down the bad guys to get more hearts {{they play both cops and robbers; people are collateral damage and have to pay for the cleanup}} It's an assembly line first invented in Chicago

McCormick was army intelligence and had a lot of hospitals as well going through the Hall house

Whenever you put the business of war in the hands of wall street, you're going to end up with long wars; and the policing actions that follow you're going to end up with long policing. Just like how the bouncer at a bar is going to have an incentive to have a fight.

There is indeed a program called "Chicago Helps Haiti"

The fly-by-night jets will only carry 20 at a time, and Homen Square in Chicago will be where they hold prisoners for organs, until hot-swap time.

There's going to be a similar place for Johns Hopkins in DC. I don't think the basement of Comet pizza [Alephantis' 2+ other locations] is going to be where they do the organ pulls. It's going to be some place along the tunnel that is a medical center.]

George speculates on Alephantis' places being used to training UAE medical students or griding bones and such, then smearing blood on the walls as a cover; grinding the meat; make pet treats out of the bones. The ultimate revenge insult to the victim / inside joke. You have a Yaley at Alephantis's place. {{I don't really follow this}}

Dyncorp does a lot of maintenance, training for flying crafts, so it's a perfect cover for flying drugs, arms, kids, organs etc.

Where Dyncorp does training is where drugs are going to be shipped into/out of.

[\[Day 108 part 3\]](#)

I believe they are training at Walter Reed at DC and I believe it's reachable by the Wisconsin tunnel not the Constitution Avenue tunnel. And comet ping pong is along this tunnel.

I don't think Comet Ping Pong is what everybody thinks it is. There's redbag waste but you're not allowed to do that in Washington. The CIA likes to do this 'wink' thing they like to do, and they bring these 'human shells' down the tunnel to comet ping pong to grind them like the mafia used to do in Green Bay. Then do a little training with med students. Then you either give full skeletons to students, "bag of bones"; don't know if they put it into the meat there, that would be pretty macabre. Number one thing is you've gotta get rid of the bodies. The press really reports that stuff, and they can't do mass graves without paperwork, it attracts a lot of attention. There's a lot that can be recovered from the body before they make the pizza.

There was an explosion at a silver springs apartment, maybe it was housing haitians or prisoners

People have asked George not to go to Haiti; but I think interviewing the teachers at Petersen's school is a next step

[\[Day 109 part 2\]](#) -- Marijuana Episode

California Siskiyou County Sheriff Lopey

What Dyncorp / Dept of Homeland Security does is create a monopoly for certain winners and losers.

Weed Country: The Chronicles -- in November, weed is going to be legal on the whole west coast.

Dyncorp has brought in the Hmong who brought in the heroin from Vietnam days and supplied heroin to the US soldiers in Vietnam for 15-16 yrs...their grandsons are now being used to grow Cannabis in northern California, they are being brought in and concentrated there and can be easily intimidated during harvest time.

Lopey has brought in raids and shot up all these guys. He's a former Dyncorp Bosnian peacekeeper. Since Clinton was in office and Hillary was a shadow sec of state he's been policing this area with a tough, crackdown militaristic approach. Since it's legal, it doesn't make sense. There doesn't need to be ar15 or m16 type raids.

Pug Winokur has been militarizing police. For California, this doesn't make sense, since they are going the other direction. This makes George think it's a money funnel.

Lopey Foundation used to train police officers.

Dyncorp has chose Siskiyou county as the "Winner", the rich people who give to Lopey are the 'winners' allowed to grow pot, he leaves them alone and cracks down on everyone else. Creating a local monopoly through the police and through Sheriff Lopey and through Dyncorp.

Equal Protection clause says that you police equally and don't play this game of selective law enforcement

Find out who your county sheriff is. Then look at the chief deputies, see what their background is. If they have a Dyncorp background, if they have a militaristic practice of policing. That's the telltale sign of takeover in the US.

Fusion Centers, directly related to Hillary Clinton.

Hillary Clintons Superpredator project. Targets her political enemies, and people giving her donations it will target their enemies.

It's going to start in 1993 with the the Branch Davidians. There were members of the group with AK47s that were a red team. There was also a ratline {{to Oklahoma city}} for heart transplants from prisoners from Arkansas State Prison system {{see Arkansas Prison Blood Scandal}}

In 1995, Hillary was the CIA's representative in the West Wing of the White House to push forward the Violent Crime Bill or the "Supepredator Crime Bill". It put in 67 different kinds of death penalties, and those were going to be supplying hearts.

General Grange, Green Beret Army intelligence officer in Vietnam, and put in Fusion centers (torture centers, info centers) in every province in Vietnam; and the same pattern is being used in the United States.

PDD-62 is the US Gladio Program, to tell CIA to work with FBI to psycho-harass and psychotorture US civilians basically.

DHS has 50 state fusion centers, 25 "regional" fusion centers (25 top cities)--this is the rollout of the JTTF

Infragard -- Guard the Infrastructure -- teaching the utility companies to surveil civilian activities and become intelligence collectors, which get funneled into the Information Fusion process

State and local gov and police are doing the threat assessment

Organization Chart of the House Democrats' Health Plan -- this info feeds in as well, feeding into your dossier.

The people controlling the Fusion process get to choose the medical winners and losers

Half of the Fortune 500 companies are donating money to the Fusion centers. A winners and loser list. This is how Hillary is using it to gain contributions. If anyone is giving you trouble, if you have employee that's trouble: we'll get them. If you have political enemies that need an organ transplant, they go to the end of the list. If they have IRS trouble we'll put them on the list.

This fusion winners/losers list has been used in Germany, in the US, and in Vietnam.

Columbia did the first pediatric heart transplant, this is getting close to home (he likely graduated from Columbia, being he was wearing the sweatshirt)

1985-6 OKC sets up the only heart transplant center that's not connected to the University Hospital. So someone can come in and start a program with no seniority or tenure to hold you back. Dr. Nazih Zuhdi an expert heart surgeon who died 2 days ago was put into that clinic.

Speculation: the little daycare center at the bottom of OKC building where 20-40 kids were at the bottom. Timothy McVeigh parked right underneath that, and I was wondering if that was the holding pen of the OKC building for those hearts. I wonder if that was the human farming ring

If you think about Allen Dulles and MKULTRA science / medical ploys with pushing Disney for pirates; this would be an extension of that {{nazi}} ideology

According to Pizzagate Researchers, Madeleine Mccann -- an English child abducted in Portugal--has a unique eye defect, Coloboma or Renal Coloboma; also Papillorenal Syndrome.. Mutation of Pax2 gene, Joest-Degen Bodies. A lot of these kids are turning up with this eye defect. The chances are 3-5 in 100,000. George believes the mutation is from a virus
Ernst Joest for whom Joes-Degen bodies are named, studied at Univeristy of Dresden, University of Leipzig; he of Malta, and the Pope and got [illegal] passports and [Nazi doctors were smuggled] all over the world to Argentina. And they set up these weird colonies where there's a lot of girls and one priest, and one priest impregnates all the girls. It's a kind of genetic experiment.
The film *The Colony is about this--about how the Nazis were trying to create a new Germany in Argentina. How could we use viruses to kill off all the population and then have this new population resistant to the virus surface, type of sick thinking.*
Yesterday when I said they Bombed Dresden and Pirna to [cover up] these weird types of experiments, and it wasn't for no reason there was a huge allied bombing.

The Nazi drug trials--they tried everything. These drug companies (IGFarben) worked directly with the Rockefeller foundation. Kaiser Wilhem institute in Berlin--which was the center for eugenic thinking--was part built by at least half by the Rockefellers and also the Rothschilds

They were infecting people with viruses to see new strains of viruses and test the vaccines. Although these drug trials were horrible, they were a for-profit motive [and a national security motive]

"Sonnestein Euthenasia Center. Pirna, Germany Set up by Karl Brandt"

NAZI POSTER: "60,000 deuthsh mark to take care of one disabled person" -- to guilt you into going along with eugenics; they say they didn't round up disabled people but....here's the poster. 70,000 people were killed in Sonnestein Euthenasia center.

I am wondering if the eye defect is a type of Nazi marker that can go on for generations. You can tell that grandchildren are yours by their defect.

Eugenics, ghoulish nightmare, dystopian vision of the world, that if they ever came out of the colonies they'd be able to identify all their children.

To add to intrigue here, supposedly at the centers, [children were] fathered by Hitler's inner circle. Kindergartens at Auchewitz, Dachau, Buchenwald and Ravensbrook, they weren't random servants they were girlfriends of Nazi high command, like Karl Brandt--Hitler's physician. This kind of colony approach to the death camps.

There are folks in the pizzagate world saying "what's this all about?" That's where the Hillary connection comes in with John Podesta. They use the Catholic Church to 'diaspora' (spread genetics far and wide) these folks around the world. So they needed a way of keeping track of them. And (I think) Podesta was one of those find-it men.

I realize this is an extreme topic. But the reason why these kids are valuable now is that their hearts and kidneys, their organs are a perfect genetic match going back to the father. This is the idea of Charles Lindberg having the 7 kids and so forth. I know it's a stretch. I know it's an outside possibility, but I wanted to give this to Pizzagate folks and have them drill down on what kind of experiments Mengele did with this virus that's called BVD Bornavirus Disease

[\[Day 112 part 2\]](#)

Quick proof of life -- Melissa Mccarthy did a funny Sean Spicer last night (SNL)

George noticed how the Dyncorp set of investments were like the old portfolio of the drug portfolio of IGFarben-Rockefeller joint venture If Wall Street put all that money into those joint ventures for a better and higher use--for petroleum basically--then why would they throw it all away at the end of the war?

Then it makes perfect sense why Operation Paperclip happened and why the CIA created DynCorp. Because bioweapons and human testing was morally reprehensible so they needed a 3rd party to do that. It's the same reason that sex trafficking and organ harvesting are run through DynCorp.

If you look at the Rockefeller banks and hospitals you have this repeating pattern, using the Pinkertons to clear the land---and once you get the land, then you do the human trafficking, the drug trafficking, now the opioids. It's a repeating pattern over and over. Then placing secret armies with weapons caches in all these different countries--the Gladio program--is this other repeating pattern. Sibel Edmonds talks about this [Gladio II].

Joseph Corbell--Madeline Albright's dad--was the Gladio guy for Czechoslovakia, posing as a priest had an arms cache in the church. Allen Dulles was using the Salvation Army as a front for the Gladio Program. Reminds me of how they compromised the Catholic priests in order to stow children at the orphanages at the Catholic Church Again I ask the question: if the CIA is really DynCorp and DynCorp is really the old Wall St.-Pinkertons-Rockefeller program, would they do 191 countries around the world and then just forget about the United States, and just say well we'll that one alone? Doesn't seem like that would be the case.

Quick recap of the toppling, ratlines, and how Palantir manages it What allowed Hillary to go around the Congress, Senate Intelligence Committees, and House Intelligence Committees was spying. Tyler Drumheller was the key person in Osprey Global along with General Grange and Sid Blumenthal that enabled that to happen.

This happened 10 days ago, but an IT spy ring of 3 muslim brothers living in the same house was busted in Congress. Marie Bartaromo with that story.

Three brothers were able to be in the House Permanent Select Committee on Intelligence, the Dept Homeland Security Committee and the House Committee on Foreign Affairs-- the three key intelligence committees in the House.

HPSCI oversees the CIA, Homeland Security, ODNI, all the Military Intelligence agencies, 22 agencies it oversees. There were about 8 congresspeople involved in these hacks

Awan brothers--all under 22 years of age, and all making 160k/yr. Jamal Awan.

Haven't heard much about this in the press, a little on Barney and on Lou Dobbs.

This is equivalent to the Rosenbergs; they put the Rosenbergs to death, so I don't know why there hasn't been any arrests been made. They were fired from their jobs but they were caught hacking into

these 8 representatives' accounts: Duckworth, Carson, Schult, Castro, Richmond, Frankel, Spier, ? (what's the eighth?). That's espionage act. That's death sentence.

Adam Schiff didn't say anything, CNN didn't say anything.

Ranking member of the Republican Congress in the House is @devinNunes. George asks people to send this video to devinNunes on Twitter.

Again, our enemies have more information than what's going on in our government than we do as citizens. This is further exemplified by the 650k emails

If you can circumvent the government with these 19 gmail accounts, then the enemies know more than the American public

We know these went to Israel Russia and China; but if the three brothers talk at all--all in the same house I assume they would, that means the intelligence is going to the Muslim Brotherhood. This is recent as in a couple of days ago.

The Muslim Brotherhood of those 32 countries now has that intelligence, so we need to know now more than ever those 650k emails. Families could be travelling, on business trips in these other countries and need to make informed decisions.

Not releasing this information is several felony violations of Federal Records Act "CTC, D&D"

According to McCabe, it's going to take the FBI 5 yrs to process the 650k emails, but it's ok to let three treasonous Muslims take all the data from the 3 top Intelligence Agencies to the Muslim Brotherhood in 32 countries

This is beyond a National Security question, this is a failure of 3 branches of government

The address is @DevinNunes, he is the chairman, ranking member of the HPSCI

@DevinNunes needs to get on CNN to counterpoint Adam Schiff

Going after Assange, I think we have to go after Awan brothers equally--this is a hanging offense: "Equal Protection Under the Law"

Trafficking networks are being exposed in a limited way, because if you don't expose in a limited way it goes all the way to the top, to Pug Winokur and that would totally stop it.

They get these guys in a room and they say, "It's going to be 30 yrs if you squawk about the trafficking ring and how many people are involved, or it's going to be a year and a half of weekend jail if you don't. And if you keep persisting then you end up being thrown off a bridge or you die in a helicopter crash." These guys play rough, it's Dyncorp for a reason.

The viruses they can always say, "well you can't really prove that", but trafficking and harvesting have very provable rings and all you need are 1-2 witnesses

For instance the coverup of the operation underground railroad that Beck took care of in Haiti. It's basically a red team from Kissinger's old red team days. Very thinly veiled with this social justice cover. It's a setup for DHS to do stings on unsuspecting guys trying to get them to go for younger and younger girls over time. It's an asset forfeiture ring.

Beck said 33 saved and 12 arrested at Kaliko beach club--he didn't mention anything about a woman being shot in the head in front of other women? Was that because the woman was shot as a message to other women not to talk about the Johns going over to Mirabalais for harvesting / processing?

Once the women get the men on film, that's all they need with the Nepalese police force at Mirabalais in order to say, "ok, you can harvest him" -- to the catfood factory he goes

Some people are saying, "Man you're accusing the Clintons of some really weird stuff!"

This is Dr. Guy Theodore, Hospital Bienfaisance (charity in French) in Pignon Haiti -- he got set up there by the Clintons. Here he is at Little Rock Air Force Base at 1983. Why do I say Clintons may be involved in organ harvesting, they were very involved in blood mining. If you know this investigative reporter Kelly Duda, he wrote a documentary called Factor 8--he's from Arkansas. This is what caused the HIV/Red Cross blood crisis of the mid-1980s, using all these patients' blood from the Arkansas prison system, HepC and HIV

When Hillary is first lady in 1998 she goes down to Haiti with George Soros after one of the storms (Haiti Bienfaisance)--she was shadow secretary of state--she also goes to various other central and South American countries on that same trip. This is a swing through of all of the franchises. The best I can compare this to is a baseball league. Epstein is going to be major leagues, the AAA clubs the AA clubs and it's going to be all these things.

Haiti Bienfaisance is an orphanage and a hospital where you're going to have a weeding system in place (filtering); you'll see this in all orphanage/hospital combos. Maybe it started out mining the bone marrow from the dead bodies, but the problem with harvesting is that [the profit motive causes] you to make earlier calls on end-of-life. I started out having angels of death showing up in your order release because it is a valuable product. People start dying around when people need transplants. It's a slippery slope. As bodies become more valuable, then this activity provides a bad incentive for health.

Dr. Robert Ashton just jumped off the George Washington Bridge. He was married to this Jennifer Ashton, the medical correspondent on ABC News. He was involved in the Bronx transplant (organ

transportation) center. The Bronx is where they are getting the hearts--he's a cardiac surgeon. If you want to target someone like this, you first break up their marriage. He goes to a conference, you send in the girl, you take the pictures, you get the pictures to the wife, she wants a divorce, now your life is ruined, and now he jumps off the GW bridge.

The other way to get rid of a doctor: get a witness against him. Take this case of the helicopter crash 5 yrs ago. This is the Mayo clinic in Jacksonville Fla. What they do is take these three guys, profusion specialist, cardiac surgeon, ex old navy seal guy and say 'there's a heart down in Gainesville. Just reading 3rd party news stories I see that this lands in the woods that the helicopter would have gone if it had gone straight, but instead it lands in the woods, way off track. When these networks come to light, these are different ways you can suppress the witness, kill the witness. {{I think George is saying that Ashton had those 3 guys killed because one was a witness with blackmail leverage against him for illegal heart dealings. Not entirely sure}}

If we are going to give access to three muslim brothers the Awan brothers in the muslim brothers, three 22 yr old living in the same house in DC, give them access to all this information AND MORE, then why wouldn't the American people have a right to that information? Release the 650,000 emails!

Proof of Life

The Awan brother I spoke about this morning -- they may have been the ones that tipped off ISIS in Yemen and that may have caused the death of the Navy Seal, so it's very good that at least we found this leak early rather than having to wait.

Keep sending @DevinNunes, the head of the house foreign intelligence committee, we really need arrests--I can't believe this wouldn't be espionage--death penalty, like the Rosenbergs got the electric chair

I wanted to talk more about what I call the "Dyncorp Sheriff" -- this new phenom from these wars in Bosnia, Kosovo, Iraq, Afg., Haiti, there are these Dyncorp sheriffs being created from these mercenaries that were overseas training these police forces, and it's taking a militaristic turn.

Kathryn Bolkovac was a police officer in Dyncorp in Kosovo ("the Whistleblower") made many accusations about the prostitution and sex trafficking by Dyncorp staff

Flint Chambers Orders 15 Yr Old Lap Dances at DynCorp -- Hillary Clinton seemed to be very interested in that particular email

Several articles have been written about Dyncorp getting in trouble around the world in this area

Article title: "Prisoner says warren county jailers raped her, nurses refused to give her epilepsy medication" -- she claims she was raped by 2 deputies at the insistence of a 3rd deputy on the floor on top of a garbage bag. Again, it would seem the deputies were forced into raping the girl.

Film: Trafficked / Lots of movies being made about this 'pattern' Bob Mosier -- Fauquier county (double-entendre of 'f*ck here', though George puts it more nicely) -- a rural county just west of DC. A lot of folks take their kids to Fauquier county to go to the roller rink or the farm day sort of thing. Lots of weird messages in far of those social media, lots of things to 'touch', boy scouts day. Check out the roller rink that's closing--those attractions tend to close when these investigations start.

I noticed on his resume that he's still working for DOD, worked for Dept of State, International Justice Mission where they save children, and then finally was a law enforcement technical advisor for DynCorp from 2001-2007, then there's an interesting insertion in this gap -- from 1996-1997 was in Bosnia -- the gap was 1997-2001 I wonder what he was doing in these 4 yrs. He was the culpepper county sheriff but lists it from 1998-2015. So was he sheriff while he was overseas, which is interesting because Culpepper county is in Virginia, not Libya; maybe it's a lend-lease program where they come and go George discusses post yugoslavian countries,

And then notes that "the Whistleblower" was about where this sheriff was stationed--George asks the question: does DynCorp Sheriff Bob Mosier know Kathryn Bolkovac? {the plot thickens}

In the news the [Oroville] dam burst yesterday in the county just south of Sheriff Lopey's Siskiyou County, so I'm sure he's helping with Oroville, which I thank him very much for. But he also did these Weed wars. He's an ex-Dyncorp employee, but he does have this habit of doing these very militaristic raids. I just wondered if Sheriff Lopey knows Bob Mosier. That's my question for the day.

To follow up on another story, Glenn Beck went down to Haiti with a 3rd party NGO called Operation Underground Railroad to investigate human trafficking--turns out it's a bunch of Navy Seals led by Tim Ballard and they had a bust where they busted people at Kaliko Beach Club.

I've been in conversation with Vince Depatie and he's got good information for my next show.

This is going to be a catchup on the virus

Timothy Alefantis has a virus/vaccine company called Vitalprobe that we'll get to

There was a drug arrest made between Colombia and Haiti so that's obviously a drug route

Big news is Joe Clancy has stepped down from the Secret Service. In previous episodes Clancy and McCabe had this agreement where the Secret Service were used in nighttime intrusion teams called "proowler teams". And now we've got 2-3 prowler teams that are talking and feeding information to Trump, the sneakernet thing with the screens and blind interviews. It will be interesting to see how Sessions deals with this.

If you're going to spy on someone like General Flynn then don't use your own resources, use the Secret Service as an espionage shield {McCabe sneakiness}, they also have extensive cyber hacking capabilities. They also have a means to inhibit tracking of secret service personnel who are moonlighting on these teams. Trump is going to clean that up I'm sure, depending on who he names as the new SS guy.

Letter that Chaffetz sent on Jan 27 to the FBI that says, "I want the 650k emails by Feb 10th" -- that has come and gone and wasn't answered. That's another thwarting of the executive there. At least they could have produced the metadata. If there is a response, it would be nice to get Chaffetz to just respond by saying "metadata"-- that could not possibly be state secrets

Trump is against the wall now. They just took out Flynn. McCabe's illegal surveillance took out Flynn, so it's now or never.

Decameron Hotels in Haiti which I said was the funnel where Hillary's putting USAID money and the money from sex, drug, trafficking ops are going into these hotels. I specifically mentioned SEMEX.

Turns out Decameron started out in Bogota as a money funnel for the drug business in Colombia through 44 hotels 12k employees.

The Decameron hotel group ceo died oddly enough during a heart transplant operation (2015)[\[1\]](#).

34 americans here and 33 girls, and the girls are brought in one at time so no one would notice. Each american paired with a girl: wouldn't a girl be uncomfortable with that--with a stranger?

12 people were arrested

The above is Vince Depatie's testimony

After the raid the other americans stayed there but left the next morning and didn't pay their bill

I think its interesting there were 20-21 other Americans involved but that weren't arrested.

Asked him for the names, said the hotel would not give them

What I'm saying about these Dyncorp Sheriffs that went to Bosnia and Kosovo where all these bad things happened. I'm saying this is being put on them by the State Dept and the CIA.

When I mentioned Bob Mosier was in Virginia a little west of DC, everything exploded on my comments

One of the bioweapons developed by Tim Alefantis of VitalProbes is Anthrax. They also have a lab and office in Florida.

George distinguishes between legit and illegit charity workers and the profit motive created by charities

When you put that profit motive underneath that work and then pair it with companies like Dyncorp that has a history of repugnant activity Clinton started a missing children charity looking over 22 to a 120 countries, but there is no transparency.

International Center for Exploited and Missing Children Established in 1998 by Hillary and Wife of Tony Blair Cheryl

If you are going to do charity, you have to have transparency. What we've shown is the exact opposite: no transparency whatsoever

Richard Branson went on a crusade to mandate that everyone be an organ donor.

I love the idea of saving lives but there has to be more transparency first, [otherwise it is abused]

Pattory Wetterling -- chairman of ICEMCE

Brownstone recap--George uses an example of a person being reported in an incident involving a child and getting labeled a sex offender. It might not be a big deal among people who understand the situation, but law enforcement and revenge groups don't see it that way. They get paid by intelligence to harass these people and do life-disruption on these people.

Pam Wetterling to reduce the list to people who have actually exploited or kidnapped children

Release those 19 gmail accounts, because there could still be people in the State Dept engaged in trafficking kids, even if they are simply working with the CIA, they need to stop it anyway and we need to expose this.

Because we will find out who these people are eventually, but it's better to confess now and expose it, then be found covering it up later; because all this time that goes on, kids were harmed and we will hold all of you accountable for having asked for this information and having been stonewalled.

The time for all true patriots to come to the aid of their country.

Mccabe should recuse himself.

If we find out there are a lot of emails confirming the bribery and trafficking, that's going to be a problem later on.

There is a TED talk on CRISPR. {{George maybe mentions this as an alternative to targetting HCM hearts}}

Devin Nunes on the news today talking about 9 hackers. It was really about 3 muslim brothers. This is a way to whitewash the 3 muslim hackers--this is a type of covering their ass. "Sharding the responsibility" -- What they should do is say look, the Rosenbergs were a Jewish couple and they put them both to death by the electric chair. The 3 muslim brothers need to be arrested and they need to answer for their crimes. EQUAL PROTECTION OF THE LAW. Hacking and leaking are 2 felonies, Espionage Act

Dyncorp is a systemic problem. They take sheriffs and teach them trafficking.

We need to be sure that returning Sheriffs don't bring this culture back with them and are not coerced into this 'habit patter' of Dyncorp in America

Not trying to single out Sheriffs, but if you run for public office, you need to disclose your past and what you're up to

There is video where a child is being beaten, and someone has compared the voice to John Podesta. I don't endorse that, and in no way do I believe that is John Podesta.

A car salesman puts a picture of his car behind his desk, likewise Podesta has pictures of weird rituals pulling hearts out of the body, but you can't exactly put up a sign 'organs R us' {{ie: he's an organ salesman}}

The CIA through programs like operation underground railroad and JTTF come down on these Sheriffs and say 'we want to run an operation in your county' and the Sheriff says, 'well that seems like entrapment' but then they say well our DHS grant you get next year may not be as big. So there is a profit incentive to run these intelligence operations through the local police

Operation Underground Railroad is just a Vigilante operation, it's not a public agency or police--he's a private vigilante group doing extortion for asset seizure. I [George] and Tim Ballard have the same rank {{ie: none, officially}}

George recaps bringing the 3 Muslims to justice

George had defended a muslim kid that was entrapped by Andrew McCabe in the Portland Christmas Tree bomber case, and he's taken a lot of crap for that in terms of life-disruption. "It's not me against Muslims, it's me against the Muslim Brotherhood."

Claude D'Estree has asked George through several intermediaries to take down the picture of him at the Boston Bombing

I never said this was Claude D'Estree. I just put the picture up here saying, "why does this picture look exactly like him at the Boston Bombing"

I know what happens a lot is they explode a bomb to cover the murders of sex sting girls {{a "Forum slide" but for traditional news-- bombs get your attention, some random girl death doesn't}}

If you have someone with political connections at the high level of Border Patrol, they can force a 'no search' and keep moving 'no searches' around so that they let contraband in.

Hopefully Erik Prince of Blackwater will get the contract {{George said in an earlier video that Blackwater is no saint but at least he's not Dyncorp--a 'much lesser' of 2 evils}}

[\[Day 116 part 2 / Published on Feb 16, 2017\]](#)

One way to track this trafficking is to access the software that is tracking the assets and financial transactions -- that's the PROMIS / Palantir software

PROMIS looked into every country's intelligence system to see who the bad guys were and instead of arresting the bad guys, or at least watching them, Sid Blumenthal hired them.

The tracking software doesn't really fight crime. Whoever is driving the software is going to determine what results you get. {{If a criminal uses it you get crimes, if a good guy uses it you fight crime. Hillary Clinton and Dyncorp in this case is a criminal (see steps 1-6)}} What Palantir adds is 'object oriented', meaning that this person in the database carries information that is updated in realtime; it's getting feeds from various data sources

Update on Eric Braverman -- Google Foundation is part of Polaris. Polaris is a group that is going into this child trafficking problem

{{yeah right}}. I think the child trafficking is really just a cover for the organ harvesting because organ harvesting is so terrible. This is basically the Clinton Foundation moving over to the west coast and changing names.

The key is not to fall for it again--the social justice cover. The enforcement is not going to come from the same group that was taking advantage of people in Libya and Syria, trafficking kids to the Saudi shieks. That's not the person you want to put in charge. {{Fox before the henhouse}}

Ashton Kutcher has been brought in to replace the ousted Peter Thiel. Kucher is a cover story--they almost can't keep a straight face when they do this social justice thing--he blew a kiss to McCain--the theatrics are a little extreme

Kucher and Moore have this foundation called Thorne: they are going to be the front for Palantir--he basically said DHS came to me because they were at the end of their rope. If you change the front sign of the business it's still the same business

Gen Flynn is the kind of guy you want running your ratlines; so he knows where the bones are buried. He knows where the US and ISIS has been tipped off on US raids so that we end up blowing up rocks instead of terrorists. When we shoot an expensive missile we want to make sure we get the Awan brothers, but if you keep tipping people off like we did in Yemen, we aren't going to be successful {{which means the US Taxpayers have to pay for more missiles}}

After these transcripts come out about Gen Flynn, let's bring him back in because he's the guy you want fighting your ratlines. Maybe he had a mission that he felt only the President should know (maybe he distrusted the VP).

Easiest way to stop the networks is to stop the money. Flynn in one week could dismantle the networks in one week.

A lot of people say he was outed because he stopped the 2 guys in the venezuelan trafficking ring.

[\[Day 116 part 3 / Published on Feb 16, 2017\]](#) -- History of 20th Century America defined by CIA+Vatican Heroin Trafficking
How did all these things get started in the first place.

In order to spy, you're always going to need an airforce, helicopters, banking, places to stay for spies--those are called Proprietaries
There are also cutouts -- in the front of Mena arkansas they were making parking meters in a 'park-o-meter' business in the front, and in the back making nosecones of planes for smuggling arms and drugs; that's why it's called a 'front', there's a semi legitimate business that is covering for the business in the back.

This all started with the CIA

Knights of Malta use Diplomatic passports as a cover to travel around
History time:

Paul Helliwell a CIA architect, the plan is : Allen Dulles wants to create a group of gladios (fighters), based on the old werewolf plan for the German intelligence. You would be a normal guy during the day, but at night you do these prowler type operations like the SS does now. Based on that old werewolf plan. The operation was called operation gladio; they were going to do 630 of these gladios 10-13 man teams in Europe to take on the Russians in Europe.

The problem is the CIA had no money, so Helliwell came up with the Helliwell plan, Operation X. You might have seen this in Godfather II "Christmas "Havanna Conference" 1946 -- Hotel National

CIA implements Helliwell Plan with Luciano/Genovese -- we'll start the heroin trade into Harlem, giving it to black musicians and asian immigrants in SF and LA who have experienced heroin before. It won't get out of control because it will stay in Harlem basically, they thought.

CIA used the Vatican bank to launder the heroin trade money to Harlem

A drug company named Scapporelli would ship these Oranges, half were real, half were wax filled with cocaine;

There was very little drug trade until this 1946 Havanna Conference They were packed in Havana as the trans-shipment point, and they were put into the the United Fruit Company containers and imported into the New Orleans, Miami, NY Ports, moved by Teamsters (mafia) all around the US. Just like they moved alcohol during prohibition Gladio funded by the Heroin trade, Knights of Malta Bag Men -- the money has to get back to the bank and the Vatican, the international transfer system at the time were the Knights of Malta

Pope Creates Catholic Action in Italy, Catholics in Action -- people who do sabotage and intelligence collection in the US

CIA establishes the "Vatican Desk" to Collect information in Eastern Europe -- money processed at Vatican Bank, Vatican Desk processed the information

Joseph Corbell, Madeline Albright's father, was that gladio guy for Czechoslovakia

William Colby, James Angleton, William Casey, John McCone--all directors of the CIA; all of these guys were Knights of Malta. At some point you had to do your time in Eastern Europe moving this money around

William F Buckley Alexander Haig, Rhinehard Gehlen -- also involved in these same activities in different war theaters.

Rhinehard Gehlen was the German Intelligence werewolf program runner for Germany--he was also a Knights of Malta

FFW to 6.5T missing in our budget and 240B missing in NATO budget--NATO is the original gladio program, Gladio B, C, D, JTTF budgets

Afghanistan theater is now called Gladio B, per Sibel Edmond's calling it that

There was a golden age of spying when we didn't rely on subterfuge, sabotage and blackmail. Where we really were able to collect intelligence that would simply inform the military. I think you get better intelligence that way also.

Why Haiti? Well because Cuba went communist

BCCI, BCCI bank is created by the Vatican bank

All the wars since WW2 have been Heroin wars

You can piece together the history very clearly just by understanding the Havana Conference of 1946

Project Medicshare was run by Donna Shalala--she has been the president there since serving under President Clinton as the Health and Human Services Secretary

Medicshare has a clinic at the University of Miami called the LAORA, the Life Alliance Organ Recovery Agency

Where this drills down is the email(s) between Cheryl Mills and Hillary talking about Medicshare quite a bit

Donna Shalala in these email threads is trying to get access to General Keen to get access to the area militarily cordoned off in Haiti after the quake {{gotta get those organs!}}

George refers back to the The Oklahoma city bombing, where there were 20-30 children at a facility there. But there are over 100

George's having leaks analogy -- it's like having a leak in the fuel line of a jet. You can't really get anywhere while you have a leak. Trump cannot get anything done so long as there are leaks undermining his communications.

Tillerson did just clean out the 7th floor gang in the State Dept that was doing all the spying for Hillary and Company. We'll have to keep on that to see how it goes.

{{BAD NEWS}} Steve Feinberg of Dyncorp will be the one to review the Intelligence Agencies from top to bottom;

Given that Dyncorp is running all the ratlines for harvesting, sex trafficking, organ harvesting as well as the virus/vaccine combinations, I can only wait to see what Feinberg comes up with. He knows what's going on because he has the PROMIS/Palantir software that runs all the ratlines.

James Alefantis' father Achilles has a familial relationship with David Petraeus, even though Petraeus is out for National Security Advisor. I think Petraeus had a relationship with the Hun School in Princeton, and there may have been a pedo ring there also--this is throwing the Pizzagate researchers a research bone.

Biological Resource Center of Chicago

The [financial motive] is just too great. Once the body is burned in cremation, there's no way to look at the DNA. The motive for organ harvesting is too great for funeral homes.

I am just laughing because we know exactly who the three muslim brothers--the Awan brothers--are, and yet we need Steve Feinberg to come in and tell us how to overhaul the entire US intelligence agency. I'm not guessing here, they are the ones that need to be arrested--we don't need Steve Feinberg to come in and slowfoot the investigation for months with no arrests.

Gladio A was secret leave behind army in europe to break up the Soviet Union
Gladio B in 1991 when Soviet Union collapsed moved towards Muslim Brotherhood using Islamic terrorists to do the disruption rather than E european Neo-Nazis

Gladio C will be these same groups being brought into the US--groups like La Raza

General Granges' son runs that program -- the Jade Helm program for initial put down occupation of public buildings

Dyncorp will be running the JTTF to take out people selectively (gangstalking thru revenge motivated groups/cults)

CIA got 600M contract with Jeff Bezos at Amazon --600M server farm-- a private cloud on Amazon for the CIA as Hillary left the White House for Hillary to store the 650k emails and black book information about her enemies list and it's a large enemies list. Bezos also owns the Washington { {com}} Post

George believes PROMIS/Palantir is certainly part of the Clinton Foundation and so that is tool being used to attack individuals, to do asset forfeiture; you can do business espionage; you can sick the IRS on people; use FDA to make sure their drug doesn't get approved and give to their friend (biz espionage); deny them insurance.

This activity all goes back to the Phoenix Program with Gen Grange and the Yale Anthropologists at the CIA

People keep sending me new developments near Caracol Haiti and I appreciate that. This is confirmation of the civilization building activity in N. Haiti; though the earthquake was on the south of Haiti. Life Alliance was what George said--there was no paperwork for a lot of organs, it was in disarray, that was the writeup

So George's working theory is getting more solid wrt the hospital ships and mass casualty session planning.

Someone mentioned to me--maybe John Ramos--that said that the pictures that I showed of the organ harvesting that were labeled for Malaysia were actually Syria. There was obviously photographic proof that those kids were harvested for their organs, but that they weren't Malaysian but Syrian. That makes my case even stronger

I've said from the very beginning that this whole organ harvesting thing started with OTPOR, when they started training albanian kosovars in kosovo to not only do the sex trafficking (taking child brides and so forth--this is the whistleblower movie) but then also do organ harvesting that's going on today.

That's when the Russian ambassador was killed. I've said OTPOR since day 40, and I've said Dyncorp is the operative piece behind this. When it was malaysia I had to look to see if Dyncorp had a contract there

But I know they have a contract in Iraq--that's the Insurgency in Syria--that just makes my case stronger

OTPOR's own PR puts them in Libya to train the Muslim Brotherhood, for the the overthrow of Libya and Syria--their own photos say this When you combine that with the 3 muslim brothers (Awan) running the [IT] for the US House intelligence interface committee groups, the Muslim brotherhood has a lock on the whole Dyncorp harvest with the Dyncorp training

{{Question for George--does this mean that you believe the Muslim brotherhood has infiltrated Dyncorp and is using their resources--or that Dyncorp is running the Muslim Brotherhood, or are they coevolving into one hot mess?}}

700 kids bodies found--Ghouta, Syria -- from the Sarin Gas attacks.

I've said from the beginning that we gave the Muslim Brotherhood Sarin gas. This is even stronger photographic evidence; I'm going to double down on everything I've said about Haiti. George vindicated by various photo evidence -- I produced this Dyncorp video 60 days ago -- Dyncorp is doing a lot of damage on this slideshow--they are deleting all the Dyncorp related imagery on George's slide. It just points to the fact that we are getting closer and closer to the truth. My case is tighter than ever

Kosovo Popovic and OTPUR is the 'bad seed' that keeps being planted all over the world.

If you allow the Muslim Brotherhood--say the 3 Awam brothers--to have access to the Palantir software, you're not going to be able to stop la raza with stinger missiles around our major cities, you're not going to be able to go after muslim brotherhood in 32 countries, they're always going to know where you are before you get there; and you're not going to be able to pull up these ratlines because they're always going to be able to move them

In 1993 we started doing organ harvesting and it really got out of control in 1999 in Kosovo; I'll show how that moved over to Iraq And how the CIA fixtures--spies within our own State Dept are still in effect and are still working from the days in Iraq

Awam Brothers are more hezbollah, shia oriented; there are likely sunni-oriented spy factions in cia still also

We have a chance now to get 30 of the emails between Hillary and Petraeus regarding Benghazi and the District judge said no there wasn't anything nefarious in those emails--but it wasn't his place to judge--these are OUR records because of the Federal Records act. If someone subverts this FRA, they need to be published immediately. Take this to SCOTUS, that will start the pulling of the thread, then we'll get the 1000 emails from Petraeus and we'll see there were programs and we'll pull the string some more to get the 650k emails.

Several people say Trump is having a meeting over sex trafficking today

Looks like Laura Silsby sitting next to him, which is disconcerting

IF he wants to get a head start on stopping sex trafficking around the world, the easiest thing to do is to seize the servers for Dyncorp, PALANTIR that will have all the information you need.

George: NE corner of Iraq, Al-Attar set up 11 different health centers for organ harvesting and trafficking network in Mosul; and transplants were done by Iraqi doctors in Mosul by ISIS-- They are shutting down now, so that when Trump gets there they won't be able to see the "shelled" bodies [bodies with organs removed]

This is an end of the 2003-current when Al-Attar came--a sunshine patriot, he would come into Iraq, rubber stamp all the contracts, and return to the US and do his practice in the US. I have enough information to know he set up soccer leagues in NE Iraq to provide pediatric hearts, kidneys and livers for Iranian doctors doing transplants for UAE, Qatar, Bahrain, Saudi.

This is an extension of what OTPUR was doing in Kosovo, and what Dyncorp was doing in India and Pakistan--it's a pattern that keeps repeating over and over.

The key to stopping it is release of 650k emails--we'll know RIGHT AWAY if I'm RIGHT OR NOT

McCabe hasn't recused himself or done anything but obstruct justice and slowfoot these various non-investigations.

{{THANKS GEORGE FOR DOING MCCABE'S JOB, BETTER THAN HIM AND FOR FREE}}

Andrew McCabe's interactions with Reince Preibus -- PALANTIR will mark the footprints of activities.

Fakenews is going to come to light for the american people

One key part is the FBI and it's pursuit of the truth and being honest with the American people

It just came out that Reince Preibus had said to McCabe hey you need to blow the top on this fake Russian news thing--that there's no contact between Trump and Russia; and in fact we have all this evidence of connections with HRCRatline.

For some reason we are talking about Russia, and not talking about HRCRatline activities

Preibus is saying 'publish the news about this fake hack'

This doesn't cure itself. If you keep planting a bad seed you'll get a wicked harvest

I love Andrew McCabe, I think he's a wonderful person: he's created entrapment schemes wherever he's gone in the last 25 yrs, and the entrapment schemes somehow benefitted Hillary in terms of extortion, and these have led to a lot of campaign contributions; but other than that I love Andrew McCabe; and I think it's the time for Andrew McCabe to come clean and say, "I've run an extortion racket

for Hillary Clinton. It's been 23 yrs now and a lot longer than my resume says. And I'm guilty of that. BUT I'm willing to come clean now and admit that I've ran this extortion racket for Hillary Clinton"

[\[Day 124 part 1\]](#)

Trump just spoke at CPAC and tweeted "find the leakers within the FBI itself. Classified information is being given to media that could have devastating effect on U.S. FIND NOW"

This is the tweet we've all been waiting for. Puts the focus on who in the FBI is the mole. Who leaked the Australia, China, Mexico conversations.

GOD commodities -- gold oil drugs -- in the Bush admin. How the CIA used to be. They used to have a 'fine hand' -- 'honor among thieves', they didn't want the heroin going near schools.

But the next gen, the W Bush, Hillary, you have the virus testing, bioweapons, sex trafficking, organ harvesting.

It's the same thing as slow-footing the Hillary Investigation

Comey with this same group of criminals, Comey at least would come out and have that Hamlet act, wrench his hands, and punish her a little bit--at least a slap on the wrist---he's done that 7 different times. But Comey has managed to mete out small punishments and slow foot the Marc Rich thing for 30 yrs

McCabe has the scott-free approach: they all get to walk with no punishment at all. I think Scott free comes from King James' court that would let scottsmen walk. {{Scottish Rite of Freemasonry}}

George now believes Trump knows its McCabe, and wants people within the FBI to turn him in.

What's really going to be bad about this is it's going to remove that coercive force at the top is removed--then the whole network falls apart and has to reform.

McCabe is the lynchpin which I've said from the very beginning McCabe would be smart today if he released 650k emails to regain credibility, otherwise all the extortions he's done, the entrapments he's done over years; will come down on him hard the longer he goes with this scott-free strategy

George: Christmas tree bomber is how I got involved with McCabe and why he's come after me

Sending 200 officers from Miami office to Haiti to investigate Monica Petersen's case is another thing he can to do rebuild credibility.

[\[Day 124 part 2\]](#)

Hillary has [coordinated] with Soros and moveon.org and put out pamphlets on how to protest and attack your local Republican senator or congressman; and one of the things they yell is "investigate Trump".

Trump tweeted this morning saying, "we need to identify the FBI leak", now there's 40 million subscribers all trying to speculate on who the FBI leak is

Here is where Trump can say "absolutely investigate me because the guy who initiated the conversation with Trump's people (Reince Priebus) is Andrew McCabe". McCabe is the guy who said the whole CNN-Russia hoax thing is a hoax. The reporting was that Trump people were in "constant contact" with the Russian spies, throughout the whole campaign

McCabe saying it's a hoax enabled Priebus to go on the show to say, ~"I have it from the highest level sources Andrew McCabe that the Russia story is a hoax"~

Why McCabe would not want to make that conversation public is because he is in Hillary's camp.

All the momentum that Hillary has launched now with Moveon.org, is momentum to publish the transcripts of this conversation.

Not only is the Russian hoax thing going to blow up, but it's also going to blow up that McCabe (Again) covered up the truth. Another obstruction of justice

If they don't publish the transcript, it's going to be destruction of evidence again

My career advice to McCabe would be to cut ties to Hillary, return the 675k, and publish the transcript. Get away from Hillary. This is destroying your career. You're going to go down the tubes with her. Titanic analogy. It's just physics that you'll sink to the bottom of the ocean in time. {{There is no forward escape for you McCabe}}

The story is bending toward the truth. You can see it happening with CNN. There is no way out of this now. All the Republican senators have to do is say 'absolutely, we're going to investigate Trump we're going to go right to the heart of this Russian hoax thing'. It's the classic sending in the army and then bombing them on the beaches before they get to the target.

[\[Day 124 part 3\]](#)

It's worse than I thought: Andrew McCabe didn't just call Priebus, he actually went to the White House physically. From the reports Priebus said--the NYT article that reported Russian intelligence services--McCabe reported that this was BS.

You can't go and shop a piece of intelligence and say 'what's this worth to you?' You have to make public if the intelligence services through ODNI impugned the reputation of POTUS and said there is some Russia connection with Trump and the NYT then reported it (and all the other 'real'news) then you've impugned POTUS and the US

The onus is upon the FBI as our protective force to say that intelligence is false. You don't go over to the White House and say "what's this worth to you?"

George: "As people know, I had a run-in with McCabe 7 yrs ago when he was entrapping a Muslim kid-- I'm Jewish, but I had to stick up for him because [McCabe] used 3 different informants that lived with him, illegal wiretapping, entrapment, entrapment, entrapment. They end up building the bomb for the kid. The kid didn't know how to hold a soldering iron, and that kid got 30 yrs here in Portland. SO what I'm saying is that if you keep allowing law enforcement by entrapment, law enforcement by extortion--extorting for Hillary's campaign contributions--you're gonna get more of it. It's not going to solve itself. McCabe needs to come out with the 650k emails. He needs to publish the transcript of the phone call that he had with Reince Priebus. He needs to testify what exactly happened when he went over to the White House. That's it for right now."

[\[Day 124 part 4\]](#)

Going to change the name the series to "Hillary's Henchmen" Because I think this is a better description. She's not just using Dyncorp, Osprey Global to do invasions, not just using OTPOR and other George Soros orgs to do disruptions and so forth, but she's also been using the FBI for a long time, ever since the impeachment. At first it was to destroy political opponents but it's expanded out to journalists and so forth. And now it's expanded to the terrorism watchlist, a blacklist in the millions that Hillary has, she's doing all these purchases of information from amazon and so forth to create all these blacklists.

She uses PALANTIR to manage all the people that are targetted. And I took out Viruses and Vaccines. I know she works with the Drug companies the most, and I'm still going to follow the trafficking. I'm not going to emphasize the USAID as much though. Since she made the announcement that she's going to lead the resist and persist campaign so she's letting everybody know in the democratic party she's not going anywhere--she's going to run in 2020.

I want to make more of a US focus now--using police depts, the JTTF program, to basically work on targets in the US.

I'll still cover Haiti a little bit, but I'm going to move off the coverage of the organ harvesting. I can only pile the evidence so high that you hit the ceiling and you gotta get a new room.

[\[Day 124 part 5\]](#)

I just saw Joaquin Castro [D] on CNN, and he talked about how there needs to be a 9/11 like investigation of Trump's connections to Russia, even after Andrew McCabe who is a Hillary plant in the FBI said that NYT and CNN articles were total BS.

But anyway, after knowing that he called for the investigation of Trump and Trump's impeachment.

He's also on the House Foreign Affairs Committee and House Permanent Select Committee on Intelligence, and he directly employed: THE AWAN BROTHERS, and the two Aman sisters, the two wives

So, Castro does not appear to be too disturbed that the 3 muslim bros and 2 muslim sisters has access to two of the most key piece of intelligence as far as foreign policy, overseas ops, economic intel--he thinks that even though Andrew McCabe says that Russia's ties with Trump are total BS, he still wants a [Trump] investigation.

{{George says specifically '911' investigation but that's confusing to people not knowing the context that the Dems are conflating Trumps Russia thing with 9/11 which is well beyond infuriating to anyone who knows what's actually going on, for last 15-20 yrs}}

[\[Day 125 part 1\]](#) -- This is a catch-up show

Andrew McCabe started the Rumor about Trump having ties to Russia; and he's also the one who debunked it.

He's been working for Hillary for a long time. He's taken bribes and he's walled off Haiti with the Miami office.

He's obstructed justice for investigating #HRCRatLine

He took quid pro quo for more agents overseas

He is the Trump leaker, Trump knows he's the leaker

[\[Day 125 part 2\]](#)

There's a lot of talk on the web about Brian Podesta how he has a top secret clearance and why would he have that if he's working for the National Center for Missing and Exploited Children?

If you have the ability from a satellite to manage your assets, whatever those assets may be; for instance they might be missing and exploited children; if you have a law enforcement strategy about reducing child exploitation you would want to go in and bust up that ring and bust up that home that was using that child as a sex slave. {{ How such as system SHOULD be used }}

But if you have more of a Wall Street / Dyncorp perspective, you would want to let that situation play itself out, you would want to monitor it from a satellite situation, put a cellphone dirtbox next to the home to see all the cellphones going in and out so you can tag your enemies; remember, the more targets you have, the more asset seizure you have, as well as organ harvesting with revenge groups {{ There's a profit motive to put more people on the enemies list, kill them, take their stuff, harvest their organs }}

It's all about everlasting life, it's about toasting each other, it's the Oscars, it's all self-congratulatory social justice; and we're going to live forever because we're such great people--that's the underlying Ethos behind all this

All this will come out in the 650k emails. You're going to find a life insurance folder on Anthony Weiner's Laptop is not going to be about Huma trying to protect her life, it's going to be about her extending people's lives, people who wanted to get organ replacements.

[\[Day 126 part 1\]](#)

I said yesterday that you shouldn't use law enforcement as a way of extorting political contributions to the Clintons

Using Ratlines to finance political objectives--it gets worse and worse, it metastasizes, doesn't heal itself { { it's cancer } }

If you have Palantir or PROMIS software, you can see--as Andrew McCabe can--all the ratlines, and all the people being targetted. So you can pick and choose when to do a prosecution and so forth.

George is no fan of Andrew McCabe, given that McCabe did Life Disruption on him.

JTTF is the underworld of policing--it's never reported on in any way shape or form to police chiefs or mayors--it's what happens after dark John McCain Foundation -- Ashton Kucher is part of it. Kucher is crusading against child trafficking.

Hillary and McCain got together when Senator Clinton joined the Senate Arms Foreign Relations Committee -- the idea was to lock all arms buys for the US, and try to guide foreign policy into all these topples. They did Operation Timber Sycamore (the overthrow of Syria), they did Operation Zero Footprint (Libya topple), several others Sudan, Honduras, etc.

McCain is involved in the asset forfeiture to a lesser degree

George recaps the event at Kaliko beach as follows: You have a party of 33 people, drunk, sidling up to the Kaliko Beach Club in a catamaran, with a bunch of girls, many over 18, 2 are 16 and one is 13. You target 8 of the adults as 'marks' out of the 33, the rest have a great time. The next day you publish a pedo bust, and Glenn Beck says mission accomplished, we saved 33 girls from sex trafficking.

{ { '33' x '33' -- 33 is an occult/spy number that means 'this is a fake operation' } }

This is not a real bust, it was a sham to give lip service to burgeoning concerns over human trafficking in Haiti.

"I'm only reporting the facts here"

McCabe is a man of contradictions

[\[Day 126 part 2\]](#)

I did not mean to say that the only program Hillary was using is these entrapment schemes run by McCabe. It's actually one of many programs to target your political enemies.

Pug Winokur has the contract for managing the data of 30 different federal agencies; bureau of prisons is just one of them. By releasing people out of the bureau of prisons and making them informants, let's say for another agency that he manages, DEA for example, I can have DEA agents sell your kids opioids. And if they end up OD'ing that's a beautiful 20-yr-old heart. I published from zero hedge recently showing how the upswing in opioid deaths has now surpassed gunshot deaths. That's gunshot deaths including suicides.

That's DEA's Stu Rothenberg, very good friend of Comey and McCabe runs that show

George recaps the way that the agencies can harass people.

[\[Day 126 part 3 -- Morell Murders Another Journal\]](#)

In the last episode I talked about McCain; how Sen Hillary got together with him and Gen Petraus.

They boxed the Senate Arms Services Committee to make sure the agenda of the DOD went through

DOD's agenda is to topple governments, get the resources, then create police actions, police farming operations through DynCorp, which is all your sex trafficking, organ harvesting, etc

So when I say "deep state", I'm not saying it's Democrats for Hillary and Republicans for McCain. I'm saying it's DoD plants versus people who are more democracy-oriented

There has been at least a 20 yr program that began with Bill Clinton but when on through the Bush W administration and went out through 30 different agencies to ferret out the people who are democracy oriented and put in people that are DoD plants. That is called the Presidential Decision Directive 62, PDD-62, signed in May 22, [1998]

{{George says, inexplicably, 1997 though text is 1998 and he's pointing to it}}, The "US Gladio Program -- D&D"

Basically it called for Disruption. A disruption campaign is called an insurgency campaign> It called for CIA to bring their dirty tricks and combine them with the FBI. There were several FBI whistleblowers that the FBI was being used to surveil political opponents. How Hillary was using this program to go against Bill's impeachment [proponents]

Here is a 1974 article by Seymour ["Psy"] Hersh, George's guiding light in journalism. About the CHAOS program against civilians that are anti-war protestors.

This is the whole idea of DOD versus Democracy

PDD-62 is a rebirth of CHAOS program, only nastier

Tonight you're going to hear about White Helmets, it's probably going to win the academy award {{Oscars, George}} for documentaries.

{{Netflix' White Helmets, did in fact win the Oscars, repugnant though it is, to those who are following this series}}, {{Also, George must be tired on this video, he's goofing up details}}

Canadian Reporter Eva Bartlett "white helmets are a total fraud" -- SOHR -- Oilgarch Rahman and Asfan Petrofac CEO White Helmets funder Recap

George was the one who pointed out the fact that Rahman's father was one of the founding members of the CFR and did all the construction projects all over the world. RT broke the story that he was doing all the oil seminars, but for some reason could not tie his father to the CFR ("for some reason")

Yesterday I also mentioned that the white helmets were not only NOT helping like they were supposed to (Eva Bartlett reportage), but they were using the civilian population of Aleppo as human shields, and once people were killed, they were selling the war orphans to Arab Sheiks.

I said the same thing was happening in Mosul; and that this Iranian doctor was shelling out bodies (harvesting organs);

This reporter, Shifa Gardi, another Journalist, was murdered yesterday. She is the reporter who reported on that group of bodies--that mass grave outside of Mosul. I don't know why these women are the best at being able to see through these slimeballs. But she was murdered for that exact reason.

I'm going to say to Mike Morell: you cannot kill everyone--the truth is going to come out. It's just so much easier to tell the truth. You'll get your agenda. Just say we want to go in and take the oil. Trump will push with Tillerson. You don't have to murder everyone who comes out and tells the Truth.

Dr. Al-Attar and the Paul Wolfowitz connection -- the contract rubber stamper for contracts favorable to George Bush

This same doctor Dr. Al-Attar is still bankrolling these 3 Awan brothers and 2 Awan sisters to infiltrate our 3 most sensitive house intelligence committees.

[\[Day 127 part 1\]](#)

Between McCain, Hillary and Petraeus, they create a kind of cabal that control the Senate Arms Committee since 2001

They use the Palantir software to control sex trafficking ratlines, especially overseas, S. America and so forth

Any time a Senator like John McCain is taking money from Saudi Arabia ("MCCAIN-LINKED Nonprofit Received \$1 Million from Saudi Arabia" [\[1\]\[1\]\[1\]\[1\]\[1\]](#)()), it doesn't have a moral high-ground, Saudi Arabia did 157 beheadings last year, they are very involved (David Petraeus and so forth) in providing very young child brides to almost all the kings sons

Then to try to make a foundation that would have you believe that Ashton Kucher developed Palantir software is a stretch (Peter Thiel did), but then to be lectured that Palantir is going to be managing this to the welfare and benefit of all these women

When you look at Novo Foundation, it's a Buffet foundation, it's an oil deal.

I'm sure 97% of the women go to a great home, but I'm sure this marriage here will be listed as a 'save' where a poor girl being abused was put into a wealthy loving home

When you have this kind of moral compass, then everything you do rings false.

I'd rather have a General that comes out and says, this is a regime that beheads people and takes child brides, but that's actually child rape. I'd rather have a General that comes out and is truthful than creating these foundations that are artifices to keep you away from the truth

Palantir is great software when it's used for the right purposes, but when it's used to traffick girls, that are then ferried out to these oil shieks, it loses it's moral gravity.

[\[Day 127 part 2\]](#)

I feel bad for Bill Owens he's the father of the Navy Seal that was just recently killed in Yemen.

I know everyone in the House is asking for an investigation, but I'm going to go ahead and tell you the killers right now.

I'm not saying the Awan brothers pulled the trigger, but they were the fundamental actors, the leakers whose leaked intelligence to Yemen caused the death of the Navy Seal.

There has been no house oversight committee to talk about [Al-Attar + Awan Brothers; Rep Joaquin Castro's disinformationalizing], none of

the representatives who have had their accounts hacked by Awans have come forward, no one is helping Trump, the only thing they've done now is go to the father of the Seal to tell him they want an investigation.

If they really wanted an investigation why wouldn't the FBI have 200 agents going through every email now.

Until those 650k emails are released, you can go ahead and catch Al-Attar and catch the Awan brothers, but you'll never know the true source of the leaks.

[\[Day 127 part 3\]](#)

The wiretapping that came up today in the house permanent select committee on intelligence is the wiretapping of Gen. Flynn

They say it was an incidental wiretap, that's how they got around not having to file a FISA court warrant, but even if that IS true, in order for Flynn's name to be unmasked, it would have to be either approved by Andrew McCabe or James Comey; and they are going to find out-- and it IS going to be Andrew McCabe. {{I do not in any way understand this}}

Devin Nunes runs the House Permanent Select Committee on Intelligence -- I can't count how many times he's said there's no connection between Trump officials and Russian officials. But he DID say major crimes have been committed. This is supporting what I said this morning. IT's going to be the Awan brothers. This is violation of the Espionage act, punishable by DEATH

[\[Day 127 part 4\]](#)

Just wanted to say something about Gen Grange and Phoenix program -- the idea is not only to have a weaponized attack against your enemies and targets and such.

But in the case of political enemies--Hillary's deplorables--you want to make sure--in for example Obamacare--all your targets pay premium increases; and that you put all your people on special programs like Narcotics anonymous or social security disability, and that way you can control them with drugs if they'll do things for you with drugs, and you can cut them off if they don't do what you want them to do. That's how you have a motivated set of operatives.

I'm not talking about a casual conversation with a Russian ambassador

Make those transcripts available for Mike Flynn because he had illegal surveillance ordered on him that wasn't approved by a FISA court by Andrew McCabe which is a felony; and was also unmasked which was a decision made by either James Comey or Andrew McCabe.

On top of that what were these 3 muslim brothers doing at this high level with the most sensitive information in the house's three most select committees?

Please send the tweet to @mflynnjr and ask him to have him and his dad retweet these videos from today

[\[Day 127 part 6 -- Adam Schiff Reopens Hillary Investigation - Summary\]](#)

Two things that Adam Schiff and Hillary are pushing are trying to knock Trump down are going to end up backfiring again on her. She's going after Michael Flynn; it's going to expose these Awan brothers, when you are making that much money you have to have a job code, personnel record, a supervisor's performance evaluation that justifies that kind of access, top secret security clearance, all sorts of log files on the servers they had access to. Somebody has to justify them having root-level access on the intelligence committees. Attacking Michael Flynn is the ultimate tar-baby attack. You're going to end up getting stuck in that terrible quagmire of answering for the Awans.

Mr Schiff, do you know Jamal Awan? Were you aware that they had access to all of your email? Were you aware that the whole committees were compromised by 2 other Awan brothers. Are you aware of their connections to intelligence sources that connect them to both Muslim Brotherhood and sources that connect them to Hezbollah? These are questions that are NOT going to go away. Plus we can ask those same questions of all those representatives that had them on their house IT staff. All these people are going to be subpoenaed in any investigation that involved Michael Flynn. These Awan individual are going to be prima facie evidence in these investigations.

Compare my reporting to the NYT reporting: NYT is saying "unnamed sources". I'm naming the exact sources of the leaks. I'm naming their connection to a known CIA operative Al-Attar. I'm naming his history of crime and fake billing. I'm citing sources where he has been connected to Hezbollah. I'm citing sources where he's been connected all the way back to the 2003 fast-stamping of projects, where he was brought in as an exile by the Bush administration. I'm citing sources, facts, known criminals, known CIA fixtures. Compare that to the NYT reporting and no offense to Mark Mazetti but I'm just trying to say Adam Schiff you're leading Hillary and your party down the tubes.

All Mike Flynn has to do in defense of his illegal wiretap that Andrew McCabe ordered is to say "I need to see the 650k emails to prove that these 3 Muslim brotherhood operatives were working against the legitimate purposes of the United States...I need to get that information", and he's going to be able to do that.

The same thing that they're doing with asking for an investigation about the death of the Navy Seal Bill Owens' son. That's going to also lead back to the 650k emails. And will also lead back to the Awan brothers, because it's the Awan brothers had the access to the house permanent select committee on intelligence's plans and that's where the leak was that caused the death of his son.

The reason you're hearing an excited level in my voice is because I can't believe this level of strategic mistake by Adam Schiff and Hillary--to where the investigation was slowing and stalling, they are pouring gasoline on the fire and bringing the investigation back to the 650k emails.

[\[Day 128 part 1\]](#)

Just when you think an investigation is slowing down Hillary delivers She has Adam Schiff trying to expose this Awan brothers thing {{by misdirection}}

All these investigations that are phoney end up blowing back on Hillary

Jamal Imram and Abid -- 3 Awan bros

Adam Schiff we just don't know yet about the investigation with Russia--now he's expanded Russian agents to anyone who ever lived in Russia

This is just going to attract attention to this Awan brothers

Adam Schiff is going to try to shift this [phoney Russian investigation] over to the Senate to get away from the Awan brothers

Article came out in American Spectator: "Did Democrats Aid and Abet Terrorists Seeking American Secrets?", Scott McKay[\[1\]](#)

Rep Jackie Speier (D-CA), she is one of 20 representatives that the 3 Awan brothers had access to. A Gang of 8 makes the recommendations; Speier is writing a year ago March 22, 2016 to get them top secret clearance, she's asking for background info because Top Secret clearance costs 30k

The 3 Awan brothers were later fired for illegally being in those files of the 3 intelligence committees

Feb 2, 2017 there were five house staffers caught stealing equipment from 20 different house representatives' offices. These are hard drives and computers. This is the Heatherly Caygle, "House Staffers under Criminal Investigation for Alleged Equipment Theft" article in Politico[\[1\]](#)

I'm wondering if we have a Watergate here?

Rep Jackie Speier her district is close to a part of SF where Kate Steinle was murdered[[]]. That was the guy who had 7 convictions and had been deported from US 5 times. And the city of SF refused to help deport him the 6th time, and if they would have helped, she'd be alive today.

Monica Welosovich [State Dept Employee MONIKA WESOLOWSKI], ever since she put up a picture of Donald Trump in her cube, she's gotten all kind of harassment. People cutting her brake lines. If you don't openly and overtly support Hillary Clinton, you are targetted. I remember reporting on the unions in Cleveland in the 60s and 70s, saw people getting thrown off buildings and so forth. This sounds like the teamsters in Lake Erie on 1966. It just seems like there is this callous disregard for American Citizens with these government employees and these hiring practices. You take 3 brothers from Pakistan with top secret clearance, they end up cleaning out these government hard drives, working with Hezbollah selling US secrets. Yet the women who are long-time American employees get their brake lines cut. This needs attention. I'll keep following this story.

2.4x-3.1 median compensation for same gov job

If Schiff keeps trying to pull in Trump with this Russia thing, it's going to drag this whole Awan thing down

We are going to find who the 20 Congressional Staffers are

There was also an external server--this is the Hillary Server thing all over again--only this is the Awan's server. There were thumbdrives and hard drives stolen in this House hardware theft.

Schiff continuing this Russian investigation is going to drag down at least 8 House staffers to be called and subpoenaed.

[\[Day 128 part 3\]](#)

One of the issues with the Muslim Brotherhood in the US and overseas is that the funding is coming from Sunni nations of UAE Qatar, Saudi, Bahrain, very wealthy

They can pay to have insurgency groups in 39 different countries, like the recent one in Yemen, Europe, Charlie Hebdo

There is also the danger of having the Muslim brotherhood on the Intelligence Committees in the US Government, there is a real danger that they may be providing leaks to these folks to avoid drone strikes or the recent Navy Seal that was killed. If they know we were coming, and everyone's got a gun and all the terrorists dress like women and children it makes it harder to attack and obviously Bill Owens son obviously was murdered because of leaks from this group

There is so much money coming into the system that its difficult for politicians that are being supported by Muslim Brotherhood to turn down this money. And it's easier for politicians that want to single people out that are deplorables, it's harder to turn them down.

Andre Carson muslim in house, in house permanent select committee on intelligence. He accepts quite a bit of money from the muslim brotherhood. This is an umbrella organization. It's a uniting of 28 different muslim orgs in the US

The tendency is to provide jobs for people like Awan who potentially have their loyalties lying with Pakistan or shia or sunni.

Andre Carson actually came from a Fusion Center

You also have a situation where you have all the instances of 'radical islamic terrorism' expunged from the language of manuals at HOMeland Security {{Eyewashing}}

This type of outside influence where people are foreign nationals working for foreign governments, that's where I'm blowing the whistle Andre Carson is sitting on two of the most sensitive committees in the United States

Here is where the Muslim Brotherhood could start saying guys like George, guys like me--who point things out like this--ought to be on the homeland security target list, the watchlist instead of people like the Awan brothers.

[\[Day 129 part 1 / 01-03-2017\]](#)

Since McCabe is not going to investigate the 20 house staffers that have stolen laptops and thumbdrives doesn't seem to be something that the counterterrorism division of the FBI would investigate--the muslim brothers from Pakistan, breaking into 20 different staffer's offices--that's actually being investigated by the Capitol Police

The communications director for @capitolpolice Eva Malecki communications Director, what I would encourage everyone to do today is to tweet, "hows the Awan brother investigation going?" "How many different house reps were hit?" "what kind of stuff was stolen?" "Any arrests yet?" "Do we know if there was classified information stolen on the thumb/hard drives?"

This massive titanic leak makes watergate look like a bathtub compared to the Ocean

As long as we're not busy with FBI over here, can we stop the FBI doing wiretaps on war heros like Gen. Flynn?

Andrew McCabe said himself that Flynn's conversation with the Russian ambassador came up at random--ok but there's a law that put in by the Church Committee so that the Executive branch and the FBI couldn't just wiretap anyone they wanted to it's called the FISA court; you have to get a FISA warrant to get a surveillance on a US citizen.

To my knowledge I haven't seen that FISA Warrant yet.

You also need another court order or high level person such as a deputy or director of the FBI to unmask the identity of an American that has been under surveillance and wiretap.

So I would like to see--and I asked Andrew McCabe several times this morning if we could see that court order, and Gen Flynn that court order.

If it's just random, can you explain how that happened? Were you just going through 330M different people's phone calls and it just spontaneously printed out Michael Flynn's conversation with the Ambassador?

To this day we still don't have the transcript to that. SO I think if you are going to accuse someone and ruin someone's career, you should produce the transcript and the FISA audit trail / warrant.

That was a judicial check on the executive and it appears that that process did not happen, which is a Felony.

[\[Day 129 part 2 / 01-03-2017\]](#)

Until we find out what hard drives were stolen, until McCabe sends 200 FBI agents to investigate the 5 Awan family, Citizen investigators will keep going

The good part is whether or not McCabe wants to wiretap war heroes or not go after people who are subverting our government and tampering with the top secrets of our country, citizens will go on anyway

Just in the last half hour it's proven the incredible power of citizens @RepAndreCarson, @DevinNunes -- ask him 'was your office burglarized?', 'have you engaged the FBI, Homeland Security to find the hard drives that were stolen?'

George speculates on Awan bros with several questions he's asked before.

GregoryMeeks A prosecutor in NY, I wonder if he has contacted the FBI, does he know the extent of the damage to what was taken?

The five Awans had an external server, so it's fair to ask was the external server shepherding emails and putting them over on Huma's 650k email trove

I think I can show there's a direct connection between Debbie Wasserman-Shultz hiring all these people; they are representing Sunni and Shia intelligence interests specifically Paki ISI, and these emails going over to Huma Abedin who has known connections through her parents to the Muslim Brotherhood.

I'm wondering if McCabe has walled that off
Unbelievably McCabe is still in charge of the CF investigation, the
Hillary emails and Abedin emails

[\[Day 129 part 3 / 01-03-2017\]](#)

Did the Awan Brothers' leaks kill Chief Owens?

Trump speech was very heartfelt

I feel sympathy for her but I want to find out if Awans were directly
involved in his killing by forewarning people in Yemen

Anyone on the House PSCOI briefing in Jan; I believe the raid was the
26th. If the burglary of the offices occurred before the raid, it would
have behooved any representative whose offices were burglarized to
sell the Sec of Defence that the raid mission was compromised

My working theory was that the burglary was after that mission, on
Feb 1st; but if we have any inkling that the Awans were feeding
information to the Muslim Brotherhood, then those Awans were
abedded in the murder of Chief Owens

[\[Day 129 part 4 / 01-03-2017\]](#)

Talking about the Awans giving info to the Muslim Brotherhood and
the ratlines, reminded me of another ratline from decades ago: When
Hillary was running the Mena Airport Operation--drugs going south
and drugs coming back in from the Medellin cartel into Arkansas and
that person, another Pakistani Amjad Awan with Marc Rich's BCCCI
BCCCI bought--with Saudi/UAE backing--this bank called First
American Bankshares (DC) and through that bank they loaned a lot of
money to DC politicians to establish the Heroin Ratline. There was an
existing heroin ratline but it really got spun-up through the
Mujahadeen with Zbigniew Bryzinski. That's what created BCCCI, the
heroin trade.

Here are the 4 bankers that started BCCCI (George points)

"Amjad Awan - Laundered Mena Airport Cash, Iran Contra Proceeds;
Worked with Bert Lance, Marc Rich to Launder Medellin Cartel
Money to Pablo Escobar Laundered by Noriega through Mossak
Fonceca (Lawfirm in Panama); Sentenced to 12 Yrs for Drug
Laundering"

Is there any connection between Amjad Awan and our [5 Awan]
friends here with root-level access to all our house intelligence?

[\[Day 129 part 5 / 01-03-2017\]](#)

Finally, Imran Awan was released from his job in the US House, but I
believe he is still working for Debbie Wasserman Schultz

His wife was also fired today.

Of course they are going to backdate it and say, 'oh it had nothing to
do with this series'.

My intention is not to get them fired, my intention is save lives of Navy Seals and so forth that are doing missions against the Muslim Brotherhood. I don't care if they are making 2.5x the median of what others in Congress are making. I'm trying to save US Soldiers I don't know if you saw Caygle's update from Politico[]
Some good things happened today in a sense that a leak that could kill Navy Seals has been plugged, but the fact is: no FBI involvement, and the Capitol Police are still stonewalling in terms of arrests. And everyone admits that 20 different house of reps offices were burglarized for hard drives and thumbdrives
This case isn't going to go away

[\[Day 130 part 1 / 02-03-2017\]](#)

This is not about anti-Muslim. Even though I'm Jewish I stood up for a Muslim Somali kid.

Mr Carson is in a difficult situation because he's taking money from an umbrella organization and it's hard to deny free money

He's also on the emerging threats subcommittee, and this is why it's so important that the 4 democrats on this committee are questioned to find out what days those burglaries were committed and what days those briefings were given.

George is asking random people on the street if they have heard about the Awan brothers, the breakins, and the lack of arrests and punishments or any information about this.

If you work on Capitol hill ask around, thousands of people work there We can work around the Capitol Police, you can't hide 20 break ins and 20 server thefts / hard drive thefts

These five Awans had to get their Visas from somewhere. A Pakistan Visa Attorney. Also their top secret clearances. There has to be a background investigation on all of those. We need to get that documentation.

Again, this is Schiff bringing this down by talking about Russians; he's only bringing attention to the HPSCOI

Remember, the 5 Awans had an external server, just like Huma, Just like Hillary. We need to find that server. It's going to be a treasure trove for the house intelligence committees and HS, and FA.

2 Awan bros go back to 2004 with AL ATTAR; he was involved with intelligence sales to both Shia and Sunni; and he has a checkerboard past as a doctor of internal organs

Rep Speier is also on the emerging threats committee, along with Chicago Ron Quigly, and CA Swallwell?

All these people are being hired and funnelled in by Debbie Wasserman Shultz

It's important that we get the dates of the crimes--all the breakins--and also the dates of the key meetings of the emerging threats committee, especially the date the Yemen Raid was discussed.

Thanks to those who came up with connection to Amjad Awan and BCCI

[\[Day 130 part 2 / 02-03-2017\]](#)

The five Awans that are working in the most sensitive areas of intelligence---they are wanted in connection with stealing of break-ins of 20 different congressional offices.

DarrellIssa in California calling for a special investigator because perhaps there was a courtesy call between Mike Flynn which was an illegal wiretap by Andrew McCabe, where he said we'll we're probably not going to expel any diplomats so if that deserves a special prosecutor Mr. Isa, then do you think we need a special prosecutor for the 5 AWAN brothers who broke into the security networks of the most sensitive house intelligence panels

Also Chuck Schumer just called for the resignation of Jeff Sessions and they asked the @JusticeOIG to immediately research this. Maybe we should send this to the office of the Inspector General the 5 Awan brothers

This server contained information, perhaps we could do a drilldown on the background of the Awan bros

Awan bros were at the same car dealership with AL-ATTAR

Let's send this off to @DarrellIssa, and

Let's also make Chuck Schumer aware of the AWAN brothers and their theft and burglary and their external server

[\[Day 130 part 3 / 02-03-2017\]](#)

@jasoninthehouse just said Jeff Sessions should recuse himself

I want to point out My case versus the CNN's case. They have not named sources, but I've identified 5 Awans.

5 Awans, being paid 2.5 - 3x median in the House, so that should be a RED FLAG for Jason Chaffetz's oversight committee

There was also a break-in where AWANS were barred from access to the House Network--this is Jason Chaffetz' Network

There was also a break-in on 20 offices where equipment was stolen CNN has no idea who these Russian intermediaries are supposed to be

We KNOW that the Awans had an external server. We know there were 5 paki nationals that were involved in bankruptcy, drunk driving, international car sales ring that was bilking people out of money for international wire transfers

We don't have ANY of the type of PROOF for the RUSSIAN situation I am naming names of real records of real court cases...congressional documents

[\[Day 130 part 4 / 02-03-2017\]](#)

I think it's important to get information to @jim_jordan and @RepScottPerry these two are aware of the Awan bros activity in the House; they were quoted in Daily { {inaudible}} on the 15th
I don't know how updated they are on this story, so update them.
31 house representatives have funnelled a total of 4M dollars, over 5M as of 2013 to the Awan family, where the Awans were making 2.5-3x the median government compensation for House staff
According to George, that is a Cut-out (intelligence agent); back and forth to Pakistan all the time; the fake car transactions
FBI just announced a scheme like that in the DC area, but it's a similar type of scheme that's been used by many different drug fronts to get people money for international travel
We need to look at Awan's visas, travel back and forth to Pakistan. We need all the dates and timestamps for their trips.
I think we should have a special prosecutor for people that we know were involved in the breaches, who were involved with a known criminal Al-Attar, and that they had top secret access to classified info; and we know that despite tehir clearance they had been involved in many questionable activity such as DUIS and unstable income / large debts.
I say the same thing about having special investigators on the Clinton server, Huma-Weiner laptop and now Awan server

[\[Day 130 part 5 / 02-03-2017\]](#)

@amandacarpenter -- Jake Tapper's show on CNN -- she's asking for a special prosecutor on Trumps's "Russian involvement."
I thought I'd let her know about the AWAN brothers (ie: send this video to her on twitter). These are Pakistani nationals, they were all fired for illegal access to admin-level secrets of 3 of the most sensitive committees on House Intelligence's computers
The obvious danger here is they could pass info to ppl in Yemen, and let them know the seals are coming and so our people die.
Also if intelligence comes back with a list of who the people are in Yemen who are on the Al Queda list then they could warn those folks and it would be much harder for the military to follow up
Amanda might not have had the opportunity this morning where there were 31 different House Dems who funnelled 5M to these Awan brothers who [committed treason] who never seem to be working-- they either seem to be travelling to Pakistan or running a car dealership that might be a front / cut-out. George shows an infographic of all the amounts given to the Awans since 2004 by the different members.
I thought I'd let @amandacarpenter about the 20 burglaries and thought she might want to get the FBI involved
Andre Carson's office looks like it was also broken into. I wanted @amandacarpenter to know that Carson was also on the Emerging

Threats SubCommittee, which is very specific info about counterterrorism.

I also wanted her to know that there was an independent server that they were putting all this information on. That they were feeding information from these critical select intelligence committees and putting that information on a separate external server LIKE HILLARY DID.

Also we need some help getting the AWAN's Visas and finding out what their travel has been, whom they've met in Pakistan
She might not know they were connected to Hezbollah doctor Al-Attar that's been dealing our secrets to Sunnis

These Awans were all asked to be given TOP SECRET clearance by Rep Jackie Speier

The Awans were making 2.5-3x the median salary for a House staff IT employee; also a wife was on the payroll 160+k

2300 of the emails were published today, which looks like they are right on schedule for the 5 yrs; That's too slow for any type of investigation to occur

Claire McCaskill on the Senate Arms Committee (Senate arms investment club) lied about not ever meeting with Russian Ambassadors because there's a screenshot of her saying so in social media--George is looking for pictures and notes from that meeting.

Omar made 3 visits to the White House, also involved in Car "dealership"

500 pages a month is 103 Year pace, so that's something Tom Fitton (Of Judicial Watch) may want to mention to Judge BoazZ

George says someone damaged his slide by removing Amjad Awan's connection to BCCI--don't know why you would do that other than to bring attention to that connection, as a way to verify it (BINGO--they are helping you, George)

[\[Day 131 part 2 / 03-03-2017\]](#)

Update to first one. Kislyak has been to white house 22 times. It's going to be important to get all those dates, and summaries and notes from all those meetings.

I think those are going to line up with Senators especially around the Iran Nuclear deal. It looks to me from the evidence I've seen so far, that Obama wanted to put through the deal, but Hillary held it up by having Chuck Schumer block it to overcome the veto. It seems Nataliia Sova is the 6th Awan, the 2nd wife; conflicting reports on when she actually did work for the House, if ever -- she's a potential link to Russia

More is developing with the Senators--not just Claire McCaskill--of meeting with the Russian ambassadors

What I'm calling the Chuck Schumer Stonewall; holding out for more contributions

Rep Speier did not ask for Top Secret Clearance for Nataliia Sova
George was hacked again and removed OMAR AWAN from the earlier thing I did today

Sova was originally hired by Chuck Schumar, then to Waxman, then Cleaver and then Deutch. She was paid 4.7x greater than the average rate

[\[Day 131 part 3 / 03-03-2017\]](#)

We don't know the 20 burglaries just yet

Not just Sergey and wife Natalia but Yulia , a "Parade of Kislyaks going through the WhiteHouse"

Nataliia is named as a principal in a couple of car-buying businesses in Annenburg, VA which is the home of Dyncorp and Exxon-Mobile; a lot have made the equivalency of the Rockefellers with the Pinkertons as their private army toExxon Mobile having Dyncorp as their private army -- this is the Rex-Tillerson-Steve-Feinberg connection. Nataliia was only here 6 months; but with mcCaskill with the Senators blocking Obama for Hillary wanting more money....

Pelosi also meets with Kislyak

You may find that Intermediaries for Schumer met with Kislyak

I think Nataliia is a commercial cutout but not intelligence gathering
Nataliia Sova is also going to be involved with Gabby Giffords, in addition to Waxman and Deutch

She was here for only 6 months, George hypothesizes that they are rotating sham green card marriages, because she left and married a Ukranian guy

I looked through some of the emails they gave and there's nothing there so it's a way to bore people and get them off this topic

[\[Day 132 part 1 / 04-03-2017\]](#)

After the Yemen Raid, there was a burglary of 20 House offices-- almost looked like someone was trying to remove the evidence of a leak

There has to be cameras all over the house and cameras in the computer rooms and server rooms. There are also special codes on the locks and timestamps of access. IT would be good to publish video captures and timestamps of access to doors to the server room.

{ {And if you can't produce any of this, then the House Security is super incompetent and should be fired if incompetent or jailed if complicit} }

There are specialized server rooms for each of these departments Look at the GPS of those people; look at systems that could access those servers [remotely or internally]

Match GPS on Phone Records for when Al Attar and the Awans were in the same place. Publicize ATM photos of all the AWANs

Trump publicized the fact that Kislyak went to the White House 22 times to Obama; now that Trump has tweeted this, you'll see of the 31 Dems who met with Kislyak

There's only a picture of Imran Awan; We need a picture of Abid Awan, Jamal M Awan; I think they will be responsible for shuttling people from Airport to After-hours Clubs (hospitality)...and trips to maybe University of Virginia?

Awans were involved in front car "dealerships" at Falls Church Wife was involved in a home in Annandale; George was saying you could make a trip in 30 min and go to Exxon and Dyncorp.

Matching up the 19 state dept gmail accounts to the 31 Awan House funders is going to be important for getting to the bottom of this conspiracy.

@TulsiPress -- Tulsi Gabbard, she's on the House Foreign Affairs Committee as well as the Intelligence committee:

She would be very interested in Awan brothers' break-in to information that includes information on her and her cohort

@FBI you can send this to the FBI

I'm going to be comparing how the Capitol police are looking into this situation with the 4 Awan brothers and 2 wives and they are known terrorists compares to the case of tech digital rights activist Aaron Swartz. He started Reddit.com and other orgs such as Demand Progress. And he spoke out against PIPA and SOPA, the digital intrusion technologies that the government was pushing.

Compare Aaron Swartz's story to the 4 Awan brothers, who worked for these 31 Democrats and then 20 burglaries resulted out of this. You're going to find there is a similarity there, because Aaron Swartz was caught on camera and I believe the Awan brothers are going to be caught on camera. But Aaron Swartz wasn't involved in leaking information about deals with Russia, or Joule Energy, or mining deals Frank Guistra seems to be involved in, or deals these Democrats in the House Foreign Affairs Committee would have information about. I'm not accusing I'm just saying that's the kind of information that is valuable to foreign powers.

Changing the name again to "Hillary's Hackers" : Spies, Brotherhoods, Rat Lines, Wiretaps; (USAID, Selling Intel, SexTrafficking)

Nothing like having the POTUS come out and agree with you after 132 days

"I was being hacked by Hillary"

I think POTUS is going to realize as the paperwork comes out on the oct 20th FISA court that you have to order it from the FBI and the DOJ; and that proves that Obama wasn't really involved--I'll let that play itself out

Going to dedicate this [video] to Press Secretary Sean Spicer (@PressSec) and Kellyanne Conway (@KellyannePolls)

In this series, I showed how the 4 Awan brothers and 2 of their wives were involved in Hacking on 3 of our most sensitive House Committees.

And I show how that information taken--if leaked to the Muslim Brotherhood overseas or for economic deals leaked to for example Russia--could compromise the President.

I wanted to show the White House staff how this actually started We had a Cointelpro type spying program (PDD-62; a US Gladio "Program" D&D) and a wiretap program at the FBI before Bill and Hillary Clinton's [presidential term]. When Bill reacted and said "I did not sleep with that woman Monica Lewinski" in January of 1998, later that year he signed something called Presidential Decision Directive 62, a directive for a DISRUPTION CAMPAIGN AGAINST THEIR [Political] ENEMIES.

Initially this was going to be enemies of the impeachment like Dennis Hastert and Newt Gingrich

But it instructed the CIA and the FBI to come up with these Disruption techniques. These techniques came from the Phoenix program the CIA ran in Vietnam.

The key part here was there were a lot of FBI whistleblowers and a key one was Sibel Edmonds at a DC office at the FBI, where Andrew McCabe worked, and he is the one who ordered the FBI wiretaps on

many many political opponents of Hillary Clinton. Not just Hastert and Gingrich.

THat wiretapping just got worse and worse and the list of enemies just expanded. Now it's to the large 'deplorables' list

{{ And that list includes people like George and this author who have questioned Clinton/Clinton's Cabal (McCabe) and/or participated in Factual Research regarding the Clintons and their past (ex: Arkansas Prison Blood Scandal / Factor8) }}

There are people acting as surrogates for Hillary--Debbie Wasserman Schultz who placed these 4 Pakistani Nationals into the 31 House Democrats' offices that are all on key Committees

Just recently, after we had the death of the Navy Seal we had 20 burglaries in those House offices, and I asked this morning if there are cameras of those burglaries

I talked about a previous FBI case where just one person with one thumb drive tried to get public information, a guy named Aaron Swartz, and the FBI was threatening him with 50 yrs in prison; why aren't the 4 Awan brothers even under investigation? {{ Double standards that Favor Foreign Spies }}

I talked about 6 White House meetings with Kislyak during Hillary's uranium meetings? Is it not Time for Democrats to start all over again with a Tulsi Gabbard and clean house of some of these older people that are Hillary apparatchiks

If the FBI is going to be involved with Aaron Swartz; they certainly need to be involved in the investigation of 4 Awans breaking in to 3 committees and having their own private server.

The Awans were connected to a HEZBOLLAH FUGITIVE Dr. Ali al-Attar.

Jackie Speier got these Awans their TOP SECRET clearance Swartz committed suicide (or was suicided) thinking the rest of his life was RUINED by the FBI. An American citizen. Stole Public info -- University research. Awans are foreign nationals, spies, a SEAL DIED I'm asking the FBI an act of goodwill by publishing only the METADATA on the 650k emails

McCabe needs to recuse himself of the Clinton, Abedin, and Awan cases and allow a special prosecutor to continue this case.

Recap

George was proven correct about Sarin gas, NYT

Obama was backed into a corner with the wiretap, just like he was backed into a corner with the Sarin gas and Stingers with Hillary.

Hillary presents the plan at the last minute for Libya, then Obama goes ahead and signs off on Zero Footprint, she presents the plan at the last minute for Timber Sycamore, doesn't tell Obama about Sarin gas and then he finds out about it at Ghouta.

I think it's going to be the same thing for the FISA Warrants.

A June FISA warrant was denied

There is a court of review. Just like an appeals court, you can review this denied warrant with a 3 judge panel, I believe this happened on July 12th.

The meeting where Bill Clinton met with Loretta Lynch, I believe they were talking about which Judges to pick: they are all pretty liberal judges: Bryson, Cabranes, and Tallman

The reason why I say I believe it was July 12 that Tues, it was as quick as you could convene the court given the July 4th weekend.

You get 90 days on a FISA Warrant and then you have to come back to the court and show some kind of due cause to continue the warrant

If you look at the October warrant its' about exactly 90 days later with the October renewal. This first warrant, I don't think Obama knew about this first warrant. Then they came back to Obama in October and what are you going to do? Say I've been wiretapping trump and that will make Obama look bad. So I think he said let's limit the scope lets get Trump's name off this warrant and then let's name a device, say a server ... and that way it will let me save face on this.

[\[Day 133 part 2 / 05-03-2017\]](#)

FISA court est 1978 after the Church Committee; Judicial check on the legislative and executive, so presidents won't order wiretaps on other candidates.

The FISA was created exactly so this Trump surveillance situation doesn't happen.

This FISA court of review has only met twice 2002 and 2009. If this court met--and my theory is that it DID meet in July because the original June warrant was denied and so they would have had to have gone to this court, around July 12th--

This court meets at Prettyman Courthouse 333 Constitution Avenue in Washington DC

Cabranes and Tallman would have to fly to DC around that time; so there's got to be many records of people going into 333 Constitution Avenue of these people going in/out and spotted there

This information would give a lot more underpinning to the Media reportage that has been honest about these activities in terms of verifiable original source documentation

Also Trump could simply ask if this court has met, and they would not have to reveal anything about the court or case other than an affirmation that they met

@danscavino Did the FISA Court of Appeals meet last July or not?

No secrets would be revealed by just telling us if they met or not I'm going to be following up with Louise Mensch--she was the first person to say there two different sources that said there was both a June Warrant and an October Warrant. She was a member of Parliament in GB and now she's an investigative Journalist.

[\[Day 133 part 3 / 05-03-2017\]](#)

Comey said DOJ should deny everything [about wiretapping Trump] FBI Wiretaps whenever they want; the only thing they worry about is parallel construction

If they do collect something they want to use later, they have to have a cover story for that.

There is a good reason why I've spent all this time on the FISA Court of Review

Hillary in the same sense doesn't leave things to chance. She puts 4 Awan brothers and 2 Awan sisters [wives] in all the key House Intelligence Committees. She puts gangs and embeds Gladio gangs in 39 different countries in order to do Topples. She gives them Stingers. She gives them Sarin gas. There is no chance or fairness involved.

This FISA court of review is necessary in terms of parallel construction. They have to have some kind of legal reason going forward July 12th. If Trump keeps drilling down, he'll find there was an effort to create a 'parallel construction'

Fish for evidence regarding cameras for the Awan / 20 Burglaries Jeff Sessions is asking for special prosecutors for the Uranium deal. All this is putting pressure on the old order. It will collapse with his pressure on these connections of the Dems to Russian Kislyak, et al. The new order of the democrats will be Tulsi Gabbards--she's the future of the Democratic party.

The Greg Meeks, the old idea of putting apparatchiks in all the different committees to try to extract intelligence and warn ISIS and such--that's the past. Gabbard is the future.

It's a little bit of a speech here, but the footprints of this Awan server, their logins to the Committee servers, the footprints of moving the data to the Awan private server, Trump is going to drill-down on this and find the footprints and then Trump is going to win this one { {all these people involved are f*cked} }

The activity would appear to be a sloppy coverup of the 31 Democrat's exfiltration of intelligence

This type of sloppy cover is going to crumble and leave huge footprints

The parallel construction is never as good as you need it to be, that's my final point today

It's going to get better. See you tomorrow

[\[Day 134 part 1 / 06-03-2017\]](#)

Changing title to "How to Catch A Spy" -- How to actually solve the wiretap

To catch a spy, you look for people who have given classified info to outsiders before--for their own personal profit. Much like the Libya/Syria information given to Muslim Brotherhood and training given to OTPOR

1) You look for people with TOP SECRET clearance.

2) You look for White House VISA meetings, where people at the highest levels are being cleared for International travel.

3) You look for wiretaps. You look for people who have wiretapped their political enemies for political figures like Andrew McCabe has done many times for Hillary Clinton.

4) You look for tragedies--where information leaks have caused operations to go wrong.

5) Also you look at Foreign Nationals. Usually spies trying to undermine your country are from other countries. {{except the Clintons and #HRCRatline--the "fifth column"}}}

1) @RepSpeier got the clearnace for the Awans

Reach out to @cernovich because a troll is 'forum sliding' to keep him from reading us

also @marklevineshow -- he's the guy who did the rundown for Trump and the timeline for wiretapping

Foreign nationals with top secret clearance, with visa clearance--this is not islamaphobia--we are going to find it's a small group--there is one group the Awan family, that are working for these 31 staffers

We now look at staffers who have a history of corruption

CREW--a watchdog group, names Meeks as the most corrupt member of Congress: "where there is smoke, there is fire"

You also have to look at Kislyak who negotiated a lot of these Uranium deals (6), he was also the key broker in the Iran deal -- since the WH was not meeting directly with Iran, they went through Kislyak

You also have to look at the DNC scandal(s) (points to Wasserman-Schwartz)

YOU have to look at these burglaries on Capitol Hill, you have to look into those with a special prosecutor and look at the cameras, access logs, gps on awan's phones, etc

You have to look at who has access to the topmost security committees, and who is on those committees, and which staffers are working for them. That's going to be Andre Carson and his Awan Staff

You have to look at external servers that interacted with secure servers...people who stole laptops and hard drives and thumbdrives from congressional offices

You have to drill-down on the server logs

You have to look at people who have ties to previous criminals--The Awans had ties to Al-Attar and Al-Attar had ties to Kislyak, you have to look at those meetings

You have to also look at people being overpaid, and look at their movements back and forth between different countries and different places they visit, such as clubs and car dealerships, individuals they visit

Especially in oil and defense...Look at the business records of these shell companies they set up, are they involved in businesses outside of their regular government employment.....yes, this is traditionally how you transfer money (launder) via shell accounts, cutouts

Look at connections to other private servers--they have probably sold intelligence for personal gain, like Hillary's and Abedin's servers; The easiest way to [determine if Hillary/Abedin/Awans have done this] without violating any US secrets, is to publish the METADATA of the 19 people at the State Dept. that were sending this information around, and see if there was any connection to these [AWAN PRIVATE SERVERS]-- this informaion belongs to the people of the US anyway-- esp the METADAT, because of the Federal Records Act. So slowfooting the release of these emails, especially the Metadata, is against the interests of the people of the united states. Recusing yourself if your name is Andrew McCabe from these investigations of Hillary Huma and Capitol Hill (Awan) investigation is also something that would be interesting.

Finally, you have to look at previous countries that have been involved with established drug routes and money laundering. Here we have Amjad Awan who was involved in BCCI and created a fake bank--a passthru bank in Washington DC--and had long ties with Marc Rich (known launderer and criminal), Paublo Escobar, Manuel Noriega, and Mossak Fonseca.

You have to look at these patterns and say well,"PAKISTAN" I'm sorry, just like the travel ban, is going to be on the list because of their history and drug-running.

[\[Day 134 part 2 / 06-03-2017\]](#)

Dedicate this to @marklevinshow because he's looking into the FISA wiretapping evidence

About a week before the election this article came out in [slate.com], Frank Foer, "Was Trump Server Communicating with Russia?"[\[1\]](#)[\[2\]](#)[\[3\]](#)

George shows the traffic for the Trump Server and the internet traffic to the russian bank -- this Trump

{{ George's technical explanation about DNS/ports, etc is too disjointed/difficult or I'm too lazy to capture with CLIFF NOTES, so if you want the explanation, stop reading and just watch this video }}
{{ The gist of what he's saying is that someone compromised Trumps' old email marketing (spam) server to install a portsniffer and various software daemons to make it appear that Trumps server was communicating with Russia, and that Trump had no knowledge. Again, the gain is political, not financial, so that's how you know it's state-sponsored hacking and not 'real hacking' (which steals info for financial gain) }}

If you had encrypted communication between Trump's server and a Russian server, then of course the FISA courts would agree for a warrant for the FBI to investigate.

[\[Day 134 part 3 / 06-03-2017\]](#)

Folks in the past who have had a lot of Muslim Brotherhood contacts to the extent that you're contracting them as a private army, giving them stinger missiles, sarin gas, they are body parts, running kids to more repressive regimes in the Middle East, potentially running drugs to/thru Turkey, you have to look at those as ratlines--and we have to look at ratlines in the United States.

Information ratlines as well as other types of ratlines.

This is an information ratline is how I look at it. This is a communication between supposedly two Russian banks and Trump tower email server. I believe this Trump tower email server was hacked.

I don't believe someone set up this Trump Tower server to only talk to two different places. One was a Russian bank and one was a healthcare system in Grand Rapids Michigan.

Trump Alfa Bank 1/2 (red/blue) Spectrum Health (yellow), Alfa Bank - Carl Bildt

What I do think is someone hacked the server and set it up to make it look like someone was making transactions to Russian Bank. And for some reason they chose Spectrum Health as the location where they were getting emails to monitor how their hacking was working.

When I said 'ports and passwords' -- ports can tell you what [server software applications exist on a server].

I don't think they were being hacked from Russia, but that's something Congress can look into. I believe that the hacker was somewhere from Spectrum Health.

Many news articles were written about this information and [slate.com, to the best of my googlefu, not salon] is the source, and the journalist is Franklin Foer is the source of this information.

What he didn't turn over was the raw data. The raw data would have the IP addresses of these servers--I think he should turn over the raw data. We already know the Trump IP--but Spectrum Health's IP

address could go to a physical address that could tell us where the hacker is. Instead it went to nine different "experts" that characterized this as human traffic instead of robot traffic. So that's why we need to know exactly where in the Spectrum Health System does this go back to.

Spectrum Health System, Grand Rapids Michigan-- a lot of their advertisements focus on drug rehabilitation, much more than other types of health systems. It especially highlights Naxolone [\[Naloxone\]](#) which treats opiate ODs. It's a type of rehab clinic.

Knowing what I know about Hillary, her dealings with [\[Marc Rich\]](#); her dealings with [\[Amjad Awan\]](#); they were running in drugs through Turkey and Pakistan into Europe and through the United States. I just wonder who it is at Spectrum Health that purchases the refined drugs for Suboxone (Buprenorphine+Naloxone) and is that actually being made in Pakistan?--and that's my question of the day.

The reason we need the Raw [Trump server] data is if the people involved have a political motive.

This is [\[Fethullah Gulen\]](#), he's split off from Erdogan from Turkey and has a more secular approach to Islam than Erdogan, he has universities in 140 different countries, lots of childcare type universities.

Where are they getting all the money to do that?? Many have speculated that drug money through Turkey is funding the all of these Islamic schools all over the united states. One of the strongest supporters in the US is from Grand Rapids Michigan. His name is [\[Muzaffar Awan\]](#). He has written numerous articles about the future of islam.

I'm not saying [\[Muzaffar Awan\]](#)--he's a doctor of internal medicine--that he is in any way involved in the drug business. But I know that [\[Gulen\]](#) has many ties to the drug business; and Gulen has many ties to HRC.

So I'd like to see that detail data of who at Spectrum Healthcare was seeing the TRUMP TOWER DATA. This is something the DOJ could go to work on TODAY.

On the FBI point. The FBI doesn't have to order the wiretap. A wiretap could have been ordered by the DOJ. Loretta Lynch could have ordered it, or her seconds or thirds could have ordered it. They could have presented it to the first judge, and that one denied it. Then it was sent to the FISA Court of Review [Appeals]; and they only need 2 judges of 3 versus the one to get the warrant.

Just because Comey denies the FBI issued the warrant doesn't really mean anything. It's really about him saying whether or not the DOJ issued the warrant.

No one knows what the Awans were doing. Were the Awans logging into the Spectrump Health, were they logging into Trump Tower, I don't know--I don't have the proof.

This is where the FBI needs to get involved
We have 20 burglaries
We don't have the cameras yet
We know that there were 31 different Democrats with all this highly sensitive information from these Intelligence Committees
We know we have Congressman who don't have such a great reputation as far as the watchdog groups [[CREW](#)] is concerned
We know all the focus of the Media is on Trump and the Russian Narrative
But no one is talking about Kislyak and the 6 Uranium deals
But no one is talking about Kislyak and the Iran Nuclear Deal
We know that the Pakistani Brothers (+wives) making 3-4xx+ more than they should and a huge amount of money paid to them
And that they have outside Business interests that are also shell companies (car dealership)
And that they host other foreign nationals at clubs along a route that passes oil and gas and defense industry
We know they had a private server that they all used at the time they were fired for illegal access of US intel
And they had a direct relationship with Dr. Ali al-Attar, a known criminal that traded intel with Shia and Sunni Islam foreign agents
{ { Let's keep digging in a sandbox while the house is on fire } }
I don't think this server should remain at the Capitol Police's wirecage, but there be FBI handling it.
We need to start publishing pictures and publishing the video and saying we have an active probe here, and admit we have an active investigation.
I'm not casting dispersions here--[these Awans] have been connected to Hezbollah groups [[Dr. Ali al-Attar](#)] involved in drug-running.
We need to look at movements with GPS of the Awans. How often did they go into the House offices after 5 oclock to make 3x avg congressional salary and what were they doing then?
We need to look at the Metadata of Hillary's Private server...did the Awan brothers log into Hillary's server, Huma's as well as their own?
We need to see the logs of which servers were talking to others. Those server logs need to be turned over to the House intelligence committees and maybe a special prosecutor.
I'm calling for the release of the detailed IP data that was presented in the Salon [Slate] article.

[\[Day 135 part 1 / 07-03-2017\]](#)

Let's keep sending to @marklevinshow because he's "Trying to Catch a Spy" right now and this may be appropriate
As I mentioned before in this series, HRC gave weapons to Muslim Brotherhood in many different countries Libya and Syria are the two we know about most with Stinger missiles and Sarin gas.

The point I've made over and over--wiretapping and cyberweapons for hacking used to be kept inside the FBI and CIA--but this morning we find out that about 100 Billion dollars worth were given to hacker groups. ('Now "Out there"')

The Awan group is just one hacker group inside the United States. Vault7 is about CIA Hacking Tools--it's about 5000 people in Langley Virginia. There's a big installation in Frankfurt as well.

100B investment but now "they've 'lost control'" I don't think they lost control, they were purposefully leaked to other worldwide groups as a proliferation strategy--such as the Gulen group that I talked about yesterday

Setting up the Trump server to look like it was communicating to Russian banks.

There was also this third, interesting third party out of Grand Rapids called Spectrum Health. I want the author of the article to give me the actual IP address for Spectrum Health. I believe the hacking came from Spectrum Health. THE hacking had to come from somewhere. It's true the hackers could have come from another server, and then added these 3 communication lines but for now we just have to go from here.

FISA recap

As soon as Loretta Lynch comes out with a sworn statement [that what George is proposing is NOT how it happened] I'll believe her. Spectrum Health is an odd provider because they don't seem to be focusing so much on the hospital services but rather on getting addicts to drug rehab, but with a focus on treating them with Suboxone first, [which contains a slightly modified morphine molecule called Naloxone, brand name Narcan, which may be sourced from Pakistan via Afghanistani ratlines]

George thinks this is a legal drug trade of Pakistan by making it into a pharma drug

Gulen has long ties of Gum {{wtf, fix this}} with HRC, he took over Turkey in 2002, has 25B dollars, he lives in an armed camp 2 hours from DC. You don't accumulate 25B from selling falafels {{ >□< }} you get it from drug trade.

Turkish express route of drugs was cut-off, so now this drug trade is coming through this Paki ratline

Whenever I see someone promoting him in the US, I know they [they are related to this HRCRatLine]

George recaps the disproportionality between Aaron Swartz's punishment versus the yet-unpunished, slowfooting of the FBI/Capitol Police/MSM dealings with the Awans

"Signs that the FBI is covering up for State secrets"

But you're not really protecting the US Citizens' interest, you're protecting groups like the Gulens secrets, the tools that they've stolen FROM us. It's not really US State Secrets. It's Hillary and Huma's

state Secrets. It's HRCRATLINE secrets, not that which belongs of the public.

{{ Andrew McCabe is NOT protecting US Citizens. He's serving the interests of a Fifth Column that is ruining America from within. }}

[\[Day 135 Part 2 / 07-03-2017\]](#)

I've called on [\[Franklin Foer\]](#) to give us the Raw Data on the IPs and traffic of the Trump and related servers

2 of the 3 in the FISA Appeals court are Clinton appointees (That is a conflict of interest)

Suboxone Deadlier and more Addictive than Heroin - "Gulen Drs"

Psychiatrists

I don't want the psychiatrists prescribing the youth of America the [\[Suboxone\]](#)

I believe Dr. Hassan M. Awan's email (of Grand Rapids, MI) was used in the hack of Trump tower.

George recapitulates that he is not making a Jewish attack on Muslims because he defended a Muslim (Portland Christmas tree bomber) and this caused him to be put on an enemies list which started this whole series

HRC has a long history with Amjan Awan and Iran Contra

George recaps all the known knowns around the Awan IT House staff Intel burglars and related House Democrats

I think you're going to find that this Awan server is going to be in communication with that email address / hacked email account (Andre Carson's[\[1\]](#), I believe, or Awan's in Michigan)

Metadata has to be announced for Huma / Hillary. There are no secrets that can be exposed by giving the Metadata.

[\[Day 136 Part 1 / 08-03-2017\]](#)

Steve Bannon mentioned that he's gonig to be investigating the Russian ties to [\[Chuck Schumer\]](#). I thought I would send him this video because it relates directly to that. @StephenBannon is his twitter

Also let's tweet to @FranklinFoer, the Journalist who wrote that article about the Trump tower communicating to the Russian server Steve for you, in the past we've talked about Hillary's willingness to give weapons like Stinger missiles and Sarin gas to the ISIS, the Muslim Brotherhood this group based in Egypt. But I've been talking recently about her willingness to give cyber weapons to this Gulen movement, the softer coup. This spy network started in Pakistan and moved all around the world. This is very related to the CIA, the CIA's infiltration into the FBI and counter-terror division (JTTF)

Franklin Foer produced traffic analysis between 2 servers alfa bank 1/2 and spectrum health in michigan. Foer has not put out Raw data but George has asked him to. The yellow traffic is going to tell the

story about managing the malware/hack tools that were put on the trump servers.

Steve Bannon--he has a task force looking into this--I think this [Spectrum Health server] is the key to the whole case.

I'm going to be tying this to later to the Awan brothers [that have been hired by Gulen] {{citation needed}} that has been happening in DC. If Jeff Sessions @USAGSessions if you want to send to him as well.

They could go to one FISA judge if FISA Warrant was denied. FBI can get a FISA warrant, DOJ can go through the Intelligence agencies to get a wiretap without a FISA Warrant/court order.

As soon as I see a sworn statement from Loretta Lynch that she did not order any kind of tapping or hacking on Trump tower, and no one in the DOJ did, I'll believe it. As long as Steve Kadzic is part of the DOJ, I don't believe that [they did NOT order a FISA on Trump Tower].

Gulen installed CIA front schools all over the world. The way you know the English "teacher" at a Gulen school is not "simply" a teacher when they have diplomatic passports William Engdahl just wrote a book about it--this whole drug trafficking line. The aim of these schools is to radicalize the youth. This is more of a 'soft coup' style a Sufi form of Sunni--we need to get into the arteries of the target. We can't call the revolution too soon before we've totally infiltrated it. He compared it to an egg, that you don't want to crack the egg before the chick is fully formed.

I talked about different supporters of Gulen: [[Muzaffar Awan](#)] a doctor in Cedar Rapids where Spectrum Health is based

Hassan M Awan also in Cedar Rapids. I believe the Trump server traffic monitoring email was going through this Awan's hacked email Like most front companies, the Gulen schools would be a 'cover story'--during the day they act as a regular school, but it's at night where they have recruitment, the continuing education courses where they teach hacking and cyber revolutionism

Gulen's history was to establish drug and oil pipelines from Caspian sea from Pakistan thru Turkey. I call it 5 Stans and one John, Tajikistan, Kyrgistan, and Azerbaijan is the john. Once they established that, they infiltrated Turkey and then had a falling out with Erdrozan.

Gulen is funding the spy network we're talking about

Amjan Awan recap directly ties Gulen's gang, [[Pakistani ISI](#)] to HRC-CIA

Now that the Awan brothers have been kicked outside of the HOUse firewall, now they need the [[Vault7 hacking tools](#)], and those came out yesterday

After the Seal raid on Yemen where Al Queda knew we were coming, there were 20 burglaries which I think were cover-up burglaries

(watergate sort of burglaries), there's just the Capitol police investigating, no camera footage has been released
Schumer is going to be involved in this with Russian Kislyak. Kislyak had all these White House visits for Uranium meetings and for the Iran nuclear deal.
Pakistani House IT staff were paid at least 5M by the 31 'most corrupt' House Democrats
George's Awan hacking recap, and what they could have taken--a dream for anyone trying to protect a drug ratline (give warnings)
It's gone beyond just warning ISIS about drone strikes, and now it's moved to sabotaging Trump's Navy Seal operations
Awans had a private server, just like Hillary had a server, Huma had a server. I'm recommending we look at their logins and other access logs and their phone records/gps movements around DC.
Awans were connected to Hezbollah / Gulen via Dr. Ali Al-Attar
Awans were well overpaid 3+x; Look at defense/oil industry meetings in the area where the Awans were
We need the metadata of the emails, info on the HRC, Huma, Awan private servers
We think Andrew McCabe should recuse himself from these investigations because McCabe has been slowfooting and obstructing justice, and we know he's already culpable in quid-pro-quo / pay-per-play arrangements with HRCRatline.

[\[Day 136 Part 2 / 08-03-2017\]](#)

No word back from Franklin Foer
It turns out all the files that made the case for Trump's servers talking to Russian Alfa Banks they are just text files. Franklin never turned over the real files, the real evidence.
The witness is a guy named "Tea Leaves". He never was produced.
What I'm saying is HRC ran this through MI6 and other liaison operations, so the CIA doesn't have to go to the House Select Committee on Intelligence or the Permanent Select Committee on Intelligence, and it was run through Carl Bildt.
Carl Bildt ran this through the cyberwarfare center in England, MI6, I won't say where that is, what university that is. But this has all the markings of a false flag attack.
The cyber weapons for [\[Vault7\]](#) have been leaked to Gulen's group
It's Christmas for Gulen and the Muslim Brotherhood spy groups
Trump needs to drilldown on this.
He needs to find out who "tea leaves" is and subpoena Franklin Foer
Even if there isn't a FISA warrant or FISA review, I believe this is [state sponsored] hack, whether it was done legally or illegally.
William Engdahl, The Lost Hegemon--an excellent writer/book if you want to understand the CIA
Fethullah 'Feta' Gulen -- he's in Engdahl's book

His number 1 proponent in the US is [[Muzaffar Awan](#)]

People said, Connect this to the Boston Bomber somehow: I actually can

Graham Fuller wrote about how [[Zbigniew Bryzinski](#)] used the [[Mujahideen](#)] to take down the Soviet Union in Afghanistan...why don't we do that for the other 4 stans and the 'jan' and turkey...and that's exactly what happened because of Gulen. All those countries along that pipeline--the [[Tblisi pipeline](#)]-the one for Haliburtun from the Caspian Sea to Turkey; but this also enabled the drug ratline along this way.

The 35B Gulen in the bank was not from selling Falafels. How do I know that? Because of [[Amjad Awan](#)], the midnight express from Pakistan to Turkey, long time associate of Marc Rich and known associate of HRC.

Jackie Speier was on MSNBC today, saying "it's gotta be outside hackers, contractors, it can't possibly be people that I asked for Top secret clearance for that are doing this hacking". No it's actually the Awan brothers, and now they DO need the Vault7 tools because they are outside of the firewall

Why doesn't Trump just mention the Awan brothers and say, "How is the investigation of the Awans going? or How is the investigation of the House burglaries going? or Kislyak the Russian ambassador had 6 meetings during the Uranium meetings or the Iran meetings?"

This guy--going to call him 'Mazen' for now--he is the key fundraiser--he runs the website for the Muslim Brotherhood in the US. Every 2 yrs he fundraises for [[Andre Carson \(@RepAndreCarson\)](#)]

His number one funding arm is through the house select permanent committee on intelligence AND Carson sits on the 'emerging threats' subcommittee. So if you wanted to warn the Muslim Brotherhood about a coming air strike from terror tuesdays, that would be a GREAT committee to sit on I think it's a **Conflict-of-Interest* (Carson's ties to Muslim brotherhood)

Trump needs to get that Awan server

Here is an interesting theory, and I didn't think about this before:

There could be only one Imran Awan [the other brothers don't exist].

Since he also had Omar's credentials for running the Peoplesoft app for the Congressional house, he could have just created 'virtual brothers', and paid himself a million dollars. I think his wife is real, and Nataliia spent time here as well. But whenever I see the signature of making 2.5x more than he should make.

{ { CELLPHONE BUZZES at this point, drowning George out.

Interesting timing, it's almost like someone is listening to George as he talks about this } }

Finally just going to say 650k emails.....

[[Day 137 Part 1 / 09-03-2017](#)]

#HRCRatline Recap, Gulen 'soft coup' Recap, putting people into positions of power like the Awan brothers.

Gulen you're going to find did fund the 4 Awan brothers and 2 wives You might wonder, "who installed the Awans originally in 2005?" and that's going to be [Terry McAuliffe](#),^{[2][3]} the current Governor of Virginia, and longtime friend of the Clintons.^[4]

The DNC chairman says to the House of Representatives (further: HORs), "hey you put this guy on your staff as a part-timer and paid him 60k a year, you're never going to see him. But I'll make it up to you when its time for campaign contributions down the line."

It's always going to be the campaign chairman, the one who follows McAuliffe is going to be Tim Kaine. And then the natural progression is to come up through the Governor of Virginia, then vice President like Time Kaine is now and then presidency or Secretary of State. How do we know Terry McAuliffe? He's the one who gave Andrew McCabe's wife 675k^{[5][6][7][8][9][10][11][12]} and Andrew McCabe still hasn't recused himself from the Hillary or Huma (or Awan) cases.^{[33][14]}^[15]

Dianne Barton did a lot of this research--look for Awans at this location here: 9667 Hawkshead Drive, this is where Imran Awan lived, as well as his wife Hina Albdi. This is Muhammad Hunzla Awan. You're going to see several Muhammad Awans that keep coming through here.

I noticed there is a "Best Sedan Service" adjacent to this location, I wonder if Imran Awan was the driver to get these Pakistani nationals from the airport to work with defense contractors.

If you look at Hunzla's curriculum vitae, he's still in Pakistan but he's working for LCC Lightbridge Communications. What Lightbridge does is they set up cell networks. I would bet anything that they set up a cell network for Congress, for both the congress, senate, or Capitol police or all over the country.

I'm not saying they are working on the national 9/11 system that just went down,

But my working theory is that the Awans are just like a "Braverman", a {{spy}} 'cover-name' {{like 33,000 is a cover number}} you bring everybody in with the last name Awan, that way you don't have to ask for different identities, and so forth.

The thing that ties everything together is the address associated with 9667 Hawkshead Drive in Wharton, VA {{Careful here it could remotely be considered a DOX on reddit}}

It would be interesting to see what comes back from [previous inquiries on wiretap data].

Franklin Foer has gone silent

George speculates with good reasoning that the Spectrum Health host computer was used to manage the Trump Tower software connecting to Alfa Banks 1 and 2.

If you have hacking in with Awan type brothers with ISI type experts, you don't really NEED FOIAs [FISAs], why would you want to do a FOIA [FISA] unless you wanted to say Trump was under investigation. Why even go to the trouble if you have hackers to do it illegally, why would you even bother?

{{ George keeps saying FOIA here (and prev. video) but I certain he means FISA; the FBI/IC/Cong House Committee on Investigations doesn't need/use FOIA -- that's for us lumpen schmucks. What's he doing here, signalling/semaphore??}}

Feta Gulen ratline recap -- Gulen as a CIA cutout

Al-Katie [[Yassin Kadi, al-Qadi](#)] is the banker for the Gulen Ratline; think of him as the Al-Queda's chief financier[16]--an easy way to remember his name.

{{ Ties between Gulen, Al-Qadi, and Erdrozan[17][18][19][20][21][22][23] that I can't yet make sense of, because of my ignorance of Turkish/Pakistani/Saudi history. You'll have to draw your own conclusions. Sorry.}}

{{ BTW George, Awan is the name of a tribe in pakistan, based on Cain's wife's name in the book of Jubilees, see my tweet for details }}
Gulen network is going to have all these Vault7 tools. So you **have to have a crypto tools leak* in order to get back through the firewall that the Awans and Gulen Ratline / HRCRatline are now finding themselves on the opposite side of.

{{ Reading between the lines here, George is accusing Assange of being a limited hangout, though he does not say that. It's either he's a hangout or a rube/dupe, being 'used' by the NSA to fight the CIA vicariously by undermining them, which is unlikely, because Assange is by anyone's measure a genius; also Assange was raised in 'the Family' cult--and we know most cults are mkultra/CIA-MI6}}

Awan brothers recap (see prev. episodes)

"we had 20 watergates" -- the fact there is no video and that the FBI is not all over this like the Aaron Swartz case is a tip off that this is an intelligence operation and inside-job

{{ Meaning that CIA committed domestic espionage / treason resulting directly in undermining our US Military}}

Gaffe: "Al Atari" -- lol.

Lightbridge ISI types could have been installing Dirtbox type cell hacking equipment to monitor law enforcement {{to evade / counterintelligence}}

We need to look at the server logs that connect between the Hillary, Huma and Awan servers.

[[Day 137 Part 2 / 09-03-2017](#)]

You're going to find that the overt Muslim Brotherhood Ratlines are the same as the Underground Covert Gulen Movement. You'll find not

only the drugs but also the sex trafficking, information trafficking, spying.

Daily Caller article, "House Staffers in Security Probe Allegedly Kept Stepmom in 'Captivity' To Access Offshore Cash"

3 Awan brothers kept the stepmother in captivity for a long period of time--there is a police report filed. She could not speak English. XXXX Thomas Drive in VA. This is the home of Mohammed Awan [Father] and Ibid Awan, one of the brothers.

{{This is likely gleaned public data thru county tax assessor/GIS, but REDDIT might consider this a dox so I've redacted it. If you want the number see the video}}

Stepmom called the police in January, said she was being prevented from seeing her husband Mohammed in the hospital

Boys said they had power of attorney but it was unsigned

They were taking money from father's cash and moving it to offshore accounts back to Pakistan. Sounds familiar to Amjad Awan

The stepmother said that they all grabbed laptops, their personal effects and skipped off to Pakistan

George speculates on an Imran Awan in Pakistan with a father named Mohammed Shah who is the head of PSP. PSP is a policing political party and is in this other group SSP

ISI in Pakistan created PSP at the behest of the CIA about a year ago. George says he believes Pir Mohammed Shah was in Washington last year during the planning phase when PSP was being formed.

{{ George never closes the loop on this. Is the Mohammed in the hospital this same Mohammed or a cover-Mohammed? }}

SSP is this terrorism arm that guards the drug ratline

The only thing you need to be sure you don't get your rebels killed is you need intelligence gathered in the US about when there's going to be drone strikes by the US Military.

Imran has lots of pictures of the police, rebels being killed, radicalization pictures {{On his website?}}

Are there new Pakistani kids coming into the Key Middle School or Abductions from this area; drugs are def. coming this way into the US Imran is still on the payroll of Debbie Wasserman Schultz, which is interesting if we had a person working for ISIS on the House of Rep's payroll {{ he's in Pakistan now }}

Muhammad Hunzla -- cellphone / wireless expert with military training and they just add 'Awan' to the end of people the shuttle in and out.

The Stepmother said that somehow they had the ability to tap her phone because they knew what she was talking about. She says that in the article. My hunch on the wireless tapping was correct.

My hunch on spectrum health is going to be correct as well if Mr. Foer will release the IP address.

You don't need a FOIA if you have the Awan brothers. If you have the full Gulen set of Awan brothers {{ Installed in the House as Double Agents }} you don't need to hack

Mike Flynn was paid \$533,000 by Erdogan to Expose Gulen Coup -- you don't get paid 533k to express your opinion you get paid for what you know

Erdogan exposed the coup that Gulen was going to run -- the HRC-Gulen coup [to depose] Erdogan {{Turkey Topple}}

The reason they wanted Erdogan out of there is because Erdogan has cut off the 5 "stans" and Azerbaijan the Turkish "midnight express" the drug route from Pakistan through to Turkey

I don't think Mike Flynn knew the day it was going to happen, but I do think Flynn did tell Erdogan details about the HRC topple and the strategy that was going to be used; they'll have a radio program to say you're in hiding, etc. All that was left was for Putin to listen to see when it was launched and then he could warn Erdogan {{I think George is implying Flynn used Russian diplomats as intermediaries to relay this info}}

If the Senate Republicans go after Flynn it's going to all backfire

The Awan issues can no longer be ignored by the MSM

26th-27th {{of Jan / Feb?}} the Awans leave for Pakistan.

Homeland Security picks this up now. We start looking at the VISAs

We look at passport stamps and it's all over

The VISA are going to be {{Ending inaudible because of barking dog in background}}

[\[Day 138 Part 1 / 10-03-2017\]](#)

Series name changed to "Awan Brotherhood"

It's 20 watergates, every spy thriller rolled into one now

It's about HRC giving the most powerful weapons in the world (stinger and sarin) to Muslim Bro to topple Gaddafi and Assad

It's about the Pakistani IT hackers in the most important house intelligence committees with access to the most powerful cyber weapons in the world

White house VISAs, Brotherhoods, Wiretaps

We've got american spies in this too. McCabe from the FBI whose done a lot of {{illegal}} wiretaps

Today's tweetstorm dedication is Brigitte Gabriel @ACTBrigitte -- she made famous this Muslim Brotherhood plan for N. America in 1991.

After the fall of the SU they had this Muslim Brotherhood--they called it the mujahadeen then--they needed to move it around to different parts of Europe to break off different pieces of Russia. They also had a plan for doing the same in America through this Gulen Movement. So I thought she would be interested in this series.

Yesterday stepmom recap; She called Jan 2 which caused the whole Awan spy ring to come apart. They fled to Pakistan. If you look at

Imrad's website you see all this radical Pakistani rhetoric and radicalism. His father, I believe is Pir Mohammed Shah
There is a picture of a ticket that looks like Imrad was taking for a train that he put on his facebook
Meeks is who installed them in 2004
The VISAs are going to be from the white house
This finally hit big time news yesterday--CNN was all over this story--all the major outlets. They almost seem to be following {{LOL}}.
CENDYN is in a joint-venture with KKR -- they are the ones who control this Trump email domain.
KKR had a footprint right inside the Trump tower. They didn't need to hack, with a CIA van parked outside {{with dipshts-in-black holding mini satellite dish guns aimed at an office...lol}}.
The CIA hacking tools, 100B dollars of them are 'out there'
Awan brothers already HAVE the tools, but wikileaks doesn't know where they are getting their leaks from. They don't know if CIA is leaking or Assad or Russians... But the CIA needed to get a cover to say, "hey, tools like UMBRAGE are out there".
UMBAGE creates Russian footprints. It's a russian hacking tool that was modified by the CIA to leave on a system--Like Trump Tower--what looks like Russian Footprints [on the hosts it hacks]
I don't know who is running the information ops, but You're basically giving the answer to the whole Trump tower hack by the Awans, basically giving the recipe out.
We've got spies coming into these safe houses. Lorton VA home. They are bringing in different experts. Lightbridge and the defense contractor people coming in, who are trained on espionage technologies.
Again if you have [inside actors embedded in the house (ie: SPIES), behind security firewalls] then you don't need a FISA court/warrant
There might ever be a FISA warrant ever produced. {{in other words, FISA is for legal domestic espionage. 5th columners, double agents are for illegal domestic spying. HRCRatliners are the 5th columners, they've committed treason}}
Famous Spymaster Graham Fuller set up Gulen in this spy ratline network. At the end of the cold war and the CIA brought down the Russian government, Fuller said, 'we might as well use these guys all over the world'. Fuller used them for counterintelligence insurgencies in many countries to undermine the pillars of every society, so that when the revolution does happen it's a rapid collapse like a building collapsing. {{9/11}}
Amjad Awan BCCI -- Iran Contra recap
The Congressional folks are just pulling the house down on themselves. These house dems going on camera to accuse Trump of this false russian narrative is just going to cause them to self destruct.
Schumer recap and his relationship to Attar, Awan, McCaskill

Awan Financials recap

"An Orgy of Evidence" --- Dem Congressional staffers are going to be available to be called as witnesses

I saw that when the gang of 8 intelligence group came out yesterday, all the D staffers were running from the cameras because they didn't want to be recognized because they can be called and subpoena'ed. The problem with the Russia hoax is there is no evidence because it didn't happen.

{{ Dems are running a whisper campaign }}

Andrew McCabe should not be in charge of any of these investigations. He doesn't even have the FBI involved in the Awan investigation he has the Capitol police looking at it, for an international spy ring. {{Pathetic}}

[\[Day 138 Part 2 / 10-03-2017\]](#)

Preet Bhara has been asked to resign. Maybe the new DA will actually look into the HRC

Dedicate to @NYPDDetectives are the folks that did the work. Not the counterterrorism division that tried to destroy Justice and crush the NYPD

@truepundit a lot of them come from the intelligence community They just a recent "rao"? with buzzfeed. Buzzfeed did a big hit piece on them

Truepundit hit back with a rejoinder 'buzzfeed took four years 20-30M to get to the same numbers truepundit got to organically'

Because if you do good journalism, people beat a path to your door.

HRC needs to answer for the ties to the MB but also giving the Awans/Gulen Movement the most deadly cyberweapons that could literally take down our country--this is the deep state.

Here are the Awans's webpage--contains the caption, "We are Awans we Break Bones Not Hearts"

{{ George fails to point out this is on the "Stay Calm" meme with the Crown at the top -- I think this is significant because I've long thought that the "Stay Calm" meme is State Propaganda--put out by the CIA/NSA, same with Pepe/Kek the frog; any meme that gets sold on merch in Target is likely an operation, imho }}

The "Awans" are a loose association of terrorists and policing/politics, PSP--SSP, in the same description of the father Mohammed Shah.

How Awan has a father Shah proves my point {{If you are correct about Imran being the same as the one in Pakistan}}, that Awans are a spy cover name much like "Bravermans" are for Jewish spies Awans imprisoned their stepmother and hacked her phone. They are obviously ISI. When their cover was blown, they grabbed their technology and fled to Pakistan. If you are not guilty [for the 20 burglaries], why would you flee?

Not only did they get information for the 12 yrs from the three most sensitive Intelligence Committees in the House, they kept their own server. This is the same Huma/Hillary story of having their own private server.

Instead of having the Barney Fife Capitol Police investigating this INTERNATIONAL SPY RING, have the FBI investigate this.

Let's get the cameras of the data center, the phone records of these guys, the GPS movement data. This is law-enforcement 101.

Trump tower recap -- Carl Bilt you are going to find is going to be the one who orchestrated this. I could say the university where he did it but I'm not going to say that now.

Brett Baer? Reported this story. It's going to mainstream--that is encouraging. When you forward these stories, they are picked up by the main [[news.

Graham Fuller designed the program for the Mujahadeen to bring down the SU, and it worked great. But then he turned around and said we should use the Mujahadeen to go after the edge countries of the SU the Five 'Stans' and the One 'Jan' surrounding Soviet Union; but then he made the fatal decision to use the Gulen plan to infiltrate North America--that's where things went south. {{ They didn't expect a bunch of free-thinking refusenikkers to refuse to go along with CIA's nonsense BS after dealing with it for decades }}

CIA teachers that they used to use in Central Asia--operatives that had diplomatic passports--your first clue that they are agents.

Beginning about 2006 they start flooding into the US: TEexas and other states in the Midwest. Texas Bryce University, Univerity of Houston was their first entry. These are the orchestrator of Ratlines. These are the IT supply chain. Ratlines of kids, sex trafficking, drug trafficking, of organ harvesting. This is the Gulen movement

Mike Flynn told Erdrozan that Gulen was going to do a coup in Turkey. That's why he was paid the half million dollars

Compare this half million to the 675k dollars that Andrew McCabe was paid to sit on the Huma Server investigation, to sit on the Awan server investigation and HRC server investigation. {{ Well, no that's not why McCabe got it, but it's certainly why he's not recused himself. It's protection money to ensure he'll keep playing for team HRC the Fifth Column }}

Long history of Amjad Awan, BCCI, funnelling drugs through Pakistan through Turkey thru Europe and then through Mexico and the South/Central America funnelling it through NAFTA into the US.

Amjad Awan was convicted for all this Iran Contra activity, with Marc Rich, Bert Lance, Medellin Cartel, Pablo Escobar, Noreiga, MOssak Fonseca.

He was the architect of Iran-Contra, along with Ollie North, George H W Bush, and Graham Fuller.

Dems are pursuing the [Russian narrative] and hitting a brick wall: I do not know why Jackie Speier and Debbie Wasserman Schultz want to investigate Trump on this Russian Hoax, because it's going to bring this Awan thing to a head.

Awan's criminal connections to Hezbollah--double agents. There are going to be connections to the Russian Ambassador for the Iran nuclear deal negotiations and the Uranium deal in Russia

We still don't have pictures for Ibid or Jamal. In any investigation you want to publish these pictures publicly so the public can help catch them. {{ But if you DON'T want to catch them then you DON'T publish the pictures }}

They are all in Pakistan now so maybe it's a moot point

Omar Awan is involved and he's married to Natalia Sova--paid 4x the median--and no one is talking about Omar

The best thing McCabe can do is recuse himself, the next best thing is to publish the 650k metadata

Please forward NYPD Detectives

True Pundit is a great news outlet on the scene

[\[Day 139 Part 1 / 11-03-2017\]](#)

@SaraCarterDC She's with a news outlet called Circa

Feta Gulen has accumulated 40B in Malaysia

There are cases against Gulen in Preet Bharara's Southern District in NY

There are also cases in Erdogan

Erdogan has a drug runner Reza Zarrab is a bag man for Pakistan to Turkey Drugrunning

Zarrab was arrested last April and has a pending case with Preet Bharara,

So the surprise firing of Preet Bharara [will cause GulenGang -- HRCRatline to attempt to spirit Zarrab back to Turkey] because if he talks, he will expose the whole drug trade and the 40B dollars in Malaysia.

Preet Bharara has a signature of taking out low-level "pizza delivery guys" of the drug biz. He never goes after the Gulens or Clinton's gang.

{{ Never mistake incompetence for Malice, George. After all, these guys work for the same Gov that brought you Obamacare's website rollout, the DMV, and who misplaced billions of dollars of cybertools--they are a joke, and now everyone knows it. But they are also decidedly dishonest. It's hard to know if they are incompetent, dishonest or maybe even both. }}

NYPD Chief Robert Boyce says there are remarkable crimes in the 650k emails, and yet Preet Bharara looked the other way (at his time magazine story) instead of going after the Hillary crimes.

HRC connection to Amjad Awan via Mena Airport during Iran-Contra

Hillary's server is perhaps a staging server to sell information to other countries

But it looks like Huma Abedin's server is the treasure trove

[\[Day 139 Part 2 / 11-03-2017\]](#)

In any kind of war situation you need not only people on the ground, as in the Muslim Brotherhood in Libya and Syria; but you also need people running the Network Operations Center--sometimes they call it command and control or eye of god. Or if you're trying to tip-off the Muslim Brotherhood in countries where we're trying to destroy ISIS, you also need information technology folks like the Awan bros to feed information to the guys on the ground so they 'just miss them'. Like Osama Bin Laden--we always 'just missed him'.

HRC recap, Hacking recap -- 'management of the battlefield from an operations / IT perspective'.

Now that Preet has been fired, hopefully a new NY DA and will look at the files.

I imagine the "shredders" are going crazy now on the Trump file, the FISA file for the Trump tower and all the other cases Bharara was working on regarding Gulen's gang.

The key thing Trump has to do now that Preet is gone is to go after Gulen, because he had cases in front of Bharara that were being slow-footed at SDNY, as well as Reza Zarrab Turkey Drug deliver boy--who knows the Ratline. Zarrab can lead to the Kingpin if you get him to talk.

Dyncorp does have a contract for teaching the Pakistani Police PSP SSP do the ratline in Pakistan

The policing is going to be based out of Lahore, Pakistan; the ratline is going to be by the 'Stan' border

Defense Information Systems Agency DISA -- runs the global information grid GIG and who is the biggest user of GIG

Hillary Clinton was the biggest consumer of this system when she was Sec of State. She had 4 projects running simultaneously: the Haiti earthquake, Enduring Freedom, Afghanistan, Libya { { zero footprint? } }

This GIG is the 'Eye of God' --

"These folks are managing Hillary's assets"

[\[Day 139 Part 3 / 11-03-2017\]](#)

Key point is that these servers in the GIG are not only targetting soldiers in the battlefield, it's also targetting citizens of the US through the homeland security information.

So you don't have to just worry about Andre Carson being in the Muslim Brotherhood and getting funding from the Muslim Brotherhood--that's just one risk, his membership in the House Perm

Select Committee on Intelligence, and his Membership in the Subcommittee of "Emerging Threats"

You (HRC) also have to worry about the targetting of individuals; specifically those people on Hillary's Political Enemies list.

The Awan server is not just stealing [US intel] information to protect ratlines overseas, they are also tracking individuals in the US and retaining that info {{ From Palantir/PROMIS type software and this GIG }}

All Sessions has to do is go and look at the VISAs that Kzir Khan and Hogan lawfirm are cycling through these experts to do this kind of hacking.

Hacking of cellphones especially.

You're going to see that Hillary is very interested in the location of DISA, which is called the Joint Spectrum Center in Columbus Ohio. {{ SOURCE? }}

That is where DOD picks up the signal intelligence when you get a new cellphone--they say 'oh we got a new person we need to track', and that's where it's going to go to Homeland Security, and that will be in Columbus. And that's how they can coordinate with local and state law enforcement as well as other federal agencies in these fusion centers to track you 7x24

They can do it via triangulation of the cell radio stations, satellite, GPS.

The AWAN server is also going to also have foreign affairs information on oil and deals [economic espionage data]

"Awans Own Car Dealership that Lauanders Money"

Fall Church, VA where Awans had their false front car dealership is also the center for DISA, for the GIG.

The Dept of Homeland Security where they treat the US like a battlefield {{ against US Citizens }} is going to be in Columbus, Ohio Sessions has a chance to put in a DC DA to take on this issue with the 20 House Burglaries

All Sessions has to do is Subpoena the Palantir records. You can start in the joint operations center--there's going to be one in Utah, Silicon Valley, in Columbus OH

You can't have someone in the FBI working against you!!! Get them to recuse himself. Do NOT have people in counterterrorism people in the FBI work on this. They call it "the wall": counterterrorism on one side, field office on the other. Every one of the counterterrorist side is going to be on the McCabe side and will work against you. You've got to get people from the field-office side to work on this

[[Day 140 Part 1 / 12-03-2017](#)]

140 days ago Hillary was about to be president, Awan Pakistani IT spies were going to be in the House Intel files for another 8 yrs and

the Muslim Brotherhood was going to have more support for topples around the world. So a lot has changed
McCabe is still running Huma and Hillary's server investigation but he just lost his right-hand-man Bhahara.
McCabe went around the world with the counterterrorism division of the FBI basically the CIA infiltration into the FBI and Preet was his right hand man for issuing / approving wiretaps and so forth around the world, as Wall St.'s district attorney
{ { just to explain Bharara was the "Wall St" DA and so was able to get FBI to try to bust up white collar crime, which is worldwide--so now you understand how a Southern District of NY prosecutor can be in such a powerful position, when it sounds on the surface like Preet is some small potatoes NYC attorney busting kids with small amounts of plant material on their person } }

Karen Hudes talks about the 147 companies that are interlocked on Wall St. that own 40% of the wealth of stock exchange, 60% of the earnings. There is no way you're going to unlock those Wall St. interlocking companies if Preet Bhahara is in charge. SO there's good hope in the long run when the World Bank starts getting audits, as well as the Clinton Foundation in NYC.

The next shoe to drop is to honor the request of Erdogan to extradite Gulen to Turkey and the whole network falls apart*, because this is where the money is coming from 40B in Malaysia, 2B that Hillary has stashed in Malaysia in drug profits.

How do I know that the Awans were involved in cellphone hacking?
Their own stepmom said so
How do I know they are radicalized? Their own Facebook says so.
How do I know they are doing hacking other than their stepmother?
Dennis Kucinich is wondering "how did i get hacked in my congressional office?"

DISA GIG infographic -- we are bringing in people in Pakistan and training them in IT, and then they are hacking people like Dennis Kucinich

How do we know they are hacking servers? We have police reports and stories about the 20 office breakins
Where is the server now? That server went along with them to Pakistan { { Did it? I thought the Capitol Police seized it. Is that 'server' the "laptop and other equipment" they skidaddled to Pakistan with from Mohammed (father)'s house in stepmother's story?
SOURCE NEEDED } }

Who got them VISAs? Omar went with an immigration lawyer to the White House to get them VISAs. And they got DIPLOMATIC VISAs
No investigation information on the burglaries from Capitol Police or FBI has emerged since our last update.

About the Preet and McCabe Partnership: they know a lot about the Awan brothers and they decided not to investigate--that was McCabe's counterterrorism job at the FBI

Let's not worry about Karen Hudes--I shouldn't have mentioned her she's a "conspiracy theorist" {{ so what do you think you are, to others? }} -- but she did reference a World Bank study in Zurich -- It talked about modelling Wall St and did a cluster analysis and picked out the firms that were driving the use of counterterrorism for competitive advantage

If there is going to be crime, then you look at those concentrations of power, that's all I was saying [with Karen Hudes]

Both McCabe and Preet have looked the other way on the 650k emails on HRC/Huma/Awan servers and the Police Chief said there was wrongdoing. They have been colluding with ratline for a long time.

If they found Mike Flynn's 533k for being under surveillance, then they know all about how the 40B dollars got into Malaysian Banks for Gulen

Comey is slowfooting in the FBI--he used to be DA Southern District of NY, Preet's old job--he was slowfooting with Zarrab, but he's gone.

{{ Don't let Hillary's emails hit your ass on the way out }}

We know about transfers through Al Kadi between Turkish banks.

Zarrab has three different citizenships. He's the obvious go-between with the Gulen groups and Muslim Brotherhood groups.

We know the Awans cleared out their "dad's" bank account on their quick escape to Pakistan, according to stepmom's story.

Preet knows about all this, so does McCabe. {{ They know at least what George Webb knows, because Webb only works with published media stories }}

When we have foreign nationals doing wiretaps {{ points to Kucinich }}, Preet and McCabe may or may not know about it--but let me tell you that's what counterintelligence is all about. You're supposed to know when people come into the country that have an intelligence backgrounds and hacking backgrounds, so that you can track them. That's what our taxpayer money is for.

They what computers the Awans took, they know how many thumbdrives, hard drives, etc. They chose not to investigate. They chose not to publish the Awan brother's pictures. They know exactly how much money went through the Awan dealership, and they could have turned this all over if they wanted to.

Nobody is going after the burglaries, that's something Preet could have used his resources to look into.

I realize that the study I quoted didn't model illegal organizations transferring money through cutouts

The system [Palantir] that the Awans had access to is very sophisticated. It had information on every person in the US.

McCabe needs to be recused from this investigation and then field-office FBI (4 different offices with Miami office out of the picture) need to have a special taskforce; the original offices that were investigating HRC originally

[[Day 141 Part 1 / 13-03-2017](#)]

@RepLouieGohmert -- only Rep in the house that has talked about the Awan brothers

We want to look into their access to top secret information being foreign nationals, 4 brothers actually and 2 wives

We want to look into the role that Omar played in getting VISAs at the White House

We want to look at their past activities in terms of wiretaps and intercepting cell calls and hacking activities

Rep Gohmert was talking about their unusual overcompensation, which is a red flag indicating that these were sham postings.

Awan Car Dealership Front company recap; they worked at this dealership at the same time they were working fulltime as IT House Staff.

Debbie Wasserman Schultz (DWS) was managing these Awans personally, Speier asked to get them top secret clearance

What I'm asking for is a letter today on Congressional Letterhead from Rep Gohmert asking the question: "Did the Awans have Top Secret Access?"

I'd also like to follow up on the fact that the [Awans seemed to have the password to DWS' ipad](#)

The Awans seemed to have a separate server (according to the news)

My [next] question is: "There are several news reports about staffers being fired in a criminal investigation by the Capitol Police, Did the AWANS have root-level access to the 3 most sensitive Intelligence Committees in the House of Representatives?"

Andre Carson received funding from the Muslim Brotherhood and yet he sits on the Emergent THreats subcommittee of the House Foreign Intelligence Committee which is a serious conflict of interest that deserves to be investigated as the highest priority.

We want the Awan server to be included in the investigation of HRC and Abedin

We want McCabe to recuse himself because of obvious quid-pro-quo and obstructing these investigations

[[Day 141 Part 2 / 13-03-2017](#)]

Made a mistake, it's @repLouieGohmert

Mental Exercise: What if the Awan brothers were Russian?

Or for that matter we don't know --- they might be working for the Russians!!

Suppose we had 3 different Awans and here's the proof they worked for 31 different Democratic reps, suppose were Republican reps
Suppose they were making 2.5x what the median income was for the other reps
Suppose their wives were making 3-4x what the media income was
Suppose they had a Car Dealership with known ties to Hezbollah, no.
Let's say some Ukranian Rebel group
Let's say the 4 Russian brothers got top secret access; instead of from the DNC (Debbie Wasserman Schultz), they got it from Reince Preibus
Let's say that that came out in the New York Times {{ Carlos Slim Times }} that they had Top-Secret Clearance for the Four Russian Brothers
Let's say that the Russian Brothers had access to Reps and Committees of Foreign Intelligence, Dept of Homeland Security, and Foreign Affairs AND they had a separate server.
What if the Russians did 20 burglaries, and then they high-tailed it for Russia, after they did the burglaries?
Let's say there were 31 different Republicans and 20 burglaries where hard drives, thumbdrives, laptops were stolen that the RNC had paid these Russians 5 Million.
WOULD CNN COVER THE STORY? {{ Shoulder Palin: You betcha! }}
What if the stepmother said they had hacked cellphones for a living and they fled to Russia?
In fact these people COULD be working for the Russians so they should be included in any investigation of Trump no matter what.
If they had paramilitary propaganda on their facebook site, violence rhetoric 'we are the awans, we break bones not hearts'
We have train tickets [they posted on their facebook] where we see that they are going back to Moscow, to meet with Putin
We have a server with 650k emails on it and Preet Bhahara and Andrew McCabe saying "hey there is classified info on these servers...of hillaries with lots of crimes....let's say Weiner is meeting with the Russian ambassador instead of the Israeli foreign minister"...WHAT WOULD HAPPEN?
We've showered a huge amount of attention on the one server that wasn't even in Trump tower talking to one Russian bank.
But here we have 650k on humas server and who knows how many emails on the Awan server and the obvious interconnections
If we found Russian email on any of these servers I guarantee you the House committee would be wanting to bring in the Awan server if it were Russian Hackers in the investigation
The Awans Could actually be working for the Russians
Intelligence services have been buying intelligence {{ outsourcing }} from other intelligence services since the beginning of time.

@RogerJStoneJr -- He's going to be called in front of House Intelligence Committee.

One defense is to present a more plausible set of circumstances I was being sarcastic in my last video when I said if the Awans were Russians would CNN have covered the story: Obviously they would If Roger Stone sees this story and the evidence here, he'll be convinced.

Awan recap

"Paid more like spies than Congressional House Staffers"

Most House Staffers don't have an exotic car dealership or their wives have one as well while working as House IT

Most House Staffers don't have Top Secret access, especially not Pakistani Nationals and their wives

Awans had the password to Debbie Wasserman Schultz's ipad[1].

Daily Caller for the most part has covered this; Fox and NYPost has covered this

Robert Boyce NY Chief of Detectives has said there is child exploitation on Huma's server AND money laundering

@PaulManafort

This Awan House Staff compensation information has been read into the Congressional Record by Rep Gohmert

In your defense, you're always allowed to bring in sources from the Congressional Record.

So the House Perm Select Committee on Intelligence can limit TRUMP today and limit the Dept of Justice to what's entered, but what's already been read into the Congressional record is fair game for future investigations. You can't limit the scope of the investigation once it's entered into the Congressional record { { Sadface Ratlners } }

Stepmother said there was money that was moved from the US to Pakistan

Since there is a Debbie Wasserman Schultz ipad that was compromised, there is now [an HRCRatline] link between the Huma Server and the HRC server

Smoking gun is witness testimony of NYPD Police Detective Chief Boyce saying there were felonies on 650k huma mails

Paul good luck in your hearing
